

Metadichol® Testimonials Gathered by Cosmic Connections (International) Limited

NOTE: The MagicDichol® Family of Products – NANO SOMA® Liquid, NANO SOMA® Topical Gel and NANO SOMA® Skin Cream – all contain the widely patented Metadichol®, a nano-emulsion of policosanol. The following are user testimonials. Neither Cosmic Connections (International) Limited nor any other individuals or incorporated entities who are in any way involved with selling or marketing Metadichol in any form make any claims about Metadichol based on these testimonials, beyond the claims made as part of the official approval or the regulations under which those products are marketed in any given country. None of us are medical doctors. This product is not intended to diagnose, treat, cure, or prevent any disease.

Also Note: we have renamed our Gel to streamline branding and make it easier to recognize. The formula and quality remain the same, and past testimonials have been updated to reflect the new name. Same trusted product, sleek new name.

March 21, 2025

My name is Howard Wolin. I am currently 79 years of age. I started as a medical doctor.

The training I had was as an intern and resident. The resident was in psychiatry in Chicago at what was then an incredible psychoanalytic training center and the guy who ran it was trained by Freud. In those days that was psychoanalytic psychotherapy - we actually talked to people and helped them deal with their stuff and then I went into practice at age 30 and started working with people in and out of the hospital - adolescents, geriatric patients with all sorts of psychiatric illnesses - psychosis, depressions, and then at the age of 36 I started, while I was practicing, a psychoanalytic training program concomitant with my practice and became a psychoanalyst at the age of 40 or 41. That involved seeing patients on the couch for about five days/week. That went on until I was about 50 but in my mid40s - and actually in my 30s - I started a healing path, which started on the outside and got deeper and deeper, with seminars and experience-based learning from colleagues who were very much smarter than me.

At the age of 50, I started a holistic practice. I shifted out of the psychoanalytic work into holistic practice, just functional medicine, functional bloodwork, kinesiology for testing for supplements. At that point, also, I started working spiritually; first with one colleague and then in the last 20-25 years with a native American tribe who have 3 or 4 reservations here in the States and a presence in Tibet, and I did the holistic work until 2012, retired, and then I'm still doing the spiritual work and working with friends and people close to me to use the kinesiology to help heal physical stuff with supplementation.

When I test anything and likewise when I test a supplement for a patient, or when I test whether somebody should marry someone or whether they should get a job or whether they should hire someone, the baseline test is 100%. Right? 10, 20, 30, 40, 50, 60, 70, 80, 90, 100%. Or if I test a supplement, if anything tests lower than 70%, I don't want to use it. If I test a food, a coffee, anything else, I hold it against my body in a certain way that we test, and if it doesn't test well, we don't do it.

So, when I tested Metadichol in the ways that I can test it, it tested - and I have confirmed this with colleagues who were at it as long as I - it tested a trillion percent positive, which is pretty phenomenal. At times it's tested higher in different venues. I do not doubt the quality and the frequency of this is so, so high that, whatever it's doing, whether it's Raghu's explanation about the Godfather, or it's mine or anyone else's, it has an incredibly high frequency.

March 21, 2025

Here's what I'm finding – using years of kinesiology experience and Metadichol as a filter or door opener, I'm finding that it unlocks/makes visible to the body's consciousness deeply hidden chemicals – pesticides, i.e. Kepone, and heavy metals adversary-neuronal tissue – i.e. thyroid, alveoli, bronchioles, spleen, renal tubules, liver, small intestine – it opens the door for the body-mind to recognize the toxins – and once recognized – i.e. not hidden, the body dumps/detoxes it, thus allowing mitochondria to function more effectively with full energetic expression.

But I have seen over 30 or 40 years and have done what I can to get rid of a whole host of polioviruses that were grown in chimpanzees. What I'm about to say to you is, since I've been using Metadichol, they have in the last month to 2 months, have gone from the RNA protein or the DNA protein or mutated – those are the 3 forms – into now dead viruses. And it's not just that, it's old, mutated stuff – Hemolytic B, it is smallpox, it is varicella first starting to outlive, then mutated, then dead, so it does do that.

It's not the Godfather that tells the cells to shape up their asses; the cells have an enormous consciousness. I think what it does is it shines the light on all the shit. And I'm finding it's not just viral or bacterial, it's every single toxin, including radioactive Strontium 90, which I got a huge dose of as a kid in New York and it's including all sorts of heavy metals and it's including all sorts of pesticides. I think what it does is it shines the light, opens the door to the cell seeing them, and then the cell knows already because they're all conscious, to get rid of it and sweep it out. That's my take.

I could be wrong but that's my take on it. It makes the crap visible.

Let me give you one example. I have a massive menu, but the menu has histological points, Gamma 2 which are called neurological points, and all sorts of other body points. Over many years but especially over the last few months there's been a huge amount of stuff clearing out of my liver as other places clear, and I'm working two days ago and suddenly the word sinusoid comes up. What it is, it's not even a capillary. It's tinier than a capillary and it's in the liver, it's in the adrenals, it's in the bone marrow and all sorts of sinusoids start showing up. But, importantly, all sorts of toxic crap of the same sort that I've found shows up there, and the way I do it is, when it's recognized by me, through the menu, I write it down on a paper, I hold the paper with the writing facing out, I tap the body and the body is going to start dumping it like crazy. How do I know that? I know it but I have an incredible physical therapist who, when I'm working, and she works she'll see all sorts of either toxins or infections pouring out.

- 3 -

www.magicdichol.info.

March 21, 2025

But here's the other interesting piece. The body hides things so that it can seal around and protect them until it's ready to let them go. And if it lets it go in one place, it lets it go in other places. So, Strontium 90 now is coming out from all over.

But the fascinating thing about Metadichol – Raghu speaks about five sprays and I don't doubt the science of his genius, but I have variously tested anywhere from five sprays once/day when I started; now I'm at a point where I can be testing at times 50 sprays five times/day and now 75 once/day; yesterday and the day before, 65 twice/day, and I trust my testing and something is going on where the body is saying that's what I need to get rid of whatever this shit is. So, I'm putting this out there, not to dispute him but to suggest to you is that it really could be a lot different, depending on the day, the moment, and what's being dealt with.

Now, this could just be my vehicle that needs, whatever it needs to do what it does.

And I said this to you when I met you; I've been at this with supplements, and this is the best thing that will fix anything in the world. All the supplements I've taken are target specific, and there's a company called SpectraCell that I use for the consult for over 30 years, the least amount of supplements with the most effect; you can't easily, palpably see what a supplement does. You can't say, "Oh, my God, it's like the movie "Paul" – he touches her in the eye and her eye heals instantly."

And most people, when they have this; I can see it in a way that other people really can't see it. I can see what it's doing, I can see what's happened to my energy, my runs are better, I'm calmer in many ways. I mean there's a lot of things that it does. I can see what it does inside in terms of helping stuff, clearing stuff out. Mostly it's my intent but this is the helper.

Beyond amazing – after years of bullshit, this is something beyond real.

Howard, March 2020

"I've been using NANO SOMA® for a while now, and it's been a useful product for supporting my health. With my kids bringing home all sorts of germs, I like using it to help keep my body in balance and feel more resilient. I also use it on cuts and blemishes, and it seems to help with recovering and soothing irritated skin. Overall, it's been a simple, effective product that I reach for when I need it."

Ana S., March 2025

www.magicdichol.info.

March 21, 2025

“I highly recommend NANO SOMA®. I had difficulty breathing and lung issues. I started taking NANO SOMA, and within a week, my breathing improved. I would tell anybody with lung issues to try.”

Brian, March 2025

“I started taking NANO SOMA® as soon as I could get it in order to help me deal with Morgellons. Since then, I haven’t been without it. I use the liquid, the gel and the skin cream.

Taking the liquid simplifies things for me. I don’t have to take other supplements. Vitamin C and D are taken care of, and I have no brain fog despite being 70 years old. I have trouble measuring powders and drops of liquid, but I don’t have to worry about any of that with NANO SOMA; I can just squirt it in my mouth and I’m good to go.

if I get sick, I take more until I’m feeling better. if I get a cold or allergies, I squirt some up my nose. It burns a little but it does the job. Within reason, I eat whatever I want. I love fruit and vegetables but I like pie and ice cream, too. NANO SOMA helps me regulate my weight and smooth out my energy. I noticed that when I first started taking it, I felt more like myself somehow. That’s a hard thing to explain, but I think it must have something to do with the knitting together or the fusion of body and spirit.

The NANO SOMA Topical Gel is good for anything going on with the skin that burns or itches – scratches, cuts, burns, and even really itchy insect bites. I’ve even used it on areas of my body where there’s inflammation, like at the base of my spine around the tailbone where sciatica originates, and gotten relief.

My nose and the area around it is prone to skin issues. I had acne as a teenager and basically always had problems on my face. I use the skin cream on my face pretty much every night now. It’s so light and smooth, and it smells great. I can’t say my face has cleared up completely, but we’re talking about longstanding skin issues, and they’ve certainly diminished considerably over the past couple of years.

It’s so true in my experience that NANO SOMA instructs the body on how to take care of business and be its best. it doesn’t target any particular problem, and that’s the beauty of it. My biggest difficulty in sharing it is this concept. I saved some of the videos to share with people with issues like Type 2

March 21, 2025

Diabetes and leaky gut because I know how much benefit they'd get if they took it for a while. I really don't plan to ever be without it.”

Lorie McCloud

Dave Hodges put me onto NANO SOMA® and I thank him for that. I have been using NANO SOMA for about 5 months, I believe, and I have had great results with alleviating the discomfort in both of my legs. NANO SOMA relieved 90% of this discomfort – it really works.”

Dr. Michael Williams, January 2025

I was recently given 2 anaesthetic injections for my teeth. Then, I started having effects like joint discomfort, skin lesions and blood clots, which were very uncomfortable. I started using the NANO SOMA® Topical Gel and the discomfort subsided. These sensations are now under control and some have disappeared. This gel was the only thing that helped. I thank you for this product and recommend it for any skin problem. Thank you for such a fantastic product.

Frank Tatterton, January 2025

I've been using NANO SOMA® Liquid for several months now. I started with 5 sprays 4 times a day for 2 weeks, and then went down to a maintenance quantity of 5 sprays once a day. I've found that taking it before bed is beneficial for sleep. I used to awaken at least 3 times per night; now, it's only once, and I sleep through until the morning. That in itself is outstanding, but I have much more to report.

First, a little history. Almost a year ago, toward the end of winter, I started losing energy. The loss was so profound that I went to my doctor. After the usual labs were done, I went for the visit and had a live blood analysis completed under dark field microscopy. I was pretty shocked to see the results; my blood was loaded with self-assembling nanotechnology, and my red blood cells were completely oxidized and all clumped together. They looked dead, but the nanotech (what they call synthetic biology) was very much alive. Quantum dots were super energetic and you could watch them busily guiding the building of strange fibers in my blood. There were also some scaffolding-like structures

March 21, 2025

that looked like computer chips. My doctor explained that she had been seeing a lot of this phenomenon in COVID-vaccinated patients for a little more than a year, and that recently, she was also finding the phenomenon in the blood of unvaccinated patients – as the mRNA vaccines apparently shed from person to person. She recommended chelation therapy with EDTA, high doses of vitamin C, and methylene blue, which I underwent. I had to stay in her town for three days to accomplish it all, but it was definitely worth it. I started feeling better by day two and great by day three. Subsequent live blood analysis was amazing. All I could see were my own red blood cells and a few white cells. They were almost "dancing" -- full of energy and totally full of light, free and not clotted.

It was a very expensive visit, and I was sent home with some nutraceuticals to support cellular health and instructions to repeat the treatment in no more than three months. However, I have not been able to afford to go back. Instead, I sourced methylene blue and EDTA from Global Healing and followed their at-home protocol. It worked great for a long time but, eventually, I began to have problems. I knew the meds were working because I could see the metals and the melted hydrogel in the toilet bowl. However, I was becoming unable to freely pass stool, which I knew was causing reabsorption. So, I started taking more days off from the meds than I normally would. That really helped with passing stool, but, again, my energy levels began to plummet.

Then, I found NANO SOMA and lots of good things have happened since. My energy returned, my body is producing collagen, which has made my skin and hair come alive, and I'm building muscle, too. I'm able to use the chelators – 3 days on, 4 days off – and I don't seem to be losing ground, even though my beautiful retirement home lays directly below one of Space Command's testing sites, and our air is constantly contaminated with all the detritus of geoengineering. I honestly don't know how much of this an elder human can take.

I'm not sure I'd be able to be here now if it weren't for finding NANO SOMA. I feel like it's keeping me in a much healthier state.

Nancy Anderson, January 2025

I tripped over a raised-up metal irrigation head in the garden and ripped open my shin. Fortunately, I was already a fan of the NANO SOMA® Topical Gel and immediately started to apply it daily. In a pretty short time, it was no longer scary, and before long, there was no trace of it ever happening. I

March 21, 2025

am currently helping my husband's wounds from a fall earlier this summer. All of his scabs have fallen off.

Kathleen R., September 2024

My cat was barfing and having diarrhea once a week for about 5 weeks, though he seemed perfectly fine the rest of the time. I could not get him into the carrier for a vet visit, so I started giving him one spray 3x/day on his food. It has been about 5 weeks, and he has not been sick at all.

Carol M., July 2024

I'm really excited by your products! There is a little dog named Mia, who we could help to survive a bad tumor. She nearly died last winter and had a lot of physical discomfort.

We began applying the NANO SOMA® Topical Gel on the tumor. It hasn't vanished yet, but it looks much better. Mia, who is 13 years old now, began to behave like a puppy again! It's really a miracle!

Best wishes,
Dorothee A.

In early March, I was not in bad shape, but I was diagnosed with pneumonia and Respiratory syncytial virus (RSV). I was completely debilitated, sleeping 16-18 hours per day, and couldn't walk up a flight of stairs.

I was initially treated with antibiotics and steroidal prednisone. After a couple of weeks, I stopped taking the medications, except my diabetes medication. I quit the steroids and antibiotics because they were not working to relieve my symptoms.

In mid-March, I saw an expert pulmonologist, and he gave me a grim prognosis. He stated that the RSV was severe and had stripped away my lung linings. He said that they may not return to normal,

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

thus permanently impairing my lung function. The implication was that I could be on oxygen in the near future AND FOR THE REST OF MY LIFE.

Shortly after that, I was introduced to NANO SOMA®. Because one can't overdose on the spray, I was taking the spray on an hourly basis. Within a week, my energy improved, and I returned to the gym. Even though I was in a weakened condition, I worked on increasing my workload daily. Within a month, I was back to full normal activity. **Today, I'm stronger and more athletic than I've been in 25 years.** The only product I was taking, FOR LUNG FUNCTION and support, was NANO SOMA.

When I returned to the gym, my workload increased, and my right knee, which had been diagnosed as bone-on-bone, began to swell, thus limiting some of my activity. Subsequently, I learned about the NANO SOMA® Topical Gel. I began to apply the Gel to my injured knee every day. Today, I'm doing things athletically that I haven't done in 25 years.

For example, I can do squats, deadlifts, and step-ups. Additionally, I'm running sprints and pushing a sled for cardio. Although my muscles get sore, my knee does not swell. If I had done just a fraction of what I described above in the past, my knee would have swelled considerably and rendered me inactive. Now, I'm stronger and able to do things I haven't done in 25 years.

These two products brought me back from a grim prognosis. **I have my life back**, and my lifestyle has improved dramatically. And, modestly, it's nice to hear your friends and family tell you how good you look. And I'm not exaggerating when I say that younger people come up to me in the gym and ask me where a man my age gets his energy.

I'm choosing to use these products for the rest of my life.

I should also note that, through the course of this ordeal, I have been diagnosed as non-diabetic with an A1C of 5.0, and I was just recently taken off of all diabetic medication.

I set a goal to be able to play a little basketball to help improve my health. Last night, I played for 30 minutes. I've had no ill effects today other than a little fatigue. The NANO SOMA® Topical Gel rules – I've had no swelling on my bone-on-bone knees!

Also, despite the prognosis that I'd need to be on oxygen and limit my activity, my son actually took the picture below and forwarded it to my wife to prove that she wasn't going to be a widow. And after this, I completed a leg workout.

www.magicdichol.info.

March 21, 2025

This was the first time in 28 years that I've been able to play basketball without my knees swelling up!

Dave Hodges, June 2024

Pepper, my small dog, has taken NANO SOMA® for two years now. She gets three sprays twice a day. She'll be 15 soon and still jogs with me. She climbs up Grouse Mountain, or about 2500 feet vertical, and runs down with me without any problem. Albeit a small dog, she still floats when she jumps into the car. Perhaps NANO SOMA is helping extend her longevity.

Rick, May 2024

I have saved a couple of my cats with NANO SOMA®. One had parasites and another had a large lump near his throat. Both were made healthy again with daily sprays of NANO SOMA in their mouths, 2-3 times per day for weeks. NANO SOMA is unlike anything else I've ever used and I never want to be without it.

Lana, May 2024

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

Since taking NANO SOMA®, my A1C levels have lowered to 5.9. My cholesterol and blood pressure have also lowered. My blood pressure is now 124/80, and it used to be 138 to 146/84 to 92. NANO SOMA also helps to soothe my red itchy eyes and any issues that might come up with my sinuses. I put NANO SOMA in an eye dropper for my eyes and a nasal spray bottle to use up my nose. It helps clear up my sinuses so that I don't get any infections. I want to thank you and your team for all you do. NANO SOMA is a game changer.

Maria, May 2024

Yesterday, I badly damaged my eye after a mishap with my contact lens solution. I accidentally soaked my lenses overnight in a 3% hydrogen peroxide solution, instead of my normal saline-based disinfectant. When I placed the wet peroxide-saturated lens in my eye, the immediate significant reaction caused my eye to close to the point it was difficult to open. At the same time, my howling in severe discomfort didn't help. I tried to extract the lens off my eye, not realizing in my panic that I severely scratched my cornea while forcefully pulling the contact lens out.

After removal of the contact lens, the sensations became worse throughout the day. By that evening, they were severe to the point that I was preparing to pay a visit to the emergency room. At 3 AM, with no sleep yet due to the severe discomfort and oozing eye, I placed three drops of Metadichol (NANO SOMA) in the eye, which at this point was swollen shut and exhibiting clear signs of oozing and other issues.

Two hours later, I placed another three drops of Metadichol (NANO SOMA) in the eye. Another two hours later, the redness and reactions decreased significantly. In another hour, I was free from all of the discomfort.

I am very familiar with eye issues from past experiences and prior eye surgeries. I had been expecting at least several days of discomfort as well as redness, which were both gone within 24 hours of the accident. I am truly grateful, and amazed at the response from Metadichol (NANO SOMA). Many thanks to Dr. Raghavan for his diligent development of this product.

Joseph M., March 2024

Last evening, I ate street food. That night, I woke up with severe abdominal discomfort that was even making me sweat. I could not stop it. Then, I took five sprays of NANO SOMA. In just a few minutes,

- 11 -

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

that excruciating experience began to fade. Thirty minutes later, I took five more sprays and felt significantly better. I then fell asleep soundly.

Diana, March 2024

Once, after getting a rather long hug from one of my family members who had taken the jab, I developed something like COVID-19. NANO SOMA literally pulled me back to life.

Galina, March 2024

I've been taking NANO SOMA daily for over two years. I had known about it for a while and finally ordered some during the 'plandemic', after watching the video interview with Kerry Cassidy. I don't have any serious health issues. I just thought it would be good for daily wellness and rejuvenation. After about two months of regular use, I noticed that I was not having to get up in the middle of the night to urinate. I'm 71 years old, and I'd been getting up to urinate several times a night for many years. So, my prostate has been rejuvenated!

Then, spring came, and after a few weeks, I was surprised that I had no response to the pollen, which would normally cause itchy eyes, sneezing and a runny nose for six to eight weeks. I also noticed that I hadn't had any cold sore outbreaks in my mouth for a long time.

I had the "omicron variant" of COVID-19 years ago. I felt totally exhausted, had a high fever, nausea and a bad headache, but I took a lot of NANO SOMA and was only sick for one day. It took two days to get my energy and appetite back, but all of the other issues disappeared. The only problem is that when I tell people about it, they look at me funny. They think it's too good to be true or a scam! I am a professional energy healer, Reiki teacher and astrologer. I have been trained in two Hindu lineages, and I meditate with Sanskrit mantras. I am highly empathic, intuitive and psychic and when I heard about NANO SOMA, watched the video, and heard about the 5600-year-old temple in India with the pond where people offer jaggery, I knew that NANO SOMA was the real thing and ordered it right away. I will never stop using it!"

George, March 2024

NANO SOMA is doing great. The skin on my face, legs, and arms is clearing. Along with NANO SOMA, I lift weights (kettlebells) and do bench presses, etc. with a trainer. I'm 69 years old. My skin issue is disappearing and my mood is more stable. Thank you for this treasure of NANO SOMA!

March 21, 2025

Nancy, February 2024

Several months ago, I met a young US army veteran at a local store. He had been lucky enough to live through a bombing in Iraq, but from a resultant head injury, has since suffered extensively from PTSD to the point where he cannot rejoin the workforce as a building contractor.

His short-term memory is almost nonexistent. He cannot recall what he said two minutes ago. I felt terrible hearing his story, and asked him to wait there at the store while I retrieved three Metadichol (NANO SOMA) samples recently provided to me from my colleague, Dr. Raghavan. I returned with the spray bottles, and the veteran thanked me and left.

Eight months later, I ran into this man again at the same store. He immediately recognized me, which caught me off guard because I had forgotten his face. He thanked me profusely for the Metadichol sample and said it "changed his life." He stated that the positive effects it had on his mood and mental stability prevented him from taking his own life. After consuming what I gave him, he did not have the means to purchase more. Again, I asked him to wait at that location while I drove 10 minutes to return with more. This time, I gave him all that I had left in my own supply, kindly provided to me by Dr. Raghavan. As I handed him the Metadichol, he looked at me and began to cry, thanking me profusely.

This moment alone was one I'll never forget.

Dr. Joseph, February 2024

I have been using NANO SOMA for my general well-being over the last year. Recently, it has been very helpful in prompting my body to clear out the spike proteins in my heart. I recommend this product for health and wellbeing and for immune system support!

Xanthoula, February 2024

I've been using NANO SOMA daily for over one year now. Even though I've always played sports, exercised, ate mostly nutritious foods, and stayed healthy over the years, I believe these daily sprays in the morning have led me to an amazing state of wonderful health! I look forward to sharing this

- 13 -

March 21, 2025

magical tool worldwide in the near future. Keep up the good work for we will support you in whatever way we can.

P.S. I turned 64 this week and I am constantly told, “You do not look 64!!”

Rick S., January 2024

Dear Roland,

My body has overreacted to the sun for many years. This has been a very annoying and itchy health matter for me. As you can see, I have been taking NANO SOMA for several years. The good news is that this situation has completely disappeared, which is great.

With NANO SOMA, I believe I am giving my cells and immune system the best support.

I hope to have served with this modest report.

Charles, January 2024

Translated from German by DeepL.com

Hello Richard! This is Lisa from Australia.

I love the reports that people send in. For me, NANO SOMA was the missing ingredient for my body. I’ve had a range of health issues throughout my life, all of which indicated my immune system was terribly compromised. My body has shown over-reactivity to wheat, gluten and dairy and a poorly functioning gut since childhood. I also suffered from various ailments from 16 years old to age 47 due to poor immune health. This pattern of imbalance ended with my thyroid, which began to behave in an underactive way.

As the magic of life would guide me, I discovered NANO SOMA two years ago. It was the final piece to my jigsaw puzzle. My body clearly did not have the receptor it needed for Vitamin D, and NANO SOMA seemed to help my body address this!

Within six months, my blood report showed that my thyroid function was in a normal range. I continue to play with the NANO SOMA protocol to boost things as needed. For this, I am eternally grateful.

March 21, 2025

Lisa, January 2024

I've noticed that my little pug is more energetic after a few weeks on NANO SOMA.

Patrick, January 2024

My husband and I have been using NANO SOMA for two years now. We did the initial Start-Up Protocol and have taken five sprays once daily since. During this time, we haven't been ill in any way – not even a cold. We are well into our senior years, and for the most part, we feel great. I think NANO SOMA has played a big part in our wellbeing. I thank Dr. Raghu for creating this wonderful elixir, and all those participating in the marketing and shipping of it to all of us.

Margaret, January 2024

Shortly after my 79th birthday, I discovered a large skin tag that had suddenly appeared on the back of my neck. Eventually, I figured out what I had done to cause it, and I stopped doing that action. Meanwhile, I applied the NANO SOMA Skin Cream to the skin tag twice. It felt to me like it had disappeared, and I had a friend confirm it for me. We were both amazed at how quickly it had worked. That was over three months ago and it hasn't returned.

Carole, January 2024

I developed a sudden-onset palsy (muscle weakness) in one hand, which was likely high-stress related. Right away, I began increasing my use of NANO SOMA, taking multiple sprays many times a day. The normal strength and range of motion of my weakened hand returned within about a week. Having never had such a temporary paralysis, I don't know if this speed of recovery is typical or truly another excellent result supported by NANO SOMA. I do know, however, that I was able to "spare myself" the probably-expected "freak out" from such a surprising health episode because I could trust deeply that I could – and would – fix this issue with the tremendous help of NANO SOMA. My confidence in its power to help me makes all the difference in my experience. I am very grateful!

Cathy, January 2024

I have had lung problems since 2015 and then caught pneumonia around May of last year. I continued taking NANO SOMA. Last fall, I started regularly walking half a mile to gain strength, and I started

March 21, 2025

taking 20 sprays a day of NANO SOMA: 10 sprays when I woke up and 10 when I went to bed. Based on a PET scan, my lungs have shown signs of recovery, and the emphysema I had is now almost unnoticeable.

AJ, January 2024

I have been using NANO SOMA for several years now and have been keeping quite healthy for being 70. I use five sprays each morning, and if I feel under the weather, I will increase that to twice daily, which seems to keep things away. I have even had my son and daughter use this product, which has been very helpful for them when they catch their colds and flus.

I love using natural products, so thank you for this amazing product.

Sandy M., January 2024

I started to apply the NANO SOMA Topical Gel to skin tags: one on the right hip and one on the left shoulder. I would also apply it to one on my right knee, and another on the side of my back, which was hurting and growing faster. One of the skin tags is now a bit smaller, the growing knee spot has disappeared, and the hurting spot on the side of my torso became less dense. This spot became softer almost every day; in the end, I could scrape it off with my fingernail.

Regarding NANO SOMA: a significant thing I noticed was its effect on a growing toenail fungus of mine which had been a problem for many years. I was concerned and worried when a medical treatment had no effect whatsoever. The advice I followed after that was to have a footbath of mustard and cayenne powder every day until the fungus was gone. This was working, but the progress was very slow.

Since taking NANO SOMA, however, the process accelerated noticeably, and the toenail is now completely back to normal.

I'm sure you can appreciate the relief I am feeling, since such an issue can lead to a surgical removal of the nail!

I am very grateful to NANO SOMA and its inventor!

Lena, January 2024

Dear Dr. Hillermann,

March 21, 2025

About six months ago, I went in for my bi-annual health check-up and it seemed as if there were some issues regarding my blood pressure, as it seemed to be verging on the 'high' side. I was asked to take and record readings over the next six months.

In December, I went in for my check-up with some trepidation, and I literally waltzed out with my GP's words ringing in my ears: "I wish all my patients were clones of you". He was beaming away. Happy Doctor, happy me!!

I just know it was NANO SOMA, which I have been taking for just over a year now. I'm so grateful to have found out about it and believe in it. The best part about it, however, is that it is natural and not synthetic.

Anne, January 2024

Hi Richard,

I have been using the NANO SOMA Topical Gel on the eczema on my fingers. I only used it for two days and the skin there totally recovered!

Marie, January 2024

Three months ago, I fell on the street, dislocated my shoulder, and was taken to the local hospital. I had a bit of a split on the upper side of my lip from the fall, and the attending nurse wanted to do a stitch there. I declined. As soon as I got home, I applied the NANO SOMA Topical Gel to my lip and kept this up for the next three weeks. My lip healed without a trace of damage.

Zena Jann, January 2024

After receiving two jabs and one booster, I was very concerned about its effects. I started NANO SOMA in late January of 2023. I did five sprays four times a day for the first bottle, five sprays three times a day on the second bottle, and five sprays once a day on the third bottle. I immediately felt better after the second week.

The neuropathy in my legs and my feet are gone. My arthritis has gotten better as has my mental clarity. I'm 57 years old and will never stop taking the product. I'm also using the NANOSOMA Skin Cream, which I love, for my face and the NANO SOMA Topical Gel for any areas experiencing discomfort. I believe in my heart that NANO SOMA will protect my body from the long-term effects of the jabs. Thank you again, Dr. Raghavan, and God bless you for caring and creating a lifesaving product.

March 21, 2025

John V, January 2024

I use an eye dropper to get NANO SOMA into my eyes and ears. I have eye floaters and these have stabilized as a result. My ears also used to have lots of discomfort, but this is now gone, thanks to NANO SOMA.

Alvin, December 2023

I have been taking NANO SOMA for approximately six months now and apart from the immediate energy surge I noticed upon starting it, I have noticed my fungal toenail, which I've had for years, starting to grow out and look more normal. I had a smile on my face and thanked NANO SOMA, for this little thing is a big thing in my eyes! I look forward to many more experiences!

Satinder, January 2024

My dog, Pepper, who has received five sprays of NANO SOMA every day for a year and a half, suddenly had a wart on her head drop off. Of course, one can't definitively say it was NANO SOMA, but the wart had been there for a few years. She's pushing 14 and a half, and she still runs with me.

Richard, December 2023

I have been using five sprays of NANO SOMA on my teeth and swishing it around my mouth before swallowing. It seems to keep my teeth cleaner with very little plaque building up. Before doing this, I would go for teeth cleaning every six months. Now it has been several years since I've felt the need to get them cleaned.

L.F., December 2023

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

I thank NANO SOMA again for helping me to recover and keep comfortable during my shingles outbreak four weeks ago. The scabs came off within the first week. The discomfort was bearable and only intense for two weeks – thereafter, it decreased daily. What a truly wonderful elixir.

Maria, December 2023

From July 2020 to July 2023, I had diarrhea to the extent that I couldn't even work. Countless tests had failed to diagnose the cause of this issue and I had no treatment plan. Though I was originally diagnosed with tuberculosis, the prescribed medication I took for six months had no effect. Through a capsule camera scan, they found that I had many small 'clouds' in my intestines... The doctor then treated this as ulcerative colitis and prescribed me a steroid. After taking this steroid, my blood platelets dropped significantly and I was admitted to the hospital for a blood transfusion. I had to have blood transfusions twice a week, and the doctor said that the expectation was rather pessimistic.

My DNA report showed a high possibility for Crohn's Disease – an autoimmune disorder for which there is no treatment. Given this, I had no choice but to continue taking the steroids.

At this time, I was not only facing the consequences of a massive drop in blood platelets, but also experiencing continued diarrhea, no matter what or how much I ate.

I was admitted to the ICU for five days. On one occasion, the doctor even used a cardiac resuscitator to rescue me, starting with 50 volts, and increasing it to 150 volts on the last attempt. Fortunately, it successfully restored my heartbeat. After gaining consciousness, my body was in great discomfort. When I was discharged, I began taking Metadichol (NANO SOMA). On that first day, I took three sprays just one time. Amazingly, it felt like 80% of my discomfort was gone. Since then, I have been taking five sprays four to six times a day. So far, I have not suffered any diarrhea, I've had normal bowel movements, and I have not been admitted to the hospital. The blood platelet counts returned to normal levels and my heartbeat has normalized. I am now already back to work. For an issue that could not be diagnosed or resolved for over three years, Metadichol (NANO SOMA) had a resurrecting effect! Thank you!

KK, December 2023

CKD had kidney disease and was preparing to purchase a kidney dialysis machine for RM38,000. He also had pedal edema, swelling of the feet. He required crutches and a wheelchair, and he needed help from others to get out of bed. He would also get up to urinate four to five times every night.

March 21, 2025

After two bottles of Metadichol (NANO SOMA), the doctor told him that he no longer needs kidney dialysis. He can get out of his own bed without using crutches or a wheelchair, and he only gets up to urinate once or twice in the night.

See below for a Before and After of CKD's foot after two weeks with Metadichol (NANO SOMA).

CKD, December 2023

On September 24, 2023, a woman slowly walked into the office with the help of her husband. After the seminar, she took off her socks and asked whether Metadichol (NANO SOMA) could restore her index toe back into a normal position and alleviate the swelling and discomfort beside her big toe. She was told that this is unlikely, but it may reduce some discomfort.

However, after two days with Metadichol (NANO SOMA) – on September 26th – she was surprised to see that her index toe could move back to its original position without discomfort and that the swelling beside her big toe had already reduced. See below for photos.

Anonymous, September 2023

One user of Metadichol (NANO SOMA) was a 13-year-old girl who, from the age of five, experienced seizures every day for at least half an hour. She began to use Metadichol (NANO SOMA) in August. After her very first day with the product, she did not have a seizure. The second day, she had one brief seizure, for one or two minutes, and from days three to seven, she had no seizures. Since then, she occasionally has a small seizure lasting just a few seconds during bedtime. In addition, though she used to struggle to sleep in the past, she now sleeps soundly.

A series of anonymous reports on the normalization of urinary issues:

- 1) One 73-year-old diabetic male reported that his nocturia and his frequent and weak urination was resolved after a few days of taking Metadichol (NANO SOMA).
- 2) A 50-year-old woman with hyperthyroidism, who would have to get up to urinate five times every night, reported that these issues were resolved with consistent use of Metadichol (NANO SOMA).
- 3) One 65-year-old diabetic male who has on kidney dialysis took Metadichol (NANO SOMA) for a few days. As a result, he saw his nocturia, frequent urination, and weak urination return to balance.
- 4) A 58-year-old male reported that taking Metadichol (NANO SOMA) for three days normalized his system, which had experienced weak urination for years.

Anonymous users, December 2023

I've needed eye glasses for a long time to see long distances. So, I recently started using just a spray of NANO SOMA in my eyes twice daily. It stings for a minute, but then the sensation goes away. After

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

just a week of this routine, my vision is so much better, and I'm able to see the small type on a screen without wearing my eye glasses!

I've also had some areas that had sores develop (where things are clearing out), and the NANO SOMA Skin Cream helped bring soothing to those areas. I used it up quickly, however, so yesterday I got some NANO SOMA Topical Gel. This is resolving the appearance of the sores even more quickly! I'm amazed at the progress.

Dana, December 2023

My dear Dr. Raghavan,

In 2015, I was diagnosed with a pivotal injury to both knees and meniscus tears at MGH—Massachusetts General Hospital. Dr. Dinesh Patel, Chief of Arthroscopic Surgery and professor at Harvard Medical School, told me that although I had the bones of a 15-year-old, it was an injury common to soccer players. Undoubtedly, it was due to the fact that, being a long-time Arabian horse breeder, I rode often and accompanied my daughter on very tough training for endurance competitions.

The discomfort could be so severe that it became incapacitating. I decided against surgery, but in October 2021, I made the decision to have stem cell treatment that very month. You came into our lives and asked me to give you four months, and you sent me a box of NANO SOMA. Four months later, I did not need surgery or stem cell treatment, and to this day, I walk four miles a day or more. More than two years have passed, and I am forever grateful. Thus, a lifelong friendship began between you and our family. What you have brought to the world seems too good to be true, when in fact it is true. Your research is a great gift to humanity.

Warmest regards,

Mariana G, December 2023

One 97-year-old woman was reported to have frequent urination, frequenting up to seven or eight times a day. A family member reported that she would get up to go to the bathroom at least once or twice every night. On just her second day of using Metadichol (NANO SOMA), she only woke up once for urination, and her energy level, alertness, mood, and appetite also improved.

March 21, 2025

I was diagnosed with diabetes and hypertension and have been using medications for a long time. I come to Malaysia every week or two for check-ups, which cost over RM1500 each time. On September 12th, 2022, the test results showed an eGFR index of 22 and a Creatinine index of 210H, indicating a Stage Four kidney disease. The doctor told me to mentally prepare, as I might need to undergo dialysis soon.

Fortunately, I came across Metadichol (NANO SOMA) and purchased six bottles. I immediately started taking it. For the first two days, I sprayed 10 sprays every hour, and from the third day onwards, I sprayed five times a day, with five sprays each time.

After two weeks, the team followed up, but I didn't feel any effects. Another two weeks passed, and as I had not yet noticed any differences, I considered stopping my usage of the product. However, with encouragement from the team, I decided to continue using it until I finished all six bottles. Within just five weeks, on October 17th, 2022, the test results showed an eGFR index of 38, and a Creatinine index of 128H, indicating a significant improvement and elevation in kidney function. I am thrilled to be able to avoid dialysis and have decided to use Metadichol (NANO SOMA) long-term. I strongly recommend it to those around me.

Mdm. Lim Boi Sim, Indonesia. December 2023

I was infected with COVID-19. For the first two days, I had a high fever, cough, difficulty breathing, sore throat, no appetite, and fatigue. On the third day, my mom gave me a bottle of Metadichol (NANO SOMA). I was asked to use 10 sprays every hour. It is shocking that, after just one day, all of my symptoms were gone – like magic!

Anonymous, December 2023

I am 21 years old, and after receiving the third dose of the vaccine, I started experiencing emotional fluctuations. Sometimes I felt happy, and other times I would feel low, anxious, and even jealous. This also led to a loss of appetite.

After seeking medical help, I was diagnosed with depression and Fanconi Anemia. The doctor prescribed me a very expensive medication, costing RM400-RM600 per week. However, even after taking it for two months, my conditions did not improve.

Then, my father gave me a bottle of Metadichol (NANO SOMA). After a month, I noticed a significant improvement. My mind became clearer and my mood became more cheerful. After two months, I fully recovered and am able to resume my work.

A series of anonymous testimonials for sexual and erectile function:

- 1) One user of Metadichol (NANO SOMA) was a 73-year-old diabetic male, who, after Metadichol, began to have erections at night.
- 2) One diabetic male over 50 years old who was on kidney dialysis was unable to get an erection for many years. After taking Metadichol (NANO SOMA) for two weeks, his erectile function began to restore.
- 3) Another user of Metadichol (NANO SOMA) was a 65-year-old diabetic male and stroke survivor who was on kidney dialysis. He was unable to get an erection for several years and had no semen. After taking Metadichol for two months, his erectile function began to restore and he began to have semen.
- 4) A 74-year-old male who took Metadichol (NANO SOMA) for two weeks had an unexpected restoration of his erectile function.

Anonymous users, December 2023

I ordered the three pack of NANO SOMA for the second time since 2021. Back then, I wasn't focused on it. There was a lot of death in my life that year, and I was drinking while using it and skipping days. As you can see, I didn't order any more until last Friday. I'm 51 now, and I just started to use it again. It has no taste for me, as far as bad taste. I am on the five sprays four times a day routine. This is actually my 50th spray, as I started using it the day that I got it: November 22nd.

March 21, 2025

I work out three days on and one day off, and for the last few months, I've had discomfort in both of my elbows when I do my warm-up pushups – especially the right one. I did bang my left elbow on the weights while I was doing a decline a year or so ago, and I banged my right elbow a significant number of times, but nowhere near as hard as the left one. When I do my warm-up pushups, my right elbow was the problem; the left one wasn't as noticeable when I got up.

Well, after I took my first five sprays of NANO SOMA and worked out, I felt slightly more energy. I do credit this to NANO SOMA. I was like, 'WOW, already?'

Then, just a few minutes ago, I felt a SLIGHT sensation in my right elbow – NOTHING like it was before I started NANO SOMA. So, I did my 50 pushups with my feet on the weight bench with little to no discomfort and I'm AMAZED. I said, 'I have to go give a review.'

I thank Dr. Raghu for creating this, but first and foremost, I have to thank Dr. Presser for introducing it to me. I wasn't focused the first time I got my three pack in April 2021, but in this NOW moment, I'm MORE than focused, and I will be a LIFETIME user. After two days and 50 sprays, the discomfort in my elbow is all but gone when I do my push-up warm up.

Dmitri, November 2023

I am really loving NANO SOMA! I use five sprays daily in the morning for help maintaining an overall healthy body. However, recently, I developed an eye infection in an oil gland. After seeing my eye doctor, he stated that it would take one to two months before this would be resolved. I started using NANO SOMA three times a day, and within only two weeks, the oil gland is almost completely back to normal! I am in awe of this product! Next, I will be ordering the NANO SOMA Topical Gel for my skin tags. Thank you for all of these wonderful products as I will keep a supply on hand for continued daily use.

Sincerely,

Sandy, November 2023

I have been using the NANO SOMA spray daily since the beginning of the pandemic. So far, it has helped me to stay free from virus infections like common colds, influenza and COVID-19. Also, some time ago, I was bitten by a dog. I refused antibiotics, and instead sprayed NANO SOMA on the area daily, which handled the issue.

Ernestine, November 2023

March 21, 2025

While I was skeptical at first, I have become a believer in this product. Being a nurse, I know how important Vitamin D is to all of us, and I was taking about 10,000 mg daily. My bone density still wasn't improving. However, since adding NANO SOMA to my regimen, it has! I've also been able to reduce the amount of Vitamin D that I am taking by 1/3, and my Vitamin D level is still close to 100. My cholesterol has also dropped drastically, which I am glad about, as I refuse to take a statin drug due to its other complications.

I attribute the improvement in my bone density and cholesterol levels to the one thing I changed in my life...adding NANO SOMA. Thank you for making this product so bioavailable so that our bodies can use it!!!

Nancy, November 2023

Hi Doctor Raghavan,

Today, I had a thyroid ultrasound. I am surprised to see that the nodule size went down 50%. I was using NANO SOMA in my throat, as per your instruction. Now, I have no problem swallowing and I feel energetic. I will get the CD from my doctor and give it to you.

Seyed, November 2023

Good morning,

Here is an interesting outcome with the NANO SOMA Gel. I have a friend who had this skin issue for several weeks (maybe ringworm?). I put the NANO SOMA Gel on the site, and one day later, the appearance of any issue seems to have disappeared.

Anonymous, November 2023

My twin brother and I found out about NANO SOMA a few weeks ago. We read about it and saw a testimonial where a lady with macular degeneration used NANO SOMA as eye drops and saw positive change in a short time. This was intriguing to us because we are always researching natural remedies to share with friends.

We both are very nearsighted and wear contacts. A few years ago, we both suddenly noticed that we had eye floaters, which look like dark thread fragments floating in front of one's vision. They were bothersome, but nothing cured them. They would just degrade or fall out of vision after a few weeks or months. About two years ago, we noticed that they sometimes seem to have a gel that they pull across, which momentarily causes a moving blurry spot. Extremely irritating. Even though we were taking eye vitamins and supplements, these never seemed to go away completely. I thought that if using NANO SOMA as eye drops had helped a lady with an eye issue, we might see good results.

We each bought a bottle and poured some of it in an empty eye drop bottle. We both used one drop in each eye in the morning and again that evening. I kid you not – after two days, we both noticed that our vision had cleared up by about 30%. In fact, I didn't notice that mine had cleared up until I started on the third morning and it dawned on me that my vision was clearer. Granted, we both still have the gel-like blurry spots, but after two weeks now, it seems much better. Amazing stuff. We also take five sprays in the mouth a day. I'm sure it must be good, since it seems to work for our eye floaters.

March 21, 2025

I am Abraham from south Israel and the following is my testimony regarding NANO SOMA. For over 15 years, I was suffering from a bloating stomach that caused hemorrhoids every month. I took different medical laxatives and dieted. While this helped a little bit, the family doctor said that I would most likely have to live with this situation, as it had become chronic. This nearly caused me to stop eating and only drink; I was very confused about the situation.

I met Isaac at a wedding party when he asked why I looked so sad and I said that I was wanting to go back to the place where I came from. Isaac said maybe it's your lucky day...and everything he said was true. Isaac introduced me to NANO SOMA. Four months later, I have a huge smile on my face, thanks to NANO SOMA and Isaac's help. Now, I am super happy, with no bloats, no hemorrhoids, and no discomfort.

I continue to use NANO SOMA on a daily basis, taking five sprays three times a day. I feel better and also have better energy. Using this on a daily basis is a 'must' for me for the rest of my life. Thank you all so much.

Abraham, October 2023

My name is Stella and I am from central Israel. Four years ago, I suddenly got a rash on the side of my face. This affected my eye, ear, and my left hand.

I was told by the family doctor that I had herpes zoster, 'shingles,' which is a varicella zoster virus, and was immediately hospitalised and given lots of drugs. I was released after two weeks, but not without signs that would be carried on my body for a long time – even years.

After I was released from the hospital, I kept scratching my inner ear, my eye and my right hand to such an extent that I was sleeping maybe two hours a night...

I was prescribed antihistamines and two different neurological drugs to take before I went to sleep, but these drugs made me sleepy all day. I felt like there was no help available and like I was losing contact with my life. Then, I was introduced to NANO SOMA, the NANO SOMA Topical Gel, and the NANO SOMA Skin Cream.

I have now been using all three products for over two months and I thank God for meeting Isaac, my good friend who told me about these products.

March 21, 2025

Using the NANO SOMA Topical Gel every night stopped all signs of irritation on my hands and the scratching stopped immediately. I use this gel every evening, and I will continue to do so until I'm brave enough to stop. I also use the NANO SOMA Skin Cream for the rash on my face. This has taken a longer time to show results, but it is getting much better every day. After two months, the rash is 70% smaller.

For my ears and eyes, I used the NANO SOMA Gel, and things shifted very quickly. Today, I continue to use five sprays of NANO SOMA three times a day. This has given me lots of energy and strength. I also stopped using all of the prescribed drugs which were making me sleepy all day – this was a great relief.
Thanks to GOD.

Stella, October 2023 *****
I am writing to provide an example of the benefits of using NANO SOMA for my heart condition. The following is a brief history of my Echocardiograms taken over a period of time. The EF (Ejection Fraction) is a measurement of the percentage of blood leaving the heart with each contraction. A normal EF is 50% or higher. The test results: July 3, 2021 – EF 30-35%; December 2, 2022 – EF 35-40%; March 23, 2023 – EF 40-45%. I also noticed an improvement in my energy levels. I appreciate all those who helped in the production of NANO SOMA and want to express my gratitude. Thank you, and God bless you all.

Marion, October 2023

Dear Dr. Hillermann,
I like to cook for everyone over the weekend, and I recently made a big pizza. Toward the end of its baking time, I like to set the oven to the highest setting to make the dough crispier and make the cheese melt even better.

When I took it out, however, I burned my finger. Even cold water and other immediate measures did little to alleviate the intense sensation. Half way to the outpatient clinic, I saw the NANO SOMA bottle. As if by magic, the redness and all sensations of discomfort disappeared after only two sprays. The outline of a large bubble could be seen but nothing formed.
I wish you the best,

Andreas, October 2023

March 21, 2025

My name is Elaine and I live in Somerset, England. I am on a quest to find natural and safe health products for myself and my family. I have been taking NANO SOMA for over six months. I do not have any major conditions but suffer from low energy and aches. NANO SOMA has helped to energise my body and reduce general malaise.

Elaine, October 2023

Following is just one of my testimonials. I have had a high level of uric acid in my blood for the last seven years. This caused a problem with gout – an extremely painful form of arthritis – which has affected my foot joints. This issue can also form kidney stones. I went on a very low purine diet, but this did not help. For the last four months, I have been using five sprays of NANO SOMA every day and have not used any anti-inflammation medicine. I just had a feeling not to take any medicine while using NANO SOMA. After three months of NANO SOMA, I had a formal blood test showing my uric acid B level. This was the first time in a long time that the test showed a level of 6.8 mg/dl, which is a very normal level – even for younger people. I am 73 years old and my normal level was 8.5 mg/dl. Of course, I would like to state that I continued with my low purine diet as usual. I also want to take the opportunity to thank GOD for bringing these products to mankind to help prevent suffering.

Isaac, October 2023

I have noticed significant improvements in my overall health over the course of at least a year of using NANO SOMA. One notable instance is my experience with a medication I was prescribed due to occasional rapid heartrates. After a few months of incorporating NANO SOMA into my routine, I could completely cease using it. Furthermore, I was on a medication to manage an enlarged prostate and frequent urination. However, I've nearly stopped using it thanks to the improvements I've experienced since starting NANO SOMA.

William, October 2023

March 21, 2025

The above is a wire that David K had in his leg for about a month. It was from a wire wheel and an inch and a quarter long. They thought it was a bug or a spider bite. Nobody could figure it out until we used the NANO SOMA Topical Gel. He experienced relief from the discomfort overnight and it came out within a week. After another week, the site was completely recovered. He said it is a miracle product.

Scott G, on behalf of David K. October 2023

Hi!

I've been using NANO SOMA since May this year. Here are some of my experiences with Metadichol/NANO SOMA:

- 1) I had some very mild arthritic issues in my fingers, and these disappeared within weeks of using the spray.
- 2) My elderly mother had night coughs and phlegm. Both of these issues were resolved after using NANO SOMA for about a month.
- 3) An 18-year-old niece of mine had very, very severe acne on her face. She had been applying a few different, very expensive topical creams on her face with no success. After applying a tiny bit of NANO SOMA Topical Gel on a breakout and seeing it less red the next day, she was very excited to apply the gel on both of her cheeks. Within three to four weeks, all of her acne had cleared up!
- 4) My dog had chronic itchy skin. She had chewed off the fur on one part of her body because of extreme itchiness. I applied the NANO SOMA Topical Gel on the affected part just ONCE, and that was it! She stopped chewing on that skin patch and her hair grew back. I definitely did not expect this.
- 5) I have had discomfort in my left hip and leg joint for years now. After a single application of the gel along the sore joint, the sensation was gone! This blew my mind. I did not expect a single application to totally eradicate such a persistent issue!

March 21, 2025

6) Before I had started taking NANO SOMA, I had been extremely exhausted. Within a day or two of taking the sprays, this debilitating exhaustion totally lifted!
All of these results have got me really excited.

Asha, September 2023

Dear Richard,

I've been using and sharing (mostly) NANO SOMA with dozens of people since coming on board about 18 months ago. Prior to that, one of the products I had been using on my journey for the past decade was a cold-pressed, Raw Functional Superfood produced out of a wide variety of what could have easily been graded as everything from "bush weed" to the highest-grade medical Cannabis available (I'm a semi-retired practitioner).

Along with some of the remote and local diagnostics energy and healing work in my historic toolbox, the Raw Cannabis Functional Superfood I made was only ever available on demand in very small boutique bottlings.

Over a decade of on-and-off bottling, I had seen reversals of conditions that you simply would never expect. It was the greatest "Panacea" to the human body I'd ever witnessed. A true testament to the Creator's symbiotic relationships which exist within the Tapestry of Life. The Cannabis plant is an ancient healer. So, when I had to remove this from my arsenal for a number of reasons, it was a big setback. I had to find something else that could do this work.

In the past 18 months, I have found that in NANO SOMA. Although they could be considered very different in origin, both NANO SOMA and the Cannabis plant reset and establish a relationship of balance within the various natural bio-terrains of the body. They both deliver a frequency range of physiologically invigorating triggers of Light-based chemistry existing within, around, and through our individual Light circulatory system.

That's food for another several dissertations. All said, I ABSOLUTELY love NANO SOMA Liquid! It's become my go-to Panacea. It truly is "boosting Immunity in the Community." And much more.

Dr. Stuart Alec Jemesen PhD DNM, September 2023

March 21, 2025

Nine years ago this month, I was diagnosed with Pulmonary Fibrosis (PF). Fortunately, it's spread very little over the years and hadn't caused me much trouble. However, in March of this year, I took a quick trip to Colorado and the high elevation made me suffer the same symptoms people with PF or chronic obstructive pulmonary disease suffer.

My local pulmonologist ordered a Pulmonary Lung Function Test and a CT scan of my lungs. Her diagnosis: take two chemotherapy pills a day to slow down the spread of the damage.

I was then introduced to NANO SOMA and began taking five sprays four times a day. I also sought a second opinion. This new pulmonologist ordered a new Pulmonary Function Test (PFT) and scan and had me come back in 30 days. When I returned, he told me the disease had definitely spread from nine years ago, but it has NOT spread since 2022. The ONLY difference in my lifestyle was NANO SOMA. He's asked me to come back in 90 days for another PFT and CT scan... and I continue to take NANO SOMA! I look forward to even greater results!

Jim Christoferson, September 2023

I am very grateful for NANO SOMA Topical Gel. I came home from a river trip with a terrible sunburn. Though it didn't feel bad, when I looked in the mirror, I was shocked! My face was bright red and swollen! I started with the gel right away. I used it every 15 minutes for the first couple of hours. Then, I used it about every hour throughout the night. By morning, I was relieved to see that the burn had faded to a mild-looking sunburn. I had neglected to use the gel on my lips, so I did have intense chapping on my lower lip, which responded more slowly to the later applications of the gel. But I was certainly saved by NANO SOMA Topical Gel that first night and I am so grateful!

Kim, September 2023

Last night I cut my finger with a sharp knife (pictured below). It was pretty severe. I generously sprayed it with NANO SOMA, and later applied NANO SOMA Topical Gel. I took a picture of the cut this morning. Can you even see the wound?

www.magicdichol.info.

March 21, 2025

Scotty Saks, September 2023

80-year-old Tina had an inflamed wound on her neck. When the scab came off, she used NANO SOMA Topical Gel. The above photos demonstrate the vast improvement in her skin with repeated use. Tina recommends this product to all of her family and friends.

Tina, September 2023

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

The first photo is from July 28th, when I noticed I had a hard, visible bump inside of my neck. I began taking five sprays of NANO SOMA three or four times a day, and I applied NANO SOMA Topical Gel to it about two times a day. The second photo is from September 14th, about seven weeks later. I had confidence these products would work and it's always exciting to see quick, tangible results.

Erin, September 2023

Hi Richard,

Back in March of this year, I began taking more NANO SOMA. Just before this time, I had noticed that my left elbow had a bad case of psoriasis. Now, today (September 5th), there is NO sign at ALL of ANY psoriasis on my left elbow. I assume NANO SOMA is supporting my body and its mitochondrial health on a deep level.

Claudia, September 2023

Hello,

I wanted to let you know about something that happened to my mother-in-law that I personally witnessed.

My mother-in-law was hospitalized for a severe groin infection that they surgically removed. It reached all the way to the arteries. The medical team put a wound VAC (vacuum-assisted closure) on her and told her that it would take a year or more to resolve. When she got home, she started taking five sprays of NANO SOMA five times per day.

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

The home health nurse was amazed by how quickly the wound was addressed, and she asked if we were doing something special. We told him about our secret weapon, NANO SOMA. Within three months, her very deep wound was totally closed up.

While officially, we can't say it was NANO SOMA, my mother-in-law, her nurse, and I all agree that it was a major contribution to her experience.

Delbert, August 2023

Raghu, thank you for developing the NANO SOMA gel! Two weeks ago, a cup of very hot coffee fell over on me. Fortunately, I was at home, so I could remove my clothes and quickly pour ice-cold water on myself. However, much of my front torso was still very red. I took out your Gel and covered most of my front torso with it. Within one hour, the redness was gone and there were no blisters. I was then able to put on my clothes with no discomfort. Your NANO SOMA Gel is fantastic!

Linda, August 2023

Dear Richard,

I started using NANO SOMA about two years ago. I stayed the course at five sprays a day and didn't really see much change. Then I found an article that said that if you are over 50, you should start with five sprays of NANO SOMA five times per day for a few weeks, then down to four times a day for a few weeks, down to three times a day, until you get down to five sprays once per day. That changed everything for me. I'm 75 years old, and I have had issues with my bladder for several years. After the above-mentioned protocol, it has completely cleared up. My bowel movements are also very regular now with no change in diet. Thank you so much. I'm a believer!

T. L., August 2023

Dear Richard,

I LOVE this product.

www.magicdichol.info.

March 21, 2025

At 4am today, I made coffee with boiling water and promptly knocked the coffee pot over and scalded my wrist and arm. It was instantly red and very sore and tender.

I applied a small amount of the NANO SOMA Topical Gel to the scald and it stung on contact but almost instantly soothed it. About twenty minutes later, I applied more NANO SOMA Topical Gel before going to bed to sleep.

A couple of hours later and all discomfort in the scald has gone and the red skin is just pink and about half the size it was originally, which was about 12 inches long and 2-3 inches wide along the inside of my wrist and lower arm.

And I had forgotten all about my 4am coffee scald until my son texted to ask how I was. I am very grateful to Dr Raghu and to you, Richard, for the AMAZING MagicDichol products.

Blessings and Love,

Barbara Christman, August 2023

My father, at age 81, underwent a 14-hour operation to remove a large number of cancerous tumors that had spread throughout his body. I spoke with the surgeon just after the operation, and he stated that my dad had about three months to live. With chemotherapy, that span could be stretched to six months, but it would be a very painful time. My dad decided to avoid the chemo and resigned to live out his last months with the help of painkillers, as needed.

My colleague, Dr. P. Raghavan, took notice of the situation, and kindly began sending my parents a supply of Metadichol (NANO SOMA Liquid), refreshing their supply as needed. Post-operation, my dad was essentially bed-ridden. After about a month of ingesting 1 ml of Metadichol daily by mouth, he claimed and acted like he was feeling better. Our thoughts of any placebo effect were erased when he began to walk, at first around the house and then outdoors. This was now about seven months after his operation. Since it was autumn at the time, he decided to rake the leaves in his yard – for hours at a time. A few weeks later, he demanded to go for walks with my mom, sometimes walking for over an hour.

March 21, 2025

I also happily noticed that his mood steadily increased. Even in the months prior to his operation after being diagnosed with metastasized bladder cancer, his personality had been crushed. Normally happy and always with a smile on his face, he rarely spoke due to the extreme discomfort he was experiencing. NANO SOMA seemed to help reinvigorate his original personality, and after several months, he began to smile again and actively engage in family interactions, a new blessing for our family.

This story ends in an interesting way, however. Seven years after my dad's 14-hour operation, meaning over six years of life that wasn't supposed to be his, he passed at age 88. He died from kidney failure. This is surprising, because Metadichol has been shown to be effective in promoting healthy kidney function. Upon investigation, I learned that a relative, who happens to be a nurse, discovered that Dad was taking this new "unproven" substance called Metadichol / NANO SOMA, and forced my mother to make him stop. My dad passed away six months after he was ignorantly forced to cease taking NANO SOMA. I happened to be working and living abroad at the time and was unaware of his discontinuation of using Metadichol.

I can only wonder how many more years Dad would've continued smiling with us if he was allowed to continue taking NANO SOMA.

Joseph M, August 2023

Hello John,

Thank you for ringing the other day. I was in Toowoomba pruning roses for a friend, who is finding it difficult to do gardening any more. I feel very lucky to have found NANO SOMA when I see someone like her – only two years older than me!!

Where to start on my NANO SOMA journey...? At the beginning, I suppose! When I first heard about NANO SOMA, I immediately wanted to know more. I just had a feeling that this was something special and I needed to get started ASAP. My husband and I were travelling to Noosa about twice a year at the time to see Wayne (Naturopath). I went for a wheezy morning cough (mostly in the winter), which I had had for many years and that was continually getting worse. My husband Gary had a thyroid problem for which he was on medication, but he really hated having to rely on 'big pharma' medication to control it. We both decided to start taking NANO SOMA just after it came to Australia. I'm pleased to say that my winter cough has now disappeared. I also find that rubbing NANO SOMA Topical Gel into my knee when

- 38 -

March 21, 2025

it gets sore alleviates the discomfort in a few days. My last blood test at the end of 2022 came back with ALL my results in the middle of the recommended range. I am 76 and not on any prescribed medication. My blood pressure and pH are good also.

In the last few months, Gary (74) stopped taking the thyroid medication, and so far, he is feeling fine. He had tried to reduce the tablets many times before but ended up with fatigue and brain fog. He doesn't need his 'Nana nap' in the afternoon now, and he works through most of the day either in his vegetable garden, in his shed doing metal or woodwork, or doing farm work (we have 440 acres and about 30 breeding cows).

We have also had great success with giving NANO SOMA to the dogs. We have a very old Maltese (18.5 years) who has a spray a day. The little dogs tend to get infected anal glands which is very distressing to the dog, and of course, it always happens at night when we can't get to the vet. The last time this happened, I sprayed NANO SOMA on his rear, and one spray in his mouth (Gary was very sceptical, but as I said, what else can we do?). By morning, Little was back to normal, and he hasn't had the problem since.

We also had a very old Maremma, who we guessed was at least 15 years old when she passed away. She was very arthritic in her back legs, but she seemed to walk better when on NANO SOMA (two sprays daily). She had a very peaceful end – not traumatic; she just stopped eating and drinking and simply faded away.... We still have three more Maremmas, so it's great to have something on hand that will work if they happen to have any health problems in the future.

I also love NANO SOMA Skin Cream as a face moisturiser, and it helps soothe any itchy skin complaints.

It's very interesting to hear of the 'shedding' from injected people and comforting to know that NANO SOMA will help prompt the body to clear the blood. We are sure we have been shed on also. I had an itchy rash on my body down the side where I was next to a person who had just received a booster jab, and Gary felt unwell after a family member visited us just after she got her third jab (mandated for her job). She is now on NANO SOMA after having had shingles and other issues and is feeling much better now.

I guess that is enough for now, I could go on...but perhaps more next time!

Kind Regards,
Fran & Gary Walker, August 2023

March 21, 2025

When I have any skin issues, like bites, burns, or cuts, I use NANO SOMA wherever it is needed. It immediately balances most skin issues – especially with cuts and bleeding.

DW, August 2023

I have been using NANO SOMA for almost three months. I now no longer need reading glasses and people are commenting on my ‘renewed’ appearance. Highly recommended. Love and health to all,

Wendy, July 2023

I am pleased with the product. I have found it has assisted with the softening of a severely hardened scar on my leg, and most importantly, (although my cholesterol is in the 'high' bracket and I am no longer on any statins), my cardiologist is super impressed with my CT Coronary Calcium Score, which I put down to regularly taking NANO SOMA on a daily basis. So, yes, I am very pleased.

Thank you, and keep up the good work!

Kind regards,

Katrina, July 2023

NANO SOMA has worked in the most extraordinary way to slow down degeneration, and moreover, support my eight-year-old feline during a tailspin in his health. I sprayed NANO SOMA directly to his face so that he not only received it topically but breathed it in. After doing this twice in 24 hours, his rapidly declining state was completely turned around. I spent \$1,400.00 in lab tests, X-rays, and an ultrasound to explore why his abdomen was swollen. He had become listless, lethargic, uninterested in food or water, and hadn't urinated in 48 hours. After two sprays of NANO SOMA in 24 hours, he was back to normal! I decided it couldn't hurt to try it, and I was amazed.

I've also found that NANO SOMA Topical Gel is excellent at quickly soothing the appearance of any wounds, and that NANO SOMA Skin Cream has made my skin feel softer, firmer, and more youthful.

www.magicdichol.info.

March 21, 2025

Julianne H, July 2023

Greetings Richard,

I have had the great fortune of taking NANO SOMA for several years now, and the results have been remarkable. I am 75 years old and feeling younger and fitter by the day. While I was blessed with a strong constitution, after age 70, I began to experience a few signs of bodily wear and tear. I was especially discomforted by EMFs, and my work necessitated long hours on the computer. This resulted in head pressure, fatigue and restless sleep. My digestion was not as strong as it could be, and I had some intermittent facial nerve discomfort, which at times made speech and eating too difficult.

While NANO SOMA was not an instantaneous 'miracle cure', I can wholeheartedly agree with the statement that this powerful product supports the body's own natural healing mechanisms. Over the last few years, I have observed a gradual, very real, and significant shift in all the issues mentioned above, plus an enhanced feeling of joy and well-being as a bonus. My subjective experience has been corroborated by live blood tests taken by my herbalist, who was literally gob-smacked to see the light shining from my blood cells!

With deepest appreciation to Raghu and you for making this wonderful gift of health available to the world,

Devi, July 2023

A year and a half ago, my ophthalmologist did not know what to do concerning my glaucoma that could not be controlled. Glaucoma leads to damage of the ophthalmic nerve, and over time, to blindness. This is what happened to my dad; it is hereditary. I was sent to the most specialized ophthalmic clinic in the Netherlands, and they saw only one solution: a drain in both eyes. This would deteriorate sight in the short run, but hopefully preserve my eyesight for the coming 10 years.

A week before the surgery, I laid my hands on NANO SOMA. I used it as both a spray and as eye drops. In two days, the tension in my eyes dropped to normal. No surgery was needed anymore. I could not believe it. I am so grateful.

I use NANO SOMA every day. It also immediately stops the first signs of discomfort in my eyes and helps maintain healthy eye tension. Thank you, thank you, thank you.

March 21, 2025

Inger, July 2023

I have been using NANO SOMA for over three years now, and I love it. It's subtle but works deep down to help us in these strange times. We need to do everything we can to counteract what is being done to our air, food, water, animals, etc., and NANO SOMA helps the body deal with it all.

NANO SOMA just feels good to the body, like really nutritious food. It's an inner knowing. There are 11 or 12 of us who order together every year, which has made buying in bulk much cheaper. We don't have a lot of money to splash around, but our health is the most important thing.

For me personally, I had a small mole under my arm that I noticed about a year ago. At one point, it went very dark and hard. I have been taking NANO SOMA and now it is quite small, pink and very soft. I feel it will disappear very soon, and I know that NANO SOMA is supporting my body and its natural health.

I recommend NANO SOMA to everyone; looking after your body is so important.

Christine, July 2023

Testimonials from Malaysia, courtesy of our distributor, Mr. Benson:

The first patient is a diabetes patient, who had two previous strokes and was undergoing dialysis three times per week. Before Metadichol (NANO SOMA Liquid), his leg was turning a dark color, his left finger couldn't grip, and he couldn't lift his left hand. Though he could see images, he was unable to recognize people or speak clearly. This individual was wheelchair-bound, unable to walk even with a walker. He was experiencing erectile dysfunction and his doctor was giving him five to six injections each month. After NANO SOMA, the color of his leg returned to its natural color, he could lift and grip with his left hand, walk with a walker, speak normally, and see images clearly – even with one eye closed. His erectile function was strengthened and the doctor reduced his injections to twice a month. He is now living full of hope.

The second patient is a man who was living with blindness for years – unable to see even light. On his 11th day of NANO SOMA, he began to see the color of the light being emitted from his television. Now he can see objects moving if we wave our hands in front of him.

- 42 -

March 21, 2025

The third patient shared that NANO SOMA helped his urination problem within a week. Over a few weeks, he experienced a total reduction of his coughing problem. In addition, he reported that NANO SOMA optimized his liver health and supported his body in reducing calcified heart blockages. Since taking NANO SOMA, he has also experienced greater colon health, erectile function, and improved sleep.

Letter from a father in India on Friday, July 14th:

We live in Mumbai, India. My daughter is 18 years old. Recently, while she was sleeping, her elder brother saw the right side of her body suddenly turning left. He tried to wake her up, but she was unconscious. He saw her eyeballs turn up and she had a foamy mouth. He alerted his mother, who was sitting in another room, and she immediately sprayed NANO SOMA in her mouth – approximately 20 to 30 sprays.

Within minutes, she regained consciousness. The following Saturday they went for a CT scan on her brain, and surprisingly, her report was fine. She thanked God and NANO SOMA. This was a brain seizure, and NANO SOMA profoundly supported her body to maintain health in an extreme circumstance. I recommend everyone take NANO SOMA.

M.S, July 2023

I would not be without NANO SOMA Liquid. It has helped us maintain good health; we've had no colds or flus in two and a half years since taking NANO SOMA. In addition, my knees no longer make cracking sounds, as they had since my late twenties due to lots of running. NANO SOMA has also helped reduce the constant discomfort from breaking my right ankle in three places in 2018. I am able to walk with much less discomfort since using NANO SOMA; I can even manage a gentle jog every now and then when I take my dog out!

I also give my dog a couple of sprays on her food twice a day, and I can almost see my face in her coat it's so shiny! Thank you so much for making this available to us all; it is amazing.

Carmen, July 2023

[Click here](#) to watch a video of Marianna and her horse, Jasmine.

“My mare suffered a nosebleed which could have been very complicated last Sunday (six days ago), and I decided to use NANO SOMA, which helped very much. I put [NANO SOMA] in her eye and sprayed it in the nostrils. It stopped the bleeding immediately. [...] She’s been fine since the first application of NANO SOMA. [...] I have used NANO SOMA on many of my horses with success.”

Marianna, July 2023

Hi Doctor,

NANO SOMA helped my body remove a scar on my lungs due to COVID-19. Then, six months ago, I was diagnosed with having two nodules in my throat by Bergen Medical Associates, where my primary care doctor works.

I then used NANO SOMA on my throat five times in the morning and five times at night for three months. Last week, when my doctor again tested for the two nodules, they were completely gone. Thank you, Doctor. May God bless you,

Seyed, July 2023

March 21, 2025

I love NANO SOMA. Most of the time I feel nothing, but almost every time I've had a real need, it's been stellar. In January, I had COVID-19, which I had other options for, but at one point I was very drawn to NANO SOMA. I felt better right away after using it. I also sent you a testimonial about a time when I had some excruciating dental discomfort, which typically lasts about three weeks, with very little to help it. I used NANO SOMA and within 10 minutes it was 90% better. This was unheard of for me, since this is something that I'd experienced several times over the years and nothing else has supported it anywhere near that fast.

Holland, June 2023

Dear Dr. Richard Presser,

You wrote in an email: "Some users have reported that five sprays of NANO SOMA every hour for 12 hours can get a stubborn condition moving." Well, I did this – and goodness, it did get things moving. This a magical formula.

Best Regards,

Anonymous, June 2023

March 21, 2025

The above images show one customer's skin before and after using NANO SOMA Skin Cream. Note the improved appearance of the skin's eczema in just two weeks.

Anonymous, June 2023

I have been using NANO SOMA since the early winter months of 2021, when I learned from my life insurance company that I was going into renal failure. They tested me twice and decided to decline my case due to my being high-risk... for death? I may not be able to prove it, but I know this situation was caused by my having received multiple doses of Remdesivir in December 2020, when I was hospitalized with COVID-19 pneumonia for 10 days. Daily Remdesivir was a norm then as part of the COVID-19 daily infusion hospital protocol, and I allowed it because I believed in western medicine at that time. I was suffering from rheumatoid arthritis and had been on Methotrexate since being diagnosed in 2013. I also had Embrel injections for two years. I am a registered nurse of over twenty years, and I made the executive decision to stop taking all prescription medications and OTC (over the counter) medications, including vitamins. This was my attempt to slow down the progression of the renal failure, as all rheumatoid arthritis medications are nephrotoxic as a side effect.

This is when I was introduced to NANO SOMA...

In addition, I went for EES (Energy Enhancement System) sessions during the entire month of June 2022. EES is a Med-bed technology invented by Dr. Sandra Rose Michael.

I just know NANO SOMA had an incredible influence on my renal function remaining intact from November 2021 to June 2022, when I was experiencing EES. Together with NANO SOMA and EES, I am still alive and well, and I am NOT on dialysis. I have received TWO flying-color checkups, six months apart at the nephrologist's office. With one more clearance, he said I would no longer be needing his services.

Thank you, NANO SOMA, for saving one life at a time and for maintaining quality of life!

Update:

I use just about one bottle of NANO SOMA a week. I spray it under my tongue and all over my face, neck, and upper chest area. I believe this is keeping my skin taut and younger-looking, because I haven't aged since starting to use NANO SOMA.

March 21, 2025

Julie, May 2023

In October 2020, I chipped a tooth and went to see my dentist. The X-rays revealed that I had an impacted wisdom tooth decaying under the gum. I hadn't experienced any discomfort, so this was quite the surprise. I was referred to a dental surgeon who also confirmed this diagnosis. At the time, my husband was terminally ill and I was his caregiver, so having surgery was not an option. When my husband passed away in December 2020, COVID-19 was already rearing its ugly head; vaccines were being pushed and mandates were being put in place.

I was and still am a subscriber to UNN Network News and in early 2021, I heard an interview with Dr. Presser. I have always been skeptical about stuff like this and wary of online shopping, but I was nervous about COVID-19 and knew that vaccination was not the way to go. I read everything I could about NANO SOMA and ordered three bottles.

Now, almost two years later, I continue to use NANO SOMA twice a day and can say that I've not had so much as a cold. I have not had surgery and have had absolutely no issues with my wisdom tooth, though I have not been back to the dentist. I'm very nervous about any kind of medical treatment after what I've seen over the last three years.

Sandra, May 2023

I just want to say thanks again. I am hooked. I have been using NANO SOMA for only nine days and my hands are looking a lot younger. 99% of my age spots have disappeared. My son says I look younger. Yes, I have had the odd ache, but I reread the insert and saw that is normal.

UPDATE:

I've been on NANO SOMA for three weeks now. 95% of my aches are gone, and for the last three days, I've no longer needed reading glasses. Even my smoker's cough is virtually a thing of the past. I'm so hooked on NANO SOMA that I am gifting a bottle of mine to someone who has been in my life as a handyman and was diagnosed with cancer. I know that it will assist immensely.

Love and blessings,

Wendy, May 2023

March 21, 2025

Dear Dr. Hillermann,

I have now used only five bottles of NANO SOMA and would like to continue taking it. I am 78 years old, and like many older people, I suffer from some aches and pains, such as slightly increased blood pressure, deteriorating vision, osteoarthritis in the finger joints, persistent ringing in the ears, etc. In October 2022, I had a (mild) coronavirus infection.

After the first five bottles, I can report the following: the aches and pains described above have not yet disappeared, but I have the impression that NANO SOMA gives me a little more energy for every-day work, which mainly consists of physical work around the house and garden. Fatigue sets in later now than it used to, and my recovery from physical exertion is also happening faster than before. The "brain fog" that I was feeling again and again has disappeared, and my clarity of thought is returning.

These are already very pleasing results. In any case, I will continue to use NANO SOMA and hope that I will be able to report on further successes in due course.

With best regards,

Anonymous, May 2023

I use NANO SOMA Topical Gel on vaginal herpes eruptions. It is the only product I have ever found – in over 30 years – that immediately stops the irritation and itchy sensations within a day. Usually, a herpes eruption with irritation lasts for a week. Now, the irritation is gone on the first day, and the bumps dry up quickly over a few more days. I just apply a very small amount of NANO SOMA Topical Gel directly on the eruption, and repeat the application a few times during the day and into the next, if necessary. I am so grateful for this relief.

Shema, May 2023

As a naturopath of 37 years, I have seen a marked and alarming increase of serious heart and immune related issues in young patients over the past "COVID-19" years. Never before have we needed a remedy like NANO SOMA more than we do now. In my opinion, NANO SOMA is like "Light" in a bottle; it brings the body back to balance. I have seen people heal and their immune system function improve using this wonderful product. It has been instrumental in keeping me well during the past few years. NANO SOMA truly is one of those cornerstone, fundamental products.

KH, May 2023

My 68-year-old mother-in-law had her oxygen level suddenly drop to 75% with a blood pressure level of 185/95. We immediately gave her 10 sprays of NANO SOMA. After 15 minutes, her blood pressure was 140/80 and her oxygen level reached 96%. We monitored her levels the whole day and found that her oxygen level remained at 96-97% and her blood pressure remained at 135/80.

MS, May 2023

To watch a video testimonial of an 89-year-old woman in India discussing her experience with NANO SOMA and COVID-19 recovery, [click here](#). Read below for an excerpt:

...In the month of March, I went to Bombay for two days and came back with the latest variant of COVID-19. It made me so weak [that] for three weeks, I did not get up from bed except to go to the bathroom, have a bath, and come back. I was so weak, limp, and totally lacking energy. All of my children were taking care of me in turns. They made sure I was eating sufficient foods, which I could hardly eat...

[Then, my daughter] gave me five squirts of this liquid called NANO SOMA...She gave it to me for five days. One day I took it twice; all the other days I took it only once. And on the sixth day, when I got out of bed and put my feet down on the floor, I couldn't believe it. They were feeling so strong and not wobbly, and I had inner strength. [I didn't have to] hold on to anything; I could walk freely in the middle of the room. I walked straight to [my daughter] and said, 'This is really working'...

And ever since I've had it, I've regained a lot of strength. My voice is also getting clearer. [Before] my speech was not clear; it was slurred. I couldn't even talk much. I was mostly silent. Now I am recommending this NANO SOMA... it is really nice and helpful.

SN, May 2023

I would like to express my gratitude to Dr. Raghavan, the inventor of NANO SOMA, for introducing this product to the world to help reduce the suffering of humanity. Thank you, Dr. Presser, for being a great advocate.

March 21, 2025

My husband went from being a healthy person – very cheerful, working full-time, doing yoga, meditation, walking daily, and helping me with the housework – to not being able to do anything. All activities came to a complete halt in July 2022. He was feeling unusual fatigue, losing energy and weight, and was unable to walk or talk for even a few minutes. His blood pressure was very high, and he was struggling emotionally with very little sleep. All of his medical tests were showing negative, so nothing was prescribed. In the meantime, his health was deteriorating. He used Chinese treatment for four and a half months with very little improvement. They also identified a lump when the MRI was done, which came out as benign, so again there was no treatment. I would like to mention that he had his third vaccine in January 2022.

One of our relations introduced us to NANO SOMA, as he saw how my husband’s health was deteriorating. In four to five weeks of use, we saw some improvement in his energy and appetite. In the meantime, he was referred to an endocrinologist and got blood work done. The results showed low sodium levels. The second blood work was to be done in six weeks. To our surprise, his sodium levels increased from 113 to 136 in just a few weeks. No further tests or medications were required. Amazing results.

In addition, his sleep improved, his muscle spasms stopped, and he was able to walk for 20-30 minutes and do some yoga exercises. I could see his energy levels on the rise and he was able to do some work around the house. He still needs more improvement, but I’m very positive that he will be back to normal and that his tumor will vanish. NANO SOMA is working at a really deep level. I am sure I could continue to write as things continue to heal or improve.

We introduced NANO SOMA to so many family members and friends, including my mother who is 90 years old and suffering from chronic arthritic pain. They are seeing some improvement; I will keep you posted.

VR, April 2023

I’ve been battling what my doctor calls a yeast infection rash on different areas of my body. For over a year, I tried using a medication my doctor recommended, and the rash would either just about disappear or disappear altogether. However, after two months, the rash would return to the same exact areas, worse than before. The itching is enough to drive me insane, never mind hiding the rash in public out of embarrassment.

Martin sent me an email about NANO SOMA. After reading what it prompts the body to heal, I decided to buy three bottles of it. I’m taking it orally as directed for the first month and for the second month after that.

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I also sprayed NANO SOMA directly on the yeast rash areas. After spraying them with NANO SOMA just three times, I noticed a sizable decrease in the rashes and the itching stopped! I've continued spraying the rashes directly, and they've now disappeared and haven't come back, except for one area on the back of my right hand where the rash initially started. I decided to order the NANO SOMA Topical Gel and it arrived this last Saturday. I've been using that on my rashes and any wounds since. Remarkable! That's for another review. GREAT products! Highly recommend!

Michael, April 2023

I have used NANO SOMA daily on a number of issues: facial skin cancers (which are fading away); frequent cuts on my hands, which are getting quite stiff; and recently, cold sores, which were promptly nipped in the bud.

Over two years ago, my walker shot out in front of me and I landed face down, sprawled out on the edge of the road, unable to get up. "Turn her over", suggested one young man from the crowd gathering around.

Well, I survived, but in the months that ensued I found that my two front teeth were becoming loose. I was taking NANO SOMA twice a day, but I wondered if spraying NANO SOMA directly on the teeth and surrounding gum area might delay having to get my teeth replaced. That was almost two years ago now – and through COVID-19, when I certainly didn't want to go to a dentist. I am sure I was doubly protected during that time. I must now have a thorough check-up, but I am glad of the reprieve I've had so far.

I've been maintaining NANO SOMA on the right breast, which has two small marble-sized lumps. I spray them with three sprays daily and feel it may help. It looks like it's going to be a wild 2023.

Love and blessings,
Anonymous, April 2023

My 80-year-old mother was complaining about a dry mouth at night. She did not want to drink while lying down. So, I bought her a spray bottle of NANO SOMA, and within a few days, the problem was gone. Now she takes five sprays of NANO SOMA in her mouth before she goes to bed. Thank you, NANO SOMA.

Emma, April 2023

Here are some of my experiences with NANO SOMA Topical Gel.

For several years I have had a rash that spreads from my left thumb to about a third of my palm. Despite using various creams and ointments prescribed by the dermatologist, the rash kept getting bigger. Now, after about three months of using the NANO SOMA Topical Gel (once in the evening and once or twice during the day), my palm is healed and my thumb is constantly improving.

The NANO SOMA Topical Gel also successfully removed age spots on my hands and face, and it quickly resolved a sunburn on my nose. I also had a red dot (approximately three millimeters in diameter), which a dermatologist diagnosed as a basal cell carcinoma, successfully vanish after several weeks of using the NANO SOMA Topical Gel.

I've treated cold sores on my lips with the NANO SOMA Topical Gel two or three times a day at the first sign of their appearance. Before the NANO SOMA Topical Gel, it usually took up to 10 days for them to disappear. Now, the cold sores are usually gone after two or three days. I also had an inflammation on my lower eyelid remedied within two or three days with the NANO SOMA Topical Gel.

The NANO SOMA Topical Gel is used again and again throughout my family for similar symptoms; we are pleased with its uncomplicated application and effectiveness.

Anonymous, April 2023

This is just to inform you that my husband's recent blood report test on the 27th of March showed an increase in sodium levels from 113 (January 2023) to 136. We met with an endocrinologist two days ago who said that there is no need for any medication or further tests.

I delayed the blood test by three weeks to see the results of NANO SOMA. I was very positive it would work. My husband started taking NANO SOMA on March 2nd. In three weeks, he saw amazing results. Amazing to see the results of NANO SOMA intake.

May God Bless You.

March 21, 2025

Hi Richard,

My right eye was irritated for a couple of days. Saline drops didn't seem to work, so I sprayed my eye with NANO SOMA. It stung for a few seconds, but my eye has felt absolutely fine ever since. Thanks Richard and NANO SOMA!

Blessings,

Nancy G., April 2023

I put my hand on the hot plate yesterday very briefly. It was definitely intense! I sprayed ONE spray of NANO SOMA on it (I'm still waiting for the NANO SOMA Topical Gel to arrive), and instantly, there was ZERO pain. It felt tingly and briefly cold, but it wasn't painful at all. I washed my hands a while later and the burning sensation returned about five minutes later. So, I did one more spray of NANO SOMA. Again, there was instantly zero pain and then I forgot about it. I had a hot shower today and didn't notice any sensation in my hand. It wasn't until my partner asked about it that I remembered the burn even happened! Wow! I'm so excited!

Kindest,

Lucie, April 2023

This week I found a baby opossum who must have fallen out of her mother's pouch during the night. She was barely breathing and was presumably suffering from the cold and shock. Many who saw me that morning said that they had walked past her earlier in the day and thought she was dead!

I immediately sprayed some NANO SOMA on her tail and ears, and I was shocked by how quickly she revived. She began to breathe more fully, move around, and crawl (shakily) within minutes. I continued to give her NANO SOMA and warmth for a few hours, and she fully recovered her strength. It really felt like a miracle, and I doubt she would have made it without NANO SOMA.

I highly recommend carrying your NANO SOMA with you; you never know when you're going to need it, whether for yourself or for others. This is especially true for those of us in the middle of spring!

Erin, April 2023

March 21, 2025

I'm a 30-year-old, first-time mom who is five-months postpartum and has been suffering from severe fatigue and back pain. In the initial days of breastfeeding, I was extremely tired due to a lack of sleep. Since that was expected, I didn't give it much thought. I was taking it one day at a time. Once my baby turned five months' old, my sleep improved, but my fatigue lasted.

One morning, I struggled to make it out of bed and couldn't even turn around in bed to feed my baby. My husband suggested that I try NANO SOMA to see if it would help, as I was already taking the necessary multivitamins. I was shocked to see that within just two weeks my energy levels drastically improved, though there was still some fatigue.

I spoke to one of the members of the team, who suggested that I increase my dosage. NANO SOMA has made a world of a difference and has helped me be more present for my baby.

I cannot recommend this product enough for any other new mom! This is THE secret for healthy moms!

Apoorva S., April 2023

Dear Richard,

When I first read about NANO SOMA over two years ago, I purchased 60 bottles in hopes of helping my vaccinated friends. They were not interested.

I was around 66 years old when I started taking NANO SOMA two times per day for around a year, which was two and a half years ago. The second day, my shoulder – which kept me from lifting weights above my head due to the pain – shifted, and I lifted a weight without pain. I had knee surgery in 2019 and had many loose bodies and arthritic spurs removed from my knee, including a massive spur on my patella which the surgeon cut off. I was unable to lift my leg for six months. After a week at the gym in the beginning of my NANO SOMA intake, I was increasing the weights on the leg press machine to 75lbs. My trainer was amazed.

After about eight months, all of a sudden, I had something appear on the bottom of my foot. When I was 10 years old, I had a plantar wart in that area that was burned and cut out. This marble-like ball, which I felt only when I walked on a wooden floor, was there for three days and then disappeared.

March 21, 2025

I was also diagnosed with osteoporosis about five years ago. I used to feel the weakness in my back when I got up every morning. Then, I realized I wasn't having that pain anymore. I also had an almost fused disc at the L5/S1 spinal motion segment. A few months after my knee surgery, my back flared up and my lack of a disc was compressing both my nerve roots in that area. I don't notice the disc or nerve root issue much anymore. I do have regular chiropractic appointments, but I would say that also has improved.

Now let me tell you about my friends and how they have improved. Over a year ago at Christmas, I had a friend fall down her stairs, fracture her posterior malleolus (ankle) into her ankle joint, and dislocate her thumb. She wanted to beef up her NANO SOMA and has continually bought three bottles from me. She had to completely stay off her foot, and after four or five months with NANO SOMA, she was hiking on Sundays again. This was over a year ago. She said as long as she doesn't wear flip flops, she doesn't notice anything in her ankle. She doesn't talk about her thumb either, so I'm guessing that is better also.

My massage therapist would regularly get canker sores in his mouth. I gave him NANO SOMA for Christmas and he told me that all of a sudden, his mouth was filled with canker sores, and then they were just gone completely. He has lupus also and says he that forgets to keep taking it when he feels better and that he has not had an episode in quite some time. I always remind him that he needs to get everything out, but he is young and doesn't feel the aging process like us older folks.

NANO SOMA is an amazing product and I always share information about it with anyone who wants to listen. And by the way, I foster many dogs, and it is amazing how NANO SOMA works on them. If they cough, you spray NANO SOMA on them and the cough is gone. Also, my dog had a collapsed trachea and I know this extended his life. I have seen NANO SOMA get rid of fungus on the skin where their skin appears black. After three weeks of spraying NANO SOMA on my dog's skin and in her mouth, her skin started to turn pink again. Like I said, NANO SOMA is an amazing product!!!

Gale, April 2023

NANO SOMA is the most amazing product I've ever come across in my 24 years as a natural health researcher. I've never seen anything that does what NANO SOMA can do. I wanted to wait to send you a testimonial as it's only been seven weeks, but I can tell you that it's working at a really deep level.

I have had a severe pain in my left kidney/lung which started from being around a group of vaccinated people at the beginning of the vaccinations. I initially thought it was a clot as I am prone to clotting issues. Tests showed blood in my urine and the doctor said I'd need to see a specialist and an oncologist. I refused and had been treating it for the last 12 months with every natural cancer cure I knew of. The bleeding shifted from

- 55 -

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

microscopic to significant which I believe is serious. Apricot kernels stopped this bleeding so I knew it was more than likely cancer as this is what apricot kernels are known for. While the wheatgrass juice, Hydrogen Peroxide, Artemisinin, MMS, apricot kernels, black seed oil, and so much more all helped with the pain, it never left. The pain reduced in my first few weeks of taking NANO SOMA, and I have since started drinking and using hydrogen water as a steam inhalant. Now the pain is all but completely gone. It was like nothing worked until I started NANO SOMA, and I think this may have been because NANO SOMA activated my nutrient absorption gene. I have tried others on just the hydrogen gas/steam and they're not getting the same results I am, so NANO SOMA definitely has something to do with it.

In addition, I have really bad Mast Cell Activation Syndrome and I have had to stay on six 1800mg PEA (a natural mast cell stabilizer) a day as I was so reactive to foods and environmental toxins, especially wireless frequencies which caused blood clotting and Hypoxia (oxygen deficiency) due to mould toxicity. Since being on NANO SOMA, I am down to 300mg of PEA a day now and I'm eating foods high in histamine like fermented sauerkraut, which I'd had to stop some time ago. I also sat right next to a mobile phone two days ago for 30 minutes and had very minor EHS (electrical hypersensitivity) and no Fibromyalgia. This is unprecedented for me. I finally feel like I'm healing.

I spoke to my friend Fran who ordered NANO SOMA. The first day, she worked a nine-hour day, and instead of coming home exhausted, she came home and cleaned the entire house. Her partner was so impressed, he started NANO SOMA. He was in a truck accident months ago and injured his arm. He's had surgery and has severe nerve pain and the pain killers weren't helping. He hasn't slept in months due to the pain. He took NANO SOMA, got a really sharp pain in his shoulder and braced himself for it. Within seconds, the pain was gone and it hasn't returned. He's now able to sleep again.

I read a testimonial yesterday about someone with a trigger thumb. My granddaughter has this and has just been booked in for surgery. She's 14 months old, but they have to wait until she's two for the operation. I've told my daughter to try NANO SOMA.

UPDATE:

I've had a mould allergy now for some time, and with the recent flooding in New South Wales, I ended up with severe mould issues again, as it was not only flaring up inside my partner's and my homes, but on brickwork and buildings everywhere, too. We both got pretty sick. Summer really helped, as the UV kills off a lot of outside mould and we get out in the sun a lot. I stayed at my partner's last night and just out of curiosity, I took a look with a fluorescent light to see if there was any mould in the room that I sleep in. Sure enough, the old wardrobe my partner has there showed green. I immediately got the Ammonia out and put gloves on, but I didn't use a mask or a cap, silly me. I got another mould flare up which triggered a really bad headache and a

- 56 -

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

few pains down my shoulders and neck. It affected my partner, too, but he's not taking NANO SOMA yet so I didn't dose him as he was off to do a gig.

I took an extra three sprays of NANO SOMA on the drive home, and all of the headache and pain went away. NANO SOMA is incredible. It turned off the mast cell reaction to the mould allergy.

Please feel free to use anything I've told you; people need to know how good this stuff is. I'm sure there will be more I can write as things continue to heal.

Debra, March 2023

My son got ringworm, and I absolutely could not get it to disappear. After numerous doctor visits and trying several different types of creams, nothing was working. In fact, it was only getting worse. After about nine months, my friend suggested I try NANO SOMA. I was willing to try just about anything at this point. I was told to spray all the spots twice a day and to spray NANO SOMA under his tongue as well. He wasn't a huge fan of the taste, so I sprayed it into a little cup and added some water. After less than two weeks, the ringworm was gone! We are both so relieved! I love that it's natural and I felt good about using the product.

Anja Haastrup, March 2023

Hi Richard,

Towards the end of last year, our doctor suggested that my wife (age 73) and I (age 74) start using NANO SOMA to keep our health in good shape.

I've had a lower back problem for many years. My L3 and L4 vertebrae are partially disintegrated. I have been experiencing lower back pain after about one hour of using an edge cutter in the garden on level ground for years.

A few days ago, however, I used the edge cutter on sloping ground to cut grass for more than two hours. It was only after my wife asked if my back was painful that I realised I was pain-free. Absolutely incredible. I'm convinced that this was because I've been taking NANO SOMA, and I've only been taking it for about three months.

March 21, 2025

Thanks for producing this incredible product.

Franz Kaimeier, March 2023

With NANO SOMA Liquid, I have noticed little things such as a bit more energy. I have also used NANO SOMA Topical Gel on some irregular spots on the skin and these have gotten a bit softer, though they have not yet disappeared.

Irma, March 2023

Dear Roland and Richard,

In December 2022 I discovered an unsightly spot on my face where a pea-sized thickening had formed along with inflammation in the surrounding tissue. I had not noticed it at first because it was so close to the upper bridge of my nose that it was hardly visible in the mirror.

I then treated this spot with the NANO SOMA Topical Gel several times a day. At the same time, I was taking three to five sprays of the NANO SOMA Oral Spray in the nostril affected by the infection throughout the day.

By January, the inflammation and the bump had receded considerably, but I was still not completely satisfied with the progress. I then increased the number of external applications of the NANO SOMA Topical Gel from two times a day, to four or five times daily, and lo and behold, the healing process picked up speed.

Today, the spot has receded so much that it is not even detected by my computer's camera. I am very grateful for the mysterious ways of healing brought to us by the NANO SOMA Topical Gel.

Thank you to the blessed inventor of these products, Dr. Raghavan, and all the others involved in this extraordinary service to humanity.

With very best regards,

Kle, March 2023

Anonymous, March 2023.

The NANO SOMA Topical Gel is great for connective tissues!

I have had hip impingement/hip dysplasia issues for seven years. The doctor suggested that I do a total hip replacement. I decided to start using nutritional healing and physical therapy instead...and I was able to return to Colorado mountain hiking, climbing stairs, and snow skiing!

Now, fast forward another five years of a very active lifestyle, and in the process of moving to the mountains, I have done MORE tearing/fraying of my hip's labral tissue to the point that every day I would have a sharp pain in my hip from the tissue impingement. The issue was to the point that I fell and really tore up my knee. Once more, it was a call to Life Enthusiast for suggestions regarding what might help the healing process.

- 59 -

www.magicdichol.info.

March 21, 2025

Martin suggested giving the NANO SOMA Topical Gel a try. So, I applied the gel twice a day to both my hip and my knee. I will tell you that my knee issue is almost resolved!! My hip continues to have a sharp pain, but not every day. I will continue to take this product for sure.

Prairie W., March 2023

NANO SOMA is amazing. It's been over a year and my blood numbers have all improved. My doctors were surprised. Thank you for being a great advocate of this terrific product.

Richard, March 2023

I believe that NANO SOMA has been a huge help to my bone restoration. Also, even at 72 years old, my hair is slowly changing back to my natural color. In addition, my varicose veins seem to have slightly improved, as has the swelling in my lower extremities. I take NANO SOMA every day and am truly a believer in NANO SOMA. I tell many people about it and can't wait until I can market it on my forthcoming website.

God Bless Us All,

Andy Katz, March 2023

This is a testimonial regarding the heart condition of my mother-in-law, who is 75 years old. She had an aortic stenosis condition, which means that her heart valve had calcification with an aortic valve area of .44 cm² and a peak gradient of 42/26. These values mean that she had a severe heart condition requiring surgery on the valve. After Siddharth's treatment, her values have significantly improved to an aortic valve area of 1.1 cm² and the peak gradient has reduced to 37/22.

Besides this, her symptoms have also disappeared and her cardiologist has given her a clean chit. No surgery is needed anymore. Other than her heart condition, her constipation also improved, as did her energy levels. NANO SOMA played a significant role in this.

Anonymous, March 2023

March 21, 2025

On the June 17th, 2022, our 10-year-old Pyrenean Mountain dog couldn't get up easily and was limited in her actions. Her hips were getting locked and movement was painful. Walking was limited to twice a week for only half an hour. We thought that she wouldn't live very long because we didn't want to see her suffer. After six months of NANO SOMA, we have a puppy back. The improvement began after the first month and continued. She is now 11 years old, taking daily walks for an hour, and just had her yearly vet review: "in brilliant shape for her breed and age."

Jen Bravery, February 2023

Recently I have been having issues with inflammation in my head. My ears – which are always a little bit itchy – were inflamed, with the right one being worse. I started to spray NANO SOMA inside of my ear three to five times per day, which quickly revealed a pain under the ear channel area. Then, the upper part of my ear got completely blocked. I continued spraying NANO SOMA into my mouth three to four times daily, and, after about three days, the condition showed improvement.

Now, I am sure that I won't have to see a doctor, which would have meant antibiotics and maybe surgery. Natural doctors are very expensive here and not paid by the obligatory insurance. Today, I started hearing better again, and the pain in the upper ear channel is almost gone. While the itching is still there in some parts, my overall energy recovers. I will continue taking NANO SOMA very often. If I could, I would take a bath in it and stay there for days!

Christine K., March 2023

I have had two recent successes with NANO SOMA Topical Gel. First, after "expertly" touching a pan out of the 375F/190C oven, I applied NANO SOMA Topical Gel immediately onto the burn. It stung for a moment, and then the pain was gone. No sign of any burn or even sensitivity in the area for the rest of the evening or the following day. Having had experience with these burns, I know that's a consequence of applying the gel.

Secondly, my left ear piercing has always been irritated by anything other than gold or silver. I began covering the earring's post, and my earlobe, with the NANO SOMA Topical Gel and for the first time in my life I can wear my cheap earrings without irritation!

Erin, March 2023

March 21, 2025

I just wanted to share that NANO SOMA worked again! This time it helped me with my son’s rash (molluscum contagiosum). He has had a rash for around one year, and after a month of NANO SOMA – taken both orally and sprayed directly onto the rash – it has almost disappeared. We will continue until it is fully gone.

The “traditional doctors” told me it would never heal by itself (because it was very spread out and it had been too long... rashes typically last from six to nine months in healthy individuals) and the only way to heal it would’ve been through applying a cream to “burn” it off or cryotherapy. The cream has so much inside that is potentially carcinogenic so I refused it and used NANO SOMA instead. I’m so happy!

JJ, February 2023

Richard,

I had my nose fixed after 65 years. NANO SOMA to the rescue!

I put the NANO SOMA Topical Gel in my nose for two days before. There was no black and blue, no pain medications, and I’m carrying on the best I can. You are five steps in front, teacher.

This 73-year-old myopic American (a private joke) has normal blood pressure, no clogged arteries, and takes no medication. Others are flabbergasted by my condition. Thank you.

Charlie, February 2023

Hi Richard,

I’m continuing on my fourth year with NANO SOMA Liquid, and I’m doing great! I also am using NANO SOMA Skin Cream and the NANO SOMA Topical Gel for my skin. I started using much more NANO SOMA due to a horrible pain around my gall bladder/ liver area. I couldn’t bend over without pain! Well, the pain disappeared after several days of increased sprays (sometimes up to 10 sprays per day).

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Also, the NANO SOMA Topical Gel has removed what looked like skin cancer on my arm!

All this to say that I listen to my body and adjust my sprays accordingly and, “magically,” all kinds of negative issues disappear.

Love and light,

Martha B., February 2023

I drank coffee yesterday and had some dark chocolate homemade candy. My heart felt like it was going to jump out of my chest. I took five extra sprays of NANO SOMA and within minutes my heartbeat regulated. That was a good test right there of how NANO SOMA brings the body back into balance.

Anonymous, February 2023

Hello Richard / Dr. Presser,

I have been using NANO SOMA consistently since you first came on with Kim and Tank. I wish I had taken pictures beforehand, because the most noticeable results have presented on my skin. And even if those few skin issues were all that I had to share, they would weigh in favor of the cost in my opinion... I would say in anyone’s opinion!

Just to give you an idea, before NANO SOMA, I had started to develop skin tags underneath my eyes (I’ll be 63 years old in May). After my first week of using NANO SOMA, the tags never returned! NANO SOMA start:

For the first week of usage, I was spraying NANO SOMA on my face a few times a day – concentrating mostly on where I had the skin tags, then expanding outwards. I was also doing five or more sprays into my mouth every day. I used the product rather liberally or as I felt was necessary. I have always had issues with sensitive facial skin; using anything on my face was an issue for me, especially with the dry skin at my hairline and the outside corners of my nose. Anyway, your product has performed exceptionally well.

- 63 -

www.magicdichol.info.

March 21, 2025

Also, there was a carcinoma on my nose that I watched disappear under magnification. I could see the pores of my skin gradually turn from brown to clear or normal in about a half-inch square consisting of 10 pores or so.

Bob, February 2023

Editor's Note: The NANO SOMA Skin Cream is an excellent option for those seeking to prompt healing for issues manifesting on the face. It contains the same active ingredient as NANO SOMA but in an oil-free, moisturizing cream that is safe for sensitive skin.

My sleep has been better since my use of NANO SOMA. I feel my energy level has been better, too! My wife recently had knee surgery and has been using the NANO SOMA Topical Gel and NANO SOMA Oral Spray and it has helped clear up bruising and relieve the pain somewhat. We have been using it two to three times daily as we are in our early 60s. God Bless from Ohio!

Reginald, February 2023

Dr. Raghavan,

My name is Mark and I live in southeast Wisconsin, USA. I wanted to send you a quick email outlining my experience with NANO SOMA and how it has helped me heal my body. I am about to turn 55 years old and, due to COVID-19 workplace mandates, I was vaccinated with PfizerBioNTech Dose 1 (April 2021) and Dose 2 (May 2021) to help "safeguard" my workplace. It didn't take very long for me to start feeling the effects of those vaccines. I went from being a healthy, five-time Ironman Triathlete with multiple marathon finishes to not being able to complete a short bicycle ride without gasping for air and feeling unusual fatigue. I knew nothing about the side effects of the COVID-19 vaccines. I had put blind trust in the vaccines and was now worried about what I had done to my body. My initial thought was to just "health" the vaccines out of my body with diet and exercise. I found very little improvement with this approach – the same approach that had sent me across many finish lines.

Jump to October 2022 and the introduction of NANO SOMA into my daily routine. Within a few days of taking NANO SOMA, I noticed that I felt more energetic, my skin looked better and my eyes were

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

brighter. Encouraged, I continued to use NANO SOMA and found that my energy levels were on the rise. My fitness and exercise program was starting to show improvement and I felt like I had the strength to complete bigger workouts. More importantly, my lungs felt great!

I have been using NANO SOMA daily and I have started to notice more benefits. My nails are growing fast and I find myself having to trim them about every seven or eight days. My hair! My hair is growing fast, too. I find myself needing a haircut sooner. I am getting better sleep as well. I almost feel like everything is getting stronger and more efficient. Now, I wouldn't say I'm ready to tackle another Ironman (just yet), but I know my body is working like it should be working.

Please feel free to reach out to me and I thank you for helping me get my body back from the vaccines!!!!

Mark, February 2023

The NANO SOMA Skin Cream is beautiful and the scent is the most natural I have enjoyed in any skin product I have used. My skin does well with it and it has helped with reducing fine lines around the eyes and with making the area under my eyebrows more supple...I like the fine texture of the cream and the container which keeps the air out and prevents contamination.

Thanks for creating this wonderful product.

Anonymous, February 2023

I became aware of NANO SOMA through the Lazarus Initiative (an online community run by Sacha Stone) when it was first introduced to the members in December of 2021.

In September of that year, I purchased a product that was also introduced to the members. I asked my pendulum how much I should buy and it said to buy two months' worth. I was prepared to purchase more, but I held to the two-month supply.

- 65 -

For more information on the MagicDichol® Family of Products, go to:

March 21, 2025

When December rolled around, I was running out of that supplement and thought, 'Okay, what now?'. In that month's show, NANO SOMA was introduced. I did not bother to consult my pendulum and, before the show ended, I purchased a year's worth of the NANO SOMA Oral spray. I am now into my second year, and while I started NANO SOMA without any major health issues, my body continues to get healthier and healthier.

Every now and then I will consult my pendulum about my body and whether or not it might be lacking any vitamins, minerals, etc., that it needs. Basically, I ask for guidance on where I need to place my nutritional efforts. The message I get back is to continue with NANO SOMA every day. My body is now telling me that it is ready to move towards a rawer/ more sprouted diet, consuming foods with the true living essence that we all need. It does not get better than that! I am 63 feeling like I am 40.

Connie, February 2023.

NANO SOMA and the NANO SOMA Topical Gel — My Two True Friends

I have been purchasing and steadily taking NANO SOMA for over a year and a half and have been using the NANO SOMA Topical Gel for approximately half a year. I began taking five sprays of NANO SOMA three times daily, as recommended, but I quickly increased the individual amounts and frequency.

Why would I do such a thing, especially considering the cost of such a decision? I began taking more NANO SOMA because that is what my Heart/Source/Higher Self guided me to do. I could also say that I began more and more to simply follow my intuition, using these two wondrous products as supportive friends for what I WAS CHOOSING FOR MY SELF. For example, after taking Carbamazepine for unexplained seizures for over 20 years, I stopped. I gave my physical/energetic/spiritual being the clear message: 'No more of this drug needed – NANO SOMA will help support the body to accomplish this!'

Similarly, NANO SOMA has supported my body with hay fever, my eyesight, aching joints, headaches, migraines, and more. Currently I am working on Tendinosis Calcarea.

Now, can I PROVE that NANO SOMA or NANO SOMA Topical Gel has healed anything? No. Can I say that my inner feeling of the rightness and the gifts of these products remains unhindered? Yes.

I place no limits on how often or how bountifully I use these two friends. I follow the guidance within. Now, someone might say: 'Hey, in any case, that is a LOT of money!'. Yes, it is true. And no, we (my

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

little family grouping of friends) are not ‘rich’ in the conventional sense, but we do choose to allocate our funds where it is important to us.

So, the only thing that I can testify to with gratitude is that both NANO SOMA and the NANO SOMA Topical Gel function for me as true friends — guiding, supporting, and loving. And is there anything more important and precious than this?

With love,
Nancy, February 2023

Hello Roland,

Here are my experiences with NANO SOMA.

I have two dogs: a two-year-old German Shepherd named Odin and a 12-year-old Chihuahua/Jack Russel mix named Lui.

About six months ago, Odin had conjunctivitis. The eye was quite red. After spraying NANO SOMA directly in his eye, it was better. The next day, it was a bit worse – but not as bad as the beginning – so I sprayed NANO SOMA in his eye again. Then, I went one day without spraying and it slightly worsened, so I sprayed NANO SOMA in his eye for two days (once per day). After these two days, Odin’s conjunctivitis was cured and remains so to this day.

Recently, my other dog, Lui, had this same problem – even worse than with Odin. Now that I had so much experience with the issue, I immediately sprayed NANO SOMA in Lui’s eye twice. This helped immediately and there have been no additional issues so far.

NANO SOMA also has an almost immediate effect on abscesses in dogs.

NANO SOMA works very quickly in dogs, and you can see a response almost immediately. With us humans, in my opinion, it is not always as fast – but it is effective, and you just have to stick with it. I have personally taken NANO SOMA for one year.

What I can report is that I now have a clear nasal passage and don't need nasal drops anymore. I used to wake up a few times in the night due to a lack of oxygen, however, since taking NANO SOMA, this has become much better.

March 21, 2025

Regards,
BS, February 2023
Translated from German by deepl.com.

I have been taking NANO SOMA for 10 months. The first change I noticed was being able to do things above my head, such as putting clothes away on a high rack, without tiring. Now, I don't get the backaches. I still have scoliosis and kyphosis, but not having pain has made a huge difference. I have been able to do miles of hoeing on our property, which I would have never been able to do before NANO SOMA.

I had a checkup for new glasses at the optician, and the optician described my eyes as having improved two and a half steps. I think it must be more, as I picked up the glasses yesterday – one month after the check up – and the new ones are way too strong. So, I'll have to go back again and get rechecked. I haven't been able to wear my former prescription glasses for some time, but I pulled out a pair of glasses from some years back, and they are fine.

I have had my hair 'blonded' for a few years with foils. I have grown the colour out. There is still grey hair across the front, but at the crown area, my hair is gradually appearing to return to the natural colour I had years ago. I am 69 years old. I am so grateful for this product.

Anne Dawe, January 2023

I have been using NANO SOMA for over a year. As a cancer patient, I am confident that it is helping my immunity to function above par, especially after chemotherapy. I am also impressed with the customer service. I once had a situation that Martin (an affiliate) quickly resolved for me. Excellent product and company!

Sandy, January 2023.

The NANO SOMA Topical Gel is my "go-to" gel for any mishaps to the skin on myself or my dog. It heals up wounds so quickly. It even took the sting away from a bad steam-burn to my hand and there were no blisters afterwards! I don't ever want to be without this product. I love it!

March 21, 2025

Sue, December 2022

I am sending my experience with NANO SOMA. I have been using NANO SOMA for years and have experienced many benefits to my health. I am 78 years old and I feel well – I don't suffer any major ills.

Back four years ago, I had heart bypass surgery and have been on medications for blood pressure, diabetes, and cholesterol at the Doctor's requests. I have been using NANO SOMA with these medications and recording my blood pressure and sugar levels.

Over a week ago I thought I would give a trial and stopped using all prescription medications. I increased my NANO SOMA to five sprays every four hours for seven days. I know that was overkill, but I wanted to be sure.

I have been checking my blood pressure and sugar daily and they have stayed the same as before while taking the drugs. My wife was diagnosed with dementia several years ago. I put the NANO SOMA spray on the sink for her to take every day as she may not remember to take it otherwise. I believe it has slowed the dementia – not cured, but slowed its progress.

March 21, 2025

I have used NANO SOMA Topical Gel on all sorts of skin problems with success and have found it is good on mosquito bites.

I used [brand name] on my leg twice daily for four weeks to treat skin cancer from too much exposure to the sun when I was young. The result was so bad I had to stop using it short of four days. Now, I am using the NANO SOMA Topical Gel and the skin is much improved.

I have included two photos: one of my leg at its worst, and the second of my leg since using the NANO SOMA Topical Gel.

I have also been using NANO SOMA Skin Cream on my face for some time. I love the smell and texture – it is so smooth. My skin feels soft and healthy, but I think it will take a long time to make me look 45 years old, after 70-odd years of living mostly in the Australian sun. Thank you, Richard, for these wonderful products. I am grateful and will keep on using them.

Love and Light,
Bill Sternbeck, January 2023

My Broken Heart

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I recently arranged to meet my new friend, Mike, who I met at the Truth Be Told Rally – a gathering to honor those injured or who sadly died as a result of the COVID-19 vaccine. We had a lovely time talking things through. My girlfriend joined us and explained in great detail about how NANO SOMA saved her life on many occasions and continues to help her to this day.

Strangely, however, I felt very uneasy around my heart and chest area that day. On our way home, I felt really strange – I was hot and cold and anxious. My heart felt fluttered and I wasn't acting normal. I was beginning to panic.

When I got home, I jumped out of the car and ran upstairs to a quantum device that I used against my heart. I felt sick for days and wasn't getting better. I was even throwing up water. Dr. Raghu offered to send me a few bottles of NANO SOMA.

During this time, it felt like the left side of my heart could not fully pump blood around my body. I felt sick, dizzy, and so scared. I was advised by Dr. Raghu to use a protocol that involved more frequent use of the five-spray dose. I used NANO SOMA every three hours and sometimes more.

I have a scanner machine that told me I had left ventricular heart disease, which apparently usually results in surgery or the use of technology fitted to the heart. However, after three days of using NANO SOMA, my results cleared and the issues in the left ventricle of my heart were fixed.

I've been talking and sharing stories about NANO SOMA – I never thought I would become one of those amazing testimonials!

Thank you, NANO SOMA, for healing my broken heart.

Love and light X
Anon., January 2023

On January 3rd, I was admitted to Warwick Hospital with chest pain and wheezing. I hadn't eaten for five days and was very weak. My D-dimer results came back positive and I had a pulse of 140 bpm. The doctors felt strongly that blood clots had returned to my lungs, so I remained in the hospital for two days while I waited for a CT scan.

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I refused the injections of their blood thinners and I started taking NANO SOMA, which I had taken with me in my hospital bag. I started getting stronger and began to eat and drink. I started feeling like myself again and like the life was coming back to me. By the time I had the CT scan, there were no signs of clots and I was able to go home. NANO SOMA is an absolute miracle and my partner and I feel very blessed to have found it. We are so unbelievably grateful to Dr. Raghavan for creating it. It has saved both of our lives on more than one occasion. We are both living proof of the power of this absolute miracle product.

Anon., January 2023.

I used to have a lot of floaters in my eyes. After three or four months of using NANO SOMA, these went away. I only sprayed it in my eyes about four times; the rest of the time I ingested NANO SOMA orally, taking five sprays daily.

Karen, January 2023.

I wanted to send you my testimonial. I am 70 years old and have been using NANO SOMA for about two years now. I wouldn't go a day without it. I use all three products. I started with the NANO SOMA spray. At first, the taste was metallic, but very soon after there was no taste at all. I am surprised occasionally when the metallic taste returns, however, that is how I know that an imbalance is being corrected.

I have received the designation of Certified Natural Health Practitioner and have seen clients for about 12 years. When I research a product for my clients, I use it first to be able to give them information from my first-hand experience.

First Hand Experience:

NANO SOMA Liquid: People are surprised when I tell them that I am 70. They immediately look at my license to verify my age. I giggle to myself. I take this as the ultimate compliment. My energy is high and consistent. I start my day at five in the morning and end it at 10 at night. I do not take any prescribed medications; my blood sugar runs between 90-105; my blood pressure is 126/86; my pulse is 86 beats per minute; and my Vitamin D level is around 60-65 consistently – I have it checked twice a year. I was immunized as a child but not vaccinated as an adult. In January of 2020, before COVID-19 had a name, I was sick but it never developed into anything but a fatigue which lasted 17 days. I am thankful that I had NANO SOMA in my corner.

- 72 -

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

NANO SOMA Topical Gel: I use it for scars on my legs and age spots on my hands. I have scars from an accident ten years ago. The scars were impeding the surface return of the blood and making my ankle swell. The dermatologist wouldn't listen to me and didn't do anything to help. I ordered the gel and have been applying it to the scars. I can see that they are softening, fading, and the blood return is much better. Also, the age spots are fading. Nothing tells your age better than your hands and neck.

NANO SOMA Skin Cream: I ordered the skin cream because I was about to run out of my usual. I love it! It smells wonderful, absorbs great, and I feel that it protects my face throughout the day.

My suggestion: Start with the NANO SOMA spray, follow the instructions, and use it consistently for about two months. Then, stop for a week and notice any differences. Your test will convince you that NANO SOMA is the best.

When you consider the cost of skin care, doctor's visits, and supplements, the cost of NANO SOMA is a real deal!

Joanne Roland, January 2023

Good morning, Roland.

I sent you a very detailed and long report about half a year ago on all my many, various, and in truth, puzzling diagnoses. Since then, all these medically inexplicable symptoms without a credible, orthodox medical diagnosis have continued to improve overall.

Generally speaking, it is safe to say that I feel more vital and rejuvenated, and my brain, which is really already in a pre-dementia state, continues to "clean up" as well. Even if only in very small steps. That's understandable, because after all, I slid into this state in equally small steps, barely noticing it for decades. My memory, especially the ultra-short-term memory, continues to improve noticeably, as does my ability to concentrate. Only the word-finding problems remain an issue.

- 73 -

For more information on the MagicDichol® Family of Products, go to:

www.magicdichol.info.

March 21, 2025

The nocturnal nerve pain in my right leg has improved most noticeably – although also quite slowly. Every few months, however, I notice that the improvements continue to increase, without going into all the strange problems again. Some things simply need more time – for example, my inexplicable attacks of tiredness and burning feet after eating. They are also weaker, but still there. Just like the rosacea, which just won't go away.

But all in all: I am very happy about all the progress I am still making since I have been taking NANO SOMA daily for about a year and a half now. I have not been sick at any time during this period, though I have avoided any kind of COVID-19 measures.

My life has become much more livable! Before NANO SOMA, I was a mass of strange, unexplainable symptoms that considerably affected my daily life. Taking five sprays of NANO SOMA right after getting up will be a part of my daily routine for the rest of my life! I can no longer imagine life without it. Some of my relatives and friends, who I familiarized with the products, feel the same. I sometimes order for them at the same time to benefit from the biggest possible discount.

I remain very grateful to have discovered NANO SOMA.

Warmest regards,
Hanna Willimann, January 2023.

(Translated to American English by [Deepl.com](https://www.deepl.com))

My knee is fantastic, thank you. I have just started going to the gym again after many years being absent, and whilst my trainer is being careful just in case, it is feeling great and not a problem at all! I am so happy with that – but most of all, I feel constantly 'protected' taking NANO SOMA. I know my body loves it for so many reasons.

Doreen Morel Sneath, January 2023

I love NANO SOMA. In just two weeks of using NANO SOMA Skin cream, it reduced a mole on my face significantly. I also have uveitis (a form of eye inflammation) that flares up in my eye from my autoimmune issues. I started NANO SOMA, and it cleared in two days. I'm usually on eye-drop steroids for weeks.

I am on NANO SOMA for life now and keep promoting it to family and friends.

- 74 -

March 21, 2025

Kind regards,
Alexina Graham, January 2023

Happy New Year, everyone! I would like to share a short NANO SOMA Testimonial.

My husband and I have been taking NANO SOMA for 17 months now. He takes five sprays daily, while I've been taking nine or more sprays a day. I have had some annoying toothaches on both the upper and lower right side of my mouth. I sprayed some NANO SOMA right on the teeth and swished it around my mouth for a few minutes. In just minutes, there was no more pain.

My husband, who is 67 years old, has had "ED" (Erectile Dysfunction) for 20 years. It is now gone. In addition, I have had a small eczema scab on the outside of my knee for years. Now, it has finally fallen off.

We visited family for Christmas. I have metabolic syndrome. I over-indulged on sugar, wheat, and dairy after being on a keto diet and doing intermittent fasting for about six months. I gained 13 pounds in one week. After being home for just five days, I've already lost nine pounds. NANO SOMA really does assist your body to correct itself, but it can do so even faster when you follow a healthier dietary approach.

I just love this stuff and am so grateful to Dr. Raghavan.
Oh, and my feet no longer swell when I eat carbohydrates, which tells me that my Type 2 Diabetes is correcting.
Looking forward to more symptom corrections.

Anon, January 2023

After just two days of using NANO SOMA, my knee pain has gone and my shoulder pain has gone... and I was only using five sprays a day. I'm also currently using the NANO SOMA Topical Gel for my skin issues, though I'm yet to confirm any responses. My brother has also started using NANO SOMA and his Parkinson-like shakes have diminished. I'm very excited about this product.

March 21, 2025

Hi, I live in Europe – Vilnius, Lithuania – and I’ve been using NANO SOMA for a while (over two years now). I am a 57-year-old male but feel closer to 35 years old.

Anon, December 2022

From a 70-year-old customer:

I am having a quiet and remarkable revolution in my body. I have been quite healthy throughout my life with only sinus issues when I was pregnant with my first child.

In 2012, while using superglue without gloves, it suddenly spilled on my right hand, wrist, up my elbow, around my neck, and down to my left hand. My right hand was particularly black. It was impossible to remove, though I discovered Aloe Vera, which helped to a degree. To compound it, I fell while changing a bulb from the dining table. This almost yanked my left leg from my hip, leaving me with very poor balance and a feeling of breathlessness. I used to play badminton quite frequently but found myself toppling over.

I started taking NANO SOMA regularly from October 2021, and I can say today with confidence that my physical life has moved positively by leaps and bounds. I can truly say that this improvement from a chronic state to health has lifted my optimistic spirit to greater heights, as I can see and feel a relief of my symptoms – slowly, but surely.

Thanks, Raghu, for this incredible discovery. ‘Thanks’ is too tepid a word to describe how I feel.

Anon, December 2022

Dear Doctor Raghavan,

I am 75 years old and had pterygiums (growth of the conjunctiva or mucous membrane that covers the white part of the eye over the cornea. It is a benign or noncancerous growth often shaped like a wedge) in both eyes that bothered me terribly. They were not ready for surgery, but they bothered me tremendously as my vision was impaired and the itching was continuous. The left eye had the pterygium covering the cornea, as is evident in the MGH/HARVARD medical records in 2019 (I will

- 76 -

www.magicdichol.info.

March 21, 2025

mail them soon). The pterygium in the right eye was about to reach the cornea; it was yellow and not translucent. In 2020 and 2021, due to COVID-19, I did not have my eye exams.

The surgery is complicated as is the recuperation, but I was ready to have it after my eye exam this year in Florida.

In mid-May of this year, however, I began to apply the NANO SOMA spray to both of my eyes. Within a month and a half, the pterygiums receded in both eyes; I could see clearly and there was no longer any discomfort. I feel that I no longer require surgery. I feel fine and my vision is clear. I will send the detailed pictures of my eyes as well as the medical report in the first week of January.

Sincerely,

Jorge Gonzalez, December 2022

The following image shows the translated medical results of a woman in Germany with osteoporosis. After one year of taking five sprays of NANO SOMA daily, she reports that her osteoporosis has stabilized and has even seen improvement in her lower back.

This is most strongly shown in the first chart image, where her BMD (Bone Mineral Density) improved 5% in her lumbar spine from her last test in 2020. This is considered a significant change. Equally, after just one year of taking NANO SOMA, the osteoporosis in her left femur shows signs of stabilizing.

To read a published scientific article by Dr PR Raghavan regarding Metadichol (NANO SOMA's key ingredient) and osteoporosis, click [here](#).

March 21, 2025

Merry Christmas to you. My boys are little experts. They tell their friends about NANO SOMA, essential oils, healthy eating, etc. They know when to take it and how much to take. We simply keep all three varieties on the counter (NANO SOMA, NANO SOMA Topical Gel, and NANO SOMA Skin Cream), and they help themselves. I love it! I think about the future of their health and the impact they'll have on all their friends and family.

Anon, December 2022

I started putting the NANO SOMA Topical Gel on a couple of bumps around my eyes which my dermatologist had been wanting me to treat with stuff that I found way too harsh. They've been there for a couple of years now. After a couple of days using the NANO SOMA Topical Gel, one of the spots is basically gone and the others seems to be on their way!

Ana S., December 2022

My sister-in-law's husband went nearly totally blind and was told there was no cure. I implored her to use NANO SOMA. He did. He got his sight back even better than before. I asked her for a testimonial for you. She said that in January her husband will have his clinical tests and she will compile everything, including photos, for you. They are so grateful and I told them you have a special place in my heart.

Congratulations,
Dr. Raghu.

Anon, December 2022

Hello John and Richard,

I've been using NANO SOMA for just over a year now. I found it helped my body clear up some longstanding chronic fatigue syndrome (CFS) symptoms. Soon after I started using it earlier this year, my family (unvaccinated) were all exposed to COVID-19 and one member in particular became quite ill. My experience was only mild thanks to having already started on NANO SOMA.

Some months later, I was again exposed to COVID-19 through another family with whom I was closely associated. I had another bout which ultimately turned into 'Long Covid' (or a resurgence of CFS, the symptoms are apparently identical). I soon increased my dosage to twice and then three to four times

March 21, 2025

daily. That was the turning point, and I felt my body beginning to improve. At the same time, I began some spiritual healing, which – from a different perspective – had the same aim that NANO SOMA does: to bring about healing from within. The two appear to be working very harmoniously together.

Several months ago, I decided to also try the NANO SOMA Topical Gel, which I now use in several ways. Applying a small amount inside each nostril before bed seems to minimise any inflammation and ease snoring. Applying it to my neck has eased pain and stiffness from an old whiplash injury, and applying even a small amount to the base of my spine has greatly relieved chronic back pain and associated sciatic pain. I tried many natural and pharmaceutical remedies but only the NANO SOMA Topical Gel worked.

I am sold on both products.

I also recently used NANO SOMA Topical Gel on a badly bruised toe after a fall. After a few days, all the very dark bruising had disappeared! I also used it on my grandson’s knee which had a very large scrape from a fall; there was no pain, no bleeding, no scabbing, and it was almost completely healed within a few days. Even an 8-year-old was very impressed!

Best wishes to you both,

Pam W., December 2022

[This video illustrates](#) NANO SOMA under a microscope. From the video:

‘Look at how vibrant and vital this product is...They are just full of energy and vitality... I just wanted to share this with you because I get to look at a lot of products under a microscope and I have to say, NANO SOMA is just one of the most energetic and vibrant products that I’ve looked at’

March 21, 2025

The above bright white lights are NANO SOMA particles under the microscope.

Caroline Mansfield, Naturopath, December 2022.

My two sons have been taking NANO SOMA Liquid for over a year – each taking five sprays daily – and they have not been sick once. My older son took the Johnson & Johnson COVID-19 vaccine and, since taking NANO SOMA, he has not been sick. He was even with his girlfriend, who had COVID-19, for two weeks and didn't get sick. You are heaven-sent! Now, if I can only convince my 24-year-old daughter (who has had type one diabetes since she was ten years old) to take it.

I want to thank you so much for inventing NANO SOMA – “Life in a bottle”. I love it! My 84-year-old Mom is taking care of a household of five. She has been using NANO SOMA for one year, taking five sprays daily.

March 21, 2025

She has energy, looks young, and takes no medications. The doctor told her that she has the heart of a 22-year-old. No kidding... She is happy, flexible, and everyone is always asking what supplements she is taking!

Thank you so much, and may the grace of God be with you always, Dr. Raghu.

Anon, December 2022

Hello John,

I started using NANO SOMA in July 2021 after I watched an interview with Richard. I felt instinctively that this was a very important and timely product to be taking during these times of great challenges. I mainly took it for protection from the spike proteins from those who took the jab and to keep my immune system strong. I felt all along that this was an almost 'magical' product that knew exactly where to go in my body, so I also put my family and some friends on it.

I have always felt protected wherever I went, and I intuitively took more if I was exposed to large groups. However, after following the initial start-up protocol, I generally only took the recommended maintenance dose of five sprays daily.

After a few months of being on NANO SOMA, I was very pleased to discover that my right knee – which, after an injury, had been giving me problems with pain, tightness, and scarring for a few years– suddenly loosened up and got better! This was never my intention, so I was both surprised and grateful!

Thank you, NANO SOMA! My family and I thank you.

Kind regards,

Doreen Sneath, December 2022.

Looking forward to receiving our bottle of light!

After my first few uses of NANO SOMA, I had an experience that was like a light being switched on. I was downstairs in a room that looks out at a valley/small escarpment, and it looked like the sun had come out

March 21, 2025

from behind the clouds. Everything brightened and lightened up. The only issue was that the skies were cloudless...Hmmm.

All the best to you and your loved ones, family, and friends.

Kind regards,

Debra Barber, December 2022.

Good day, Dr. Hillermann,

The NANO SOMA Topical Gel arrived at just the right moment. Thank you again for this support. I recently overstrained my knees by squatting for too long. As a result, fluid leaked from my tissues causing pain and swelling. I then applied the NANO SOMA Topical Gel several times a day. After a few days, the swelling went down.

Unfortunately, I made another awkward movement and the pain came back. So, I continued the treatment for several more days, first treating it three or four times a day, and then only twice a day. My knees have almost completely recovered. I don't feel any pain in everyday life, as long as I don't do anything strenuous. I can't squat or sit cross-legged, but otherwise I'm fine.

The NANO SOMA Nutritional Spray enables me to cope with my everyday life relatively stress-free. In the case of occasional heart-rhythm disturbances, I spray my chest one or two times and feel a prompt relief of my symptoms.

NANO SOMA is a very special blessing. In my eyes, it helps to bring about the harmony that one achieves through spiritual discipline to the body, so that a greater integrity arises. Of course, this process is a gradual one, as anyone who is concerned with developmental issues understands. But it seems to me as if an extra protection is established on a higher level. Perhaps others have made similar statements. Thank you very much for this product. I wish more people would understand the quality of this very special health promoter.

Best regards,

Klementine Wemmje, December 2022

***** Dear Richard,

March 21, 2025

My spouse is receiving chemotherapy injections in his stomach for Leukemia. The injection sites are very painful; they burn and last for two weeks. The topical creams that the doctor recommended did not provide relief. I ordered the NANO SOMA Topical Gel to apply to the site, and it relieved the burning and healed the area within a week!

Below you can see the site before and after using NANO SOMA Topical Gel.

He has to get these shots for seven days in a row, recover for three weeks, and then begin the injections again.

In addition, we both take the NANO SOMA Nutritional Spray orally every day. I've been taking it for two years and he began after his diagnosis. While we limit our exposure to crowds, we have not had any colds or viruses since taking NANO SOMA. In my heart, I know that NANO SOMA is helping our immune systems stay strong.

Blessings to you and Raghu for your commitment to healing and wellness. You are mighty Healing Earth Angels!

March 21, 2025

Editors' comment – *It is good to remember that the body heals itself of almost everything that does not represent ideal health in the presence of NANO SOMA. Customer reports indicate that Leukemia is just another such condition that the body can heal for itself, though we make no such claim. Again, it is a journey in understanding to move from looking at health issues of all types as a disease, not simply a dis ease of the body – an alert that something needs to be corrected.*

I'm a long-haul COVID patient. I lost my sense of taste and smell in August 2020. I ran across the name NANO SOMA on a website search in late 2021 and bought a three-pack of the NANO SOMA Spray. I tried the first bottle under my tongue, as directed. Nothing happened. I then took the second bottle, poured it in a nasal applicator and took one spray through each nostril twice daily. In three weeks, I got my sense of taste and smell back – just short of two years after it went away. A miracle.

Thank you,

Cindi Stacey, December 2022

Hi Richard,

This is Yana and I wanted to thank you so much for all that you are doing. My friends Rosanne and Carla have their business up and running. We are promoting NANO SOMA at our groups here in Avalon and keeping a record of testimonials. Some wonderful results even in this short time.

I started taking the NANO SOMA Spray about a month ago when it arrived at 11:11 – just after our beautiful conversation! I decided to go straight for it and take it four times a day, as I was getting over a "virus" thing at the time! Now, I feel great and have been continuing with just five sprays daily. I've stopped taking other supplements as I feel so good. My daughter is also taking it. So, thanks again for bringing such an amazing

product to the marketplace. I know that NANO SOMA is a great healing product that can help counteract all the other crazy things our bodies have been subjected to! Many blessings from Avalon and may our paths cross one day!

With much Love and Light,

Yana, November 2022

March 21, 2025

Hi John,

Thanks for the call. I continue to enjoy good results using NANO SOMA. I must have been taking it for nearly a year now.

1. My blood pressure has stabilized. It's down from around 160 over 86 to 144 over 82.

2. My PSA (Prostate-Specific Antigen) count has dropped 12 points.

3. My nosebleeds have virtually ceased (I use the spray only in the mouth).

4. My mental acuity has improved (I am 80 next February, so I need all the help I can get!).

5. Other irritating aches and pains have also reduced.

Thanks for the contact, much appreciated.

Kind regards,

Alistair Welch, November 2022

Hi Richard,

More than ever before, I am compelled to simply continue to eat healthy foods to sustain my body's health and immunity and to let my "human body" do the work it does so miraculously... with NANO SOMA.

Actually, I find that I am naturally craving less food. It's like my body/life is becoming more in line with my body's ability for optimization. I know this sounds out there, but it's true.

March 21, 2025

In addition, before, I was taking more than five squirts of NANO SOMA a day... thinking more was better!

Well, I can tell you that taking more NANO SOMA is not necessarily better (unless you have a malady). Taking the suggested five squirts of NANO SOMA a day for maintenance has my body operating optimally. I feel calm and balanced.

Stacey Gaiga, November 2022

This is Benson, a distributor in Malaysia who works with Dr Tang. There have been a few cases where diabetic patients with kidney disorders and blurry vision improved greatly by using Metadichol (the key ingredient in the NANO SOMA spray).

There was one case where the patient was already blind for a few years. After using NANO SOMA for two weeks, he began to see color and light coming from the television while at home.

I am now trying this product on a patient who has been blind for more than 10 years. I hope there is a miracle.

Benson, November 2022

Hi Richard,

Just giving a short, to-the-point summary of my NANO SOMA usage over the past several years. I have used it for earaches, toothaches, sinus congestion, cold sores, hair growth, possible gout in the big toe (it worked like magic), burns, eye floaters, COVID-19 prevention, cold and flu relief, and athlete's foot. I also squirt a couple of sprays into my mouth every now and then for internal repairs.

To sum up, I was born in 1950 and I run and lift weights on a regular basis. I've been exercising most of my life, but NANO SOMA keeps me repaired. And, when I do break down, it shortens the recovery time. This NANO SOMA is no joke. It works just as advertised. Thanks.

Gregory Hood, October 2022

March 21, 2025

I have used the NANO SOMA Topical Gel with positive results for a number of things, but sometimes it's the little things that most blow my mind with this product. I was trimming a number of branches with hand shears recently, and I was doing too many in a short space of time (typical of a 76-year-old Aries!). My partner came out and said, 'What have you done to your hand?'. Blood was dripping down my fingers. I had incurred a large blister in the web of my hand between the thumb and forefinger.

Having ignored it to that stage, I then tore off the skin from the blister and kept chewing layers off. I actually had a deep depression there.

I bandaged it and when I checked the next morning, there was no infection but a deep hole. That same day, I read your testimonial about the guy who had knee surgery who explained that the NANO SOMA Topical Gel took away the pain in less than a minute. I thought 'Heck, if it can do that, I will put it on my injury' I put the NANO SOMA Topical Gel on the depression on my hand that afternoon and once again before bed – no bandage, just the gel. When I awoke in the morning, the hole was filled in, and it was almost healed!

Two days later, there was no sign of ever having hurt my skin. I am amazed and humbled.

Dr. Joseph, October 2022

I think the NANO SOMA Topical Gel and the NANO SOMA spray work well for me. I've been using the NANO SOMA Topical Gel for a few weeks now, and my age spots seem to be decreasing. I got rid of a mole in a few days using the NANO SOMA Topical Gel. I'm 72 and am in excellent health due to products like NANO SOMA. I have not been to a doctor in 30 years.

www.magicdichol.info.

March 21, 2025

Randy Now, October 2022

Brilliant stuff. The first time I bought a bottle of this, I used it for about a week, and then my kids came home with a cold right before a weekend away during COVID. Hotels aren't keen on snotty kids of late so I probably went through a whole bottle spraying it down everyone's throat six times a day (we're a family of five). But I have to say, when it came time to wake up, pack, and get on the road, not a single one of us was sick any longer after 24 hours of use.

I've used it on bug bites, sunburns, and skin irritations, but mostly to help modulate my immune system (I have Hashimoto's, which is an autoimmune disease that attacks my thyroid). I use it in conjunction with a very clean diet and a regular detox, and lately, it has been one of the main things

that has kept me healthy after moving into a house with mold. I spray it up my nose for that. Not fun, but super effective. I can't recommend it enough.

I would say that you have to be consistent, as the results get better over time – kind of like with adaptogens. But I don't have the kind of joint pain or frequency of illness that I had post-contracting COVID since using NANO SOMA regularly. Well worth it.

March 21, 2025

Exquisite product. It's rare that you find something that transcends your experience of medicine. NANO SOMA is way ahead of its time. As a naturopathic physician, I suggest it to my patients and call it an intelligent molecule. It addresses most of your acute and chronic physical, mental, emotional, and microbial disturbances.

I have never seen anything more exquisite than this product.

Anonymous, October 2022

We've used this daily for the last three months. We've dodged some serious and not-so-serious colds and flu bugs. I mix it with my two youngest daughters' beverages in the morning (just a few sprays a day). It's a miracle worker. For onset symptoms like a sore throat from allergies, or ear aches, we use as needed in addition to daily intake. My husband has recently started using it in his nose for snoring and it has already made a difference. Won't run out of this spray if I can help it. It's my cure-all go-to.

We also use this for rashes, hives, eczema and more. It's our go-to on a daily basis with three kids. We keep a bottle in the car, the baby's room, both first-aid kits, and our medicine cabinet for a quick go-to.

Analiase Goforth, October 2022

The patient is a 19-year-old Arabian mare. On the first day, the mare woke up with a very teary eye, which was due to a clogged lacrimal nasal duct.

April 29, 2022 – First Exam: The mare presents symptoms of photophobia and edema in the ventral commissure of the cornea, with a white point (abscess). Her owner orders the application of NANO SOMA in the eye three times per day.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

May 12, 2022 – Second Exam: The edema has disappeared, and the tearing has reduced by at least 50%. I recommend continuing with the treatment.

- 91 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

June 6, 2022 – Third Exam: The edema has completely disappeared, and the white point of the abscess is almost imperceptible.

July 6, 2022 – Fourth Exam: The appearance of the cornea is normal, and I prescribe continuing the treatment for one more week. At present, the mare does not have any abnormality in the cornea.

- 92 -

March 21, 2025

Dr. Jaime Plata Alvarez, (renowned Colombian veterinarian), October 2022

NANO SOMA is everything and more, as claimed by the manufacturer. I am thoroughly convinced that NANO SOMA has changed my life in a most positive manner. Before I was introduced to this wondrous and miraculous substance, I was plagued with kidney stones, which necessitated multiple surgical procedures. The recovery period was long and arduous.

An after-effect of the procedures was a loss of memory commonly known as anesthesia amnesia. Once I introduced NANO SOMA into my daily routine, the effects were completely alleviated and I returned to normal after a few weeks.

I was also pleasantly surprised to find that my dietary intake was drastically reduced, as the days progressed and hunger pangs disappeared. Eating less and still increasing my strength and ability to function at an above-level mode was in and of itself miraculous!

I will continue to maintain the use of this great product and enjoy a wonderful feeling of wellbeing.

Feeling run down? This is my go-to immune defense in my home. With my family constantly on the go and working in healthcare, I'm exposed to many viruses. NANO SOMA keeps me going and helps me fight those colds, sinusitis, or just not feeling well. I take this stuff everywhere. We love this product.

It's a staple in our home.

Renee, September 2022

Godsend! I have been using NANO SOMA for about six months now. And I have to say that I am blown away. I use it every day on the skin of my face after shaving, and people always wonder what I do with my skin. It is honestly nothing more than NANO SOMA and honey as my facewash.

I had a mark on my thumb that wouldn't go away. I used NANO SOMA, and in two weeks it was gone!

My sister-in-law had a keloid she could never get rid of, and within a week and a half of using NANO SOMA it was gone as well. I spray it on any cut, burn, canker sore, or any skin-related issue and this has yet to fail me! Thank you, NANO SOMA, for such an amazing product!

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

Ricardo, September 2022

We love NANO SOMA for the skin. Over the years of using this product, we have seen vast improvements in our

eczema – from cracking and bleeding to just a small dry patch. It doesn’t stop there. Recently, we used NANO SOMA in the healing of a spider bite instead of the prescribed steroid cream provided by our primary care physician. I have used this for the occasional rash, hormonal breakouts, mosquito bites, you name it. This stuff works, and I’m happy to be using a clean, safe product on myself and my kids. I highly recommend NANO SOMA.

Renee, September 2022

Product worked wonders! It helped with a severe eczema condition. Definitely recommend for all conditions.

Jon, September 2022

Dear Dr. Hillermann,

Again, I send my heartfelt thanks for your support with the NANO SOMA spray.

In 2021, I was diagnosed with both prostate cancer and a brain tumor (a benign cerebellar bridge angle tumor, specifically). Right after my treatment in Heidelberg, I kindly received your NANO SOMA spray, and I am happy to inform you that my cancer has stabilized and I only need active monitoring. The tumor growth has also stopped completely.

Thank you very much and all the best!

With kind regards,

George Berger, September 2022

www.magicdichol.info.

My name is Catherine. I am 42 years old and reside in the UK. I was born in China and I am also a qualified acupuncturist and well-versed in the concept of Chinese natural medicine.

I have a daughter who is eight years old. Ever since she was born, it was our plan to have another child – hopefully, a son. Unfortunately, over the last eight years, I wasn't blessed with pregnancy. I have also suffered with herpes for many years. At least once a month I would experience outbreaks of cold sores around my mouth and lips.

Approximately eight months ago, my work colleague introduced me to NANO SOMA as he was concerned about me having had three COVID-19 vaccinations. After taking NANO SOMA for a few months (I didn't record the time span), I found my skin a lot healthier and with far fewer outbreaks.

Now, approximately two months ago, I found out that I am pregnant again. I have been blessed with a baby boy who is due to be introduced to the world in early spring.

These are the facts that I would like to share with you, as I personally feel that NANO SOMA has played a definite part. I will continue to take NANO SOMA and hope it will help others as it has helped me.

Catherine, September 2022

I've been waiting for some real, concrete, undeniable proof for myself that NANO SOMA 'works'. An emergency situation would seem to provide the most undeniable evidence.

So, here's the emergency:

Two nights ago, I was up unusually late on the computer. It was about 10 p.m., when, for some reason, I brushed my fingers over the top of my head. There was no sensation there, except for the weirdest, large, protruding, smooth bump. Without thinking, I scratched at it until it came off. An extremely harp pain ensued, which spread quickly all over the top of my scalp. And, almost equally quickly, here was a furious itching under my armpits.

Then, it dawned on me that this bump may have been one of those coastal shellback ticks – big and fat after a good feed. I had been on a long forest walk that afternoon and had even thought about ticks at one point.

The last thing to do is to pick off a tick. If you do so, they release their poison instantly.

Too late. Furious itching spread to the glands of my groin, torso, neck, and then half of my bottom lip became numb and swollen – all super quickly. I wondered if I was experiencing anaphylactic shock, and

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

if my breathing would become impaired. I grabbed the NANO SOMA bottle, which was right there on the table next to me, and gave five sprays to the top of my head and five sprays into my mouth. I also squirted a dropperful of Wild Oregano Oil onto the spot, to disinfect it, if nothing else.

Suddenly, I was experiencing so much dizziness that I had to lie down. I wanted to unlock the front door, just in case, but I couldn't get that far anymore. A bit panicked to be so isolated in this situation, remembered Sadhguru once saying that in India, when someone gets bitten by a snake cobra), the most important thing is not to let that person, or oneself, become unconscious.

I could see the potential of passing out beginning to happen, and I had no way to get to any caffeine. So, I stayed propped up on one elbow writing messages to my sister-in-law, which detailed what was happening, and another message to a friend who lived not so far away. I knew that after 10 p.m. they would likely have their phones turned off, but typing on the phone was a way for me to try to stay conscious. It was quite difficult to text (and very scrambled, as I saw in the morning).

In between my messaging, I was continuing to take NANO SOMA – about four or five more shots of five sprays into my mouth.

Feeling awake enough at some point, I laid back and just watched the incredibly wild surface madness going on. My pulse seemed normal, and, after a while, I could tell that my situation wasn't getting any worse. So, I ust laid there until I realised that if I was thinking about brushing my teeth before bed, things must have stabilised enough to stand up. Indeed, my dizziness was gone. It was 11 p.m. Good ol' NANO SOMA, methinks!!!

took me a very long time to fall asleep, as I felt super alert, and I woke up before 5 a.m. I got up very happily, blessed, and walked all the way through the wonderful early morning birdsong to the ocean.

Strangely, the next evening, I had a strong itching and somewhat 'painful' sensation on the left side of my head which lasted until I went to bed and slept it off. I had more NANO SOMA, of course! And there was nothing the next day.

So, there it is – my very own testimonial to the magic of NANO SOMA. I have no idea where such a strong action to a tick bite might have gone without it.

A big, big thank you to Raghu!!!

rda, August 2022

March 21, 2025

I am 75 years old and have been taking NANO SOMA for about a year now. For the first few months, I took NANO SOMA several times a day because, even if they are not life-threatening, there are many problems in my body – many of which have been resistant to everything I've previously tried.

I start with the official diagnoses: thrombophilia (Factor V disease – hereditary); DS (attention deficit syndrome) in adulthood; onset of dementia; Epstein-Barr virus protracted mononucleosis at 16); toxoplasmosis; excessive intraocular pressure on the left eye / cataract on the right eye; operated-on MSC (multiple chemical sensitivity); rosacea (first at 30 years old, now chronic); hypercholesterolemia; and leaky gut syndrome after decades of undetected food intolerances, especially of gluten, lactose and soya. This eventually led to two intestinal operations, which of course didn't help (or, they only helped for as long as I had to fast afterwards because of them).

After giving up gluten, I also suffered from chronic collagen colitis for two full years. Even before NANO SOMA, 95% of it had improved after longer, specific cortisone doses. It only came back sporadically for a short period of time.

Using bioresonance, a Klinghardt therapist also diagnosed me with retroviruses and neuroborrelia. These caused the craziest symptoms, which were given the most illustrious Latin names. I could live with it, but life as a whole was tedious. It felt like I was being controlled by others – especially as my body reacted to any chemical medication with sometimes severe side effects.

Through four years of very expensive Klinghardt therapy, I was able to clean up my brain quite a bit – even if only about 40-50%. For example, with a lot of mental effort, I was able to buy one or two things at the store without a cheat sheet. Before that, I would have to read just one thing off of my shopping list several times over, even if I was already in the shop. Sometimes I would have to do it again in front of the shelf to remind myself!

So what can I tell you about my experience with NANO SOMA? In general, I already felt more vital after the first few months of taking NANO SOMA several times a day. That alone is worth it.

Now, here are some details about the things that have improved so far – or still are, or have not at all – because I certainly stuck to it!

My memory has further improved. I spray NANO SOMA (in addition to the daily five-spray dose in my mouth) into both nostrils once or twice a day, as close as possible to the blood-brain barrier. Today, I can keep two, sometimes even three things in my head when shopping – though I still keep the cheat sheet with me. My ability to remember, find words, and concentrate are all noticeably better, although this can still fluctuate.

March 21, 2025

The decades-old nocturnal nerve pain in my right leg has improved by 50%.
Regarding my ADS, I have 'slowed down' a lot and can concentrate for much longer.
The intraocular pressure is at the upper limit of normal, so it is manageable for me.

I haven't had my cholesterol measured yet, as I don't need a doctor anymore. Next month, however, I have to go my obligatory motor vehicle driving test. I'm looking forward to it.

Unfortunately, my disturbed digestion is still the same. My intestines seem to be defective after many, many decades of the wrong diet. I also still have some rosacea that has not yet gone away. In addition, I still

experience great fatigue about 30 minutes after eating (hence why I eat only once a day) which is accompanied by burning, swollen feet and lower legs. Although this is a little better, it is still present.

I often tell my friends that I am the only old woman who gets healthier with advancing age. I will be eternally grateful for the discovery of NANO SOMA! Or rather, that NANO SOMA has found me! I am often giving away a bottle to friends, and several of my friends are already enthusiastic NANO SOMA consumers.

Thank you for listening.

Kind regards,

anna Willimann Fürstensteinerstr, August 2022

I wanted to share that I had three black spots on my teeth, which were the beginning of cavities. I use NANO SOMA regularly, and one day, I noticed that the black spots were just gone. There was nothing else that I could attribute this to other than NANO SOMA.

Sondra, August 2022

I am so happy with NANO SOMA. I have been using it for ten months now. After the death of my parents in January, I was under a lot of stress. I was also having a lot of heart palpitations – especially when trying to fall asleep. I was worried about them, but they disappeared after a few weeks, as did the stress in my body.

NANO SOMA still tastes bitter, so I know that the recovery is still going on. It is a beautiful journey...

March 21, 2025

Sonja, August 2022

I was working as a carer when the whole COVID-19 thing kicked off. I believed it all and went along with the social distancing and masks, etc. I was called up early and took the AstraZeneca vaccine on January 21st, 2021. Around this time, I went into an alcoholic relapse after eight years of sobriety and started to become physically unwell.

In February, I became very wheezy and breathless and felt generally very unwell. By March, I was struggling to get up the stairs and would have to stop to catch my breath. I began being taken by the ambulance to the hospital. They would take chest X-rays and run blood tests, but no one detected the clots as they weren't giving out Ddimers (I didn't know what a Ddimer was at the time). I was diagnosed with multiple infections. The ambulance trips to the hospital became very regular.

I was diagnosed with tachycardia in early April. On April 16th, I had a kidney failure which I was told was caused by a urinary tract infection that was so bad it attacked the kidney. I do not believe that this was the case.

In April 23rd, the blood clots were detected at City Hospital in Birmingham. They started injecting me in the stomach with blood thinners and told me to come back the next morning for a CT scan. The CT scan revealed blood clots in all zones of both lungs. I was put on Rivaroxaban.

I went to Exeter to stay with a friend. I had bruises all over my legs and felt unwell. On April 30th, I went to the A&E who said they detected an infection in my urine and gave me antibiotics. For about a week, I was suffering bad heartburn, which is something I never usually had. By late afternoon, my stomach started to become very hard and large. I looked six months pregnant. I felt very dizzy and found it hard to walk.

After a while, I felt sick and started throwing up massive amounts of pure coffee-grain blood into a bucket. My friend led an ambulance that took me to Royal Devon and Exeter Hospital. Not long after I arrived, I suffered a second massive hemorrhage – this time of pure, bright red, fresh blood. I was raced into the resuscitation room and worked on throughout the night to save my life. A camera test on the following day showed no alcohol damage and a one-centimeter esophageal ulcer with a clot in the base which had ruptured. I spent a week in a care ward before coming home to Birmingham.

March 21, 2025

During this time, I grew close to Daniel who had been a childhood friend. He knew all about the vaccine and what was in it. I told him about my near-death experience and my blood clots. He started researching nonstop for a cure,
And it was during that time that a man told him about NANO SOMA. We ordered it and I started taking it.

I started getting better. I eventually stopped taking Rivaroxaban without the doctor's knowledge and we went fully organic with everything. I stopped all pharmaceutical medications, including Propranolol and tazapine. We began to enjoy life and started going camping and socialising with friends.

November 2021, to the doctor's astonishment, a D-dimer test result showed negative. The doctor said it must mean that the Rivaroxaban is doing its job. I hadn't told him I'd stopped taking that months ago.

January 2022, a CT scan revealed that my lungs were clear and my D-dimer had remained negative.

I have come so far thanks to the miracle of NANO SOMA. I would have lost my life without it, and now I have another chance to be a mum to my two beautiful children.

I can't thank you enough, Dr Raghavan, for creating this life-saving miracle. We are trying to encourage our family to take it, as we know it gets rid of the vaccine and the vaccine damage. My mum has started to use it and our eldest daughter, as well. We will continue to tell people about how incredible it is. We will always be forever grateful to you.
thank you.

Holly, July 2022

After chemotherapy, this product has helped me to bring my energy level back up. I am also using it on an infected gum area and it is keeping the infection down.

Cheryl Gibbons, July 2022

On Friday I had my second knee replaced. Sunday, today, the heat and pain were unbearable. Knowing this, I preordered the NANO SOMA Topical Gel. Tonight, I applied it all over the leg. Like a Reiki Master removing the trauma, the NANO SOMA Topical Gel did it in one minute. Wow. That's it.

Charlie Zev, July 2022

Hello Richard,

I have been taking NANO SOMA for about three years now. I would not like to be without it. I keep it on my bedside table and it's the first thing I reach for in the morning. I think it's best to have it on an empty stomach.

I would like to say that I am unvaccinated and I have recently returned from seven weeks out of Australia. I have been unaffected from any flus or colds that some people were affected by on my travels. I can't say definitely if my years of taking NANO SOMA protected me, but I do believe it helped a great deal.

Thanks, Richard, for providing it to us. I am very grateful to you for that.

Blessings,

Christine Chaston, July 2022

Hello Richard and John,

I just watched the video for new users. It was a great reminder, and it has prompted me to write about my experience, which I have intended to do for ages! Life is busy!
I have been using NANO SOMA since about August 2021. Raghu talks about NANO SOMA and its spiritual connection. very first five-spray dose...WOW...! I remember it very clearly, although it isn't easy to explain. I felt as though I instantly travelled to another realm and back again. The peace and harmony I felt in that moment were undeniable and amazing! It was a quick but incredible journey of positivity and proof. I believe that I was being told that this product is powerful and absolutely meant for me! A few months later, my son also started taking NANO SOMA. He called me and described a very similar experience! More confirmation (as if I had needed any!).

When I first started taking NANO SOMA, it was not due to the Virus-Crazy Jab-World we are now living in. I had been in cancer immunotherapy for nearly five years and had not been expected to live more than three months (back in October 2017). I had a severe reaction to being told to get my affairs in order and decided that the medical profession not get to make that determination for me and that I WOULD LIVE, thank you very much! (I changed many of my lifestyle choices, but to go there would require a

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

novel, so, we won't go there!). I thought NANO SOMA would be perfect for helping my body clear the toxic waste of medication, radiation, scans, and contrasts from my body. I was declared NED (no evidence of disease) in November 2021.

Now, I am not saying that a few months of NANO SOMA created this outcome, but maybe it did? Maybe it was what tipped the balance in my striving for wellness? Regardless, I do believe that the 100% perfect blood tests and scans I have had since then are a result of this wonderful product assisting me on my healing journey! I worked really hard for my health and wellness and finding NANO SOMA was such a gift – a blessing that I felt was saying *“Hey, you don't have to do this alone anymore. Let me help you!”*. No, I am not crazy, but I do now see things quite differently to the "old me"! so want to add that when our bodies have been so out of balance for so long, instant results are not always realistic expectation. I still have sinus issues and I still feel a bit wrung out and lethargic a lot of the time, but my body, mind, and soul were hauled back and forth through a ringer for five years (much longer if you count all the years of being a smoker, eating crap food, etc.). NANO SOMA sprays still taste bitter to me most days – even after all this time – so I know my body is still clearing, and NANO SOMA is still working with me on this journey. My split, ugly fungus toenails are healed, however!

I do believe in miracles and I believe that NANO SOMA is my miracle; but I also believe that our lessons are shown in good e – not always OUR time! I absolutely believe in this product! My only real challenge with NANO SOMA is actually stopping all of the supplements (as you suggest) that I have taken as part of my healing journey. I have not had a common cold or the flu in years, nor have I had THAT virus. So, I will continue working to drop my supplements in good time.

Thank you, and I thank Raghu. I am incredibly grateful for NANO SOMA. It is truly a GIFT! Blessings, and much gratitude to you all.

UPDATE:

My son and I are about to re-order. He likes to get 24 at a time and we will share them again. He had to be jabbed for work, and despite all the vaccinated people he mixes with (pretty much everyone, except for me!) who were coming down with the virus, he has NOT! Another plus of our amazing NANO SOMA!

March 21, 2025

Do you remember when we spoke on the phone a while back? That chat was very inspiring to me and I was so grateful your time. A company with a personal touch is pretty hard to find nowadays! At that time, I was giving NANO MA to my cat and dog but stopped as I didn't want to run out of product. When we get our next order, I want give NANO SOMA to my cat Odin, as he is 21 years old and has some renal issues now. This is something I will monitor and keep you posted on. Animal testimonials are important, too.

Abbey Meier, July 2022

I took the AstraZeneca vaccine January 21st, 2021. On April 23rd, 2021, I was diagnosed with multiple acute pulmonary embolisms. I was then put onto blood thinners, which held the clots in place but could not get rid of them. Just six days after this, I was fighting for my life in the resuscitation room following a huge internal bleed that caused me to lose nearly all of the blood in my body. Knowing time was not on our side, my partner Daniel started desperately searching for a cure for the blood clots and a way to get this vaccine out of my body. He came across a number of incredible organic alternatives, one of them being NANO SOMA. I started using NANO SOMA on a regular basis and I started to get better. We trusted in nature and I came off of my blood thinners. A few months later – to the astonishment of the doctors – I had a negative D-dimer result. Finally, in November, a CT scan proved that the clots had been completely eradicated from my body. I am living a normal and happy life now, and we hope that this brief story will encourage others to trust in this product. As stated on the NANO SOMA website, this product isn't used to treat any illness. It is used to activate your body's own immune system to heal

itself. This was my journey. Have faith, everyone.

Daniel Knowles (sent on behalf of his partner), July 2022

Nearly 12 hours after taking the daily dose of five sprays of NANO SOMA, I can feel the ongoing action both physically and energetically. Physically: in the right ear and as a heightened sensory acuity generally. Energetically: as a silent awareness beyond (really, around) consciousness. The molecule itself signals its presence and beingness. When insights arrive in consciousness, the Totality of Being acknowledges this and signals congruent alignment... Really: no concepts...

Rick Mogul, July 2022

Hi Richard, I've been using NANO SOMA for a half year and it's really a God Sent miracle worker. My hay fever is almost gone now. I can also breathe easier.

arry, June 2022

A family member of mine recently attended a conference. After the conference, a number of people tested positive to COVID-19. My family member took some NANO SOMA and was only sick for 3 days. Others were very sick and were not taking NANO SOMA.

1 months ago, my friend picked up an awful flu and developed very bad headaches on the left half of her head. She could not lie on her head. I met her for a catch up on 24th March this year and gave her a couple of bottles of NANO SOMA. During our time together (a couple of hours), my friend had no

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

symptoms of COVID-19, but during the night, came down with COVID-19, which was confirmed by a COVID-19 test. She immediately started taking the NANO SOMA. She overcame COVID-19 in a matter of days. After a couple of weeks, she also noticed that the headaches that she had suffered for 9 months had completely disappeared and have not returned. She has been able to lie on the left side of her head again without any problems. Recently, she visited a health practitioner who has a scientific frequency machine that is able to identify contaminants, bacteria, and viruses, among many other things. The machine revealed no presence of COVID19 at all. It is such a delight to be able to have such a wonderful tool to help people. I have suffered from back problems all of my life including kyphosis and some scoliosis. I started taking NANO SOMA near the end of February this year. Recently I had to do around 1.5 km of furrowing up and downhill on our family property. Although this exercise was tiring as I was not used to it, I had no backache afterwards. This is a first for me. I have always had aching arms when lifting them above my head.

Now I can put away clothes (the wardrobe rod is well above my head) and I don't have any problems.

ne D., Adelaide, Australia, June 2022

I wanted to extend my gratitude for this product (NANO SOMA).

I have a testimonial from one of my best friends who has forced by his employer to get two COVID vaccines. He had an immediate reaction and was sick for several days. Recently, he fell ill again with even worse symptoms.

Thankfully, I had already sent him a bottle and after him following your protocol (5 sprays every 4 hours for 3 days), he fully recovered within a week and feels even better than he did previously.

Anon, June 2022

My 9.5-year-old Labrador had warts and an ear infection which were being treated. One day we saw that his face had swollen up almost overnight. The doctors suspected a tumor and gave up completely saying that he was too old to be operated on even if it was not cancer and was just an ear infection that had spread. They gave antibiotics but without any hope I gave him NANO SOMA three times a day, 5 sprays each, and also applied it all over his face. Within two days the swelling reduced and on the third day, the swelling was gone.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

Doctors were shocked and pleasantly surprised at the same time about this progress within such a short span. They agreed to operate on his ear and his eye which had an overgrowth.

The operation was done successfully. We gave him NANO SOMA for almost a month after that. He looked absolutely fresh and like a child at 9.5 years!!!

Anon, June 2022

In late July 2019, I noticed this big kind of wart thing growing on the back of my hand. The various things people do to stem the growth of warts weren't working. It grew rapidly and my hair began to come out in gobs! A friend of mine noticed the fibers in the growth on the back of my hand. She thought it looked like Morgellons, so she looked it up on the internet and it looked exactly like what was shown there. I never had it diagnosed by a doctor. Some of them refuse to acknowledge the existence of Morgellons so technically I suppose I can't say that's what it was but it sure looked like it and behaved like it. Another friend of mine was so worried about me that she tried to take me to her doctor and told him about my hand absence. In the inflammation issues but those are decades old and since I'm planning to keep taking

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

In the summer of 2020 that thing took up about half of the back of my hand and about half of my hair was still falling out. By then I was starting to be tired and dragged out all the time too. may have been one of the first people in the US to order NANO SOMA. I ordered it in January of 2021 as on as I heard it was available. I used the starter protocol and took it twice a day for a long time after that. First, the thing on my hand stopped growing. Then chunks of it started to come off. My hand would bleed when that happened but it stayed gone. My hair stopped falling out so much. Then it stopped falling out altogether. Then it started to grow back in thick and full. My energy level improved and something else very interesting happened. I started to feel more like myself somehow.

It's hard to describe that but at times I could remember how I felt when I was young. It seemed to come back to me like a long-lost friend. It's subtle but definite.

I haven't been sick for even 1 day since I started taking NANO SOMA. I still have skin issues and NANO SOMA, they'll probably go away when it gets to that place. I'm 68 and it's nice to know that my age will slowly roll backward. I have no trouble believing this can happen as I've already experienced some miraculous things.

Lorie, June 2022

Richard, a client of mine sent these to me and I thought you would like to see this. Pretty amazing!

In this case, she used the NANO SOMA spray, as she didn't yet have the NANO SOMA Topical Gel. When I saw her a couple of days later, any evidence of the bite was completely gone.

The effect of NANO SOMA on a tick bite after only 2 hours. The top photo is before applying the NANO SOMA and the bottom is after.

All the best,

Terri, June 2020

My daughter was so sick! Aches and stabbing pains all over her body!!! After 10 sprays of NANO SOMA over two days, they were gone!

I've been taking five sprays for three days. I always had a sharp pain in my left leg since my daughter was born for 19 years. It is gone!!!

My husband just came down with something – cold, aches (maybe from my daughter). He took NANO SOMA tonight!! Thank God!!

Rose F., May 2022

Dr. Presser,

I am a faithful user of NANO SOMA and am very pleased with what it has done for the improvement in my ability to think and use my brain so easily, short term memory has also been affected - my thoughts and ideas being recalled with very little effort. I am spreading the word of NANO SOMA's effectiveness and have everal family members and friends also enjoying the benefits.

Sincerely, Kendall R. May 2022

We have been using NANO SOMA for six months now and have had incredible results. My father no longer has arthritis and I feel 20 years younger! Thank you for your consideration and for all that you have done to help humanity.

Jeremy Y, May 2022

I have been very ill from stress and have developed low metabolism. One of the many unpleasant symptoms has been brain fog – an uncomfortable feeling of sitting in a cheese bell and not being able to concentrate enough to put two thoughts together. Within a maximum of two minutes after I took NANO SOMA for the first time, the brain fog disappeared and has not been there since. I get medication for metabolism and an unpleasant side effect is severe pain in muscles and joints. After one or two days with NANO SOMA, the pain was largely gone. I do not know what I would have done without it.

ena, April 2022.

I am a 17-year-old girl who often goes into town and drinks alcohol, and, like so many others, I've struggled the hangovers the next day. At one point, I heard that NANO SOMA was supposed to work on hangovers, so I chose to test it. And NANO SOMA has helped me not to have a hangover and headache the next day! All I do was take five sprays of NANO SOMA before going to bed after a city trip.

Anne Mette, April 2022

March 21, 2025

I have for several years been plagued by rashes and blisters when consuming gluten. I can now for the first time in many years eat some gluten without getting a red rash on my fingers. I have only used the NANO SOMA ray for approximately one month and a half.

ge Meineche, April 2022

My dog has on several occasions struggled with what is called a 'hot spot' – an inflammatory condition in her in that can cause large wounds and severe itching. I was visiting my sister and brother-in-law when he asked if he could try spraying NANO SOMA on the wound. Granted, I thought: Yeah, yeah, I guess', but after a few days, the wound was gone. So, thanks for that; it got rid of the unpleasant walk to the vet for my dog, and there was no penicillin cure or expensive bill. Definitely not the last time we will use it.

annie M. B. Bak, April 2022

I tried NANO SOMA for the first time last Saturday, when my mom had a bottle in her bag and recommended that I try it for my bad headaches. I have been suffering from nasty chronic headaches for exactly 10 years today.

In 2011, I was involved in an accident that, among other things, gave me a head trauma with bad late effects. Today, I suffer from four different forms of headache. I have tried all kinds of alternative treatments and all of the treatment plans from the headache clinic without success.

After trying so many different things to get rid of the headaches, I tried NANO SOMA with a lack of faith and hope that it could help me, as nothing else had been able to. BUT! Today I can tell you that I have been free of headaches for almost four days!

I have never had a break from my headaches, which has led to sleep problems (among other things), but the last few days I have been allowed to feel tired with the possibility of actually sleeping – and sleeping through.

After the first sprays of NANO SOMA, it took about an hour before I started to feel how the pain subsided. Since then, I have taken NANO SOMA every morning. Yesterday, I had to take NANO SOMA

For more information on the MagicDichol Family of Products, go to:

March 21, 2025

again in the evening as I could feel the migraine creeping in, but it was never allowed to break through!
I do not understand it, but how happy and grateful I am to have been introduced to NANO SOMA!

Iveke, April 2022

John,

I started NANO SOMA on 21st February. Fluid has gone from the top of my legs. I have had years of bowel problems - I have had to take (brand name) Laxatives quite often for the past couple of years. Now I don't need them.

Herpes on my lips is coming out. Skin cancers are surfacing on my face - some are going, and more are coming out. I have had aching bones as I feel the healing. I have much more energy most days. I can lift heavier weights with my arms.

Kind Regards,
Anne, April 2022

I received my first order on Thursday, July 1, and started using it right away. I was expecting maybe a bitter taste in my mouth as you had said others experienced but the taste I am detecting is that of spoiled milk! How odd. I don't see any immediate difference but, then again, it's only 1 week today since I started using it. July 2021.

As you can see from my previous email, I started taking NANO SOMA on July 1, 2021.

It has been a little over 9 months since I first began and within the past few days, I've noticed the taste has changed dramatically!! I'm thrilled!!! There is barely any taste at all!! I have no idea what kind of healing has been going on in my body, but I take this dramatic change as a wonderful sign of healing!!! Also, my husband as having some skin issues on his face. I suggested he use the skin cream that I was using (NANO SOMA Skin Cream). He was a little hesitant at first, but he was really impressed with the correction in his skin that happened so quickly!

Thank you for continuing to educate us in the ways of the MagicDichol!!

Judy, April 2022

March 21, 2025

I have been spraying NANO SOMA on my face and today I noticed a difference after about 3 weeks (YAY!). I am so grateful as I am feeling so much better. I've been taking NANO SOMA for 2 ½ months now; my headaches have stopped, my hormones balanced and lots of womb healing has happened. My rheumatoid arthritis is healing and the pain is only in my spine now with scoliosis, but I can feel it working through my body. I had herpes on my right foot in little blisters for 13 years. Nothing that I tried in the past worked, and this is now early completely healed. I also applied it directly onto my foot. I am so excited and so grateful. I can't wait for months! I eat better, have fewer cravings, feel better, feel in a great mood most days and have a spring in my step! My mind is clear and business is improving as it's just easier with a great attitude.

My cat got food poisoning last week. She nearly died but I gave her NANO SOMA every 4 hours, and she has healed in 4 days and is so peaceful now; better than before.
What a relief!

It is such a blessing for all of us and gives me great hope for mankind going forward. Thank you so much, Dr. Raghavan, I bless you and your team with so much love and happiness.

Cheryse, April 2022

I started the NANO SOMA Skin Cream about one week ago. As you can see from my photos, my face turned a bright red and was slightly swollen. I became alarmed by my reaction, so I emailed Richard to ask him what was happening. I emailed him at 6:30 AM on a Sunday and he emailed me back by :30 AM. In addition, he had Dr. Raghu call me to assure me that the redness was a normal cleansing response, initially, due to bacteria on the surface of my face. He assured me if I stuck with the cream that the redness would go away within a few days to a week and that I would be happy with the results.

After about 3-4 days of redness and then flaking and peeling, my skin became smooth and looked beautiful. I cannot praise the Customer Service at MagicDichol enough!! In addition, I also have been taking the NANO SOMA spray for almost a year and I have never been healthier. I am excited about the results of the NANO SOMA Skin Cream.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I just would like to add that if I had not panicked and contacted Richard right away, I would have found

the reaction information in the HEALING CRISIS section of the [NANO SOMA USAGE PROTOCOL](#). This proves what a professional, comprehensive company MagicDichol turns out to be.

Nancy, April 2022

Blessings, dear Dr. Richard,

I have a senior friend who has everything: diabetes, fibromyalgia, COPD+++. Since I massage her back most every 2 days with essential oils and cannabinoid creams, I noticed a red spot developing under a cyst that she'd had for 20+ years. I kept watching this red spot get bigger and bigger, and then saw

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

at there was pus there. With hot compresses, sprays of NANO SOMA (she has been taking it internally the past 5 months), and gentle pressure, the boil has matured. The cyst she's had for all these years easing these past few days. That cyst is now flattening and can be pressed into it to facilitate the pulsion. I sprayed on the boil, also. She is feeling so much better. The pus still keeps coming out. Is it possible this site is acting as a vent for perhaps somewhere else in the body? Can you think of anything that should be done to facilitate its completion?

Also, a younger friend who has colitis has been taking it for 2 months. She has lost 29 lbs and sleeps better. Wish it would do that for me!! Haha. I hope to get some gel to put on eczema. Sean sent me 2 replacement bottles for the empty ones. Wonderful man. Thank you for all you do.

sia, April 2022

-Cathrin, a customer in Scandinavia; Translated from Danish;

I have had pain all over my body for many years. Osteoporosis, vertebral compressions, and osteoarthritis are probably the main causes. It became almost unbearable because it took over my life completely. After taking NANO SOMA for about a month, the pain was gone!!! I thought it'd probably come back... Today I have been taking NANO SOMA for 5 months and it has not come back. It feels like a great miracle...

I can imagine that the root causes of the pain remain, but I think it will heal slowly but surely. I continue to take NANO SOMA 1 time/day and will never stop. I am so grateful for this miracle cure. -

Cathrin, April 2022.

Great spray!

I have tried NANO SOMA for bad breath and rashes on my legs. I thought it worked well. However, it did not taste so good at first... 😊

Anonymous, March 23 2022

My sister had a tragic accident on Diwali day (5 Nov 2021). She lives in Carson City, Nevada.

Her back caught fire from a lamp that was lit for Diwali. 40% of her body got third-degree burns. She was airlifted to the UC Davis Hospital burn center where she went through 5 skin graft surgeries during

For more information on the MagicDichol Family of Products, go to:

March 21, 2025

the 2 months that she was a patient. When she was discharged, there were open wounds on her buttocks and thighs which made it difficult for her to cope. The doctor said they would take at least 6 months to close.

We could not use NANO SOMA in the hospital, because her whole body was bandaged and they had strict protocols not to use anything unlisted. When she got home, she started spraying NANO SOMA on the open wounds every 3 hours on her thighs and buttocks, and to our amazement, the wounds closed within 3 weeks. Quite a difference from the doctor's estimate of 6 months!

We are so grateful as a family as it's so difficult to cope with such trauma but being able to heal it with this miracle solution is a blessing. Thanks to Dr. Raghavan for having spent his years of research in discovering it.

In our family, not having NANO SOMA is not an option anymore.

Sushma Ribeiro, Distributor of NANO SOMA, India, March 2022

Richard, I received the NANO SOMA Skin Cream and just wanted to let you know that I think it is divine. Personally, I love the vanilla smell and the cream is sort of like a caviar cream. Well done! Obviously, I haven't used it long enough to say what it does for my skin, but I have high hopes, and I thought you might like to hear that I LOVE the smell! I also love vanilla! LOL.

And by the way, the product was delivered efficiently and in a very short timeframe so huge thanks - great logistics!

Brooke, March 2022.

March 21, 2025

Dear Sean and Richard!

I LOVE, LOVE, LOVE THIS PRODUCT!!!!

I love the smell, I love the viscosity, I love the instant effects - both the smoothing of my skin and instant relief from a couple of skin ailments (stye in my eye from using old mascara – my bad)! I love it – I want to purchase more!

Anyway, I just LOVE this NANO SOMA Skin Cream!! I wish I could take a bath in it, LOL!!
Love, Blessings, and Laughter,

Stacey, March 2022

Hi! Quick update—my daughter hasn't had a seizure for 4 months. Between NANO SOMA and a Keto diet, a few supplements, and her seizure meds, she is feeling more confident and working on building her healthy bakery business to expand to farmer's markets once she updates her website to her liking!

My update: My nerves around my knee replacements (TKR + reconstructive surgery to reattach my quad and patellar tendons continue to heal after 6 months of NANO SOMA and 4 years after surgery. Each month, I can feel more of my knee and am grateful. One more thing, I haven't had any migraines as I used to do so I think it's healing something there. ✨

C.M. USA. March 2022

Photo – vaccination adverse reaction improving from NANO SOMA.

March 2022

Dear Dr. Presser,

I was so excited when I received my jar of skin cream yesterday. I love everything about it - the jar, the way it dispenses the cream, the silky smoothness of how the cream goes on my skin and absorbs almost instantaneously, and the wonderfully light fragrance of the cream.

Blessings!!

dy V., March 2022

Is NANO SOMA safe for teens concerning their libidos? Grandpa and I (Grandma VaVa) found our libidos going wild about the 3rd week into NANO SOMA usage.

March 21, 2025

Great for us! But I'm afraid to give it to our grandkids because of that. Can you alleviate my fears of giving it to our teen and young adult grandchildren? This is not a joke! - although go ahead and laugh - at least smile about our Sven and VaVa's 'health'! Thank you!! We love you and NANO SOMA!

Grandpa Sven and Grandma VaVa, March 2022.

>>My reply to "Grandma Vava" was it just restores our hormonal balance. It doesn't create extremes if the balance is already as it needs to be.

I don't normally do email because I have advanced Rheumatoid Arthritis... I couldn't place an order for my NANO SOMA as I couldn't get into my account... It was continuing to say "wrong password..."; however, thank God Dr. Roland phoned me and sorted the problem in 2mins... My order is on its way HANK GOODNESS!! I didn't realise how much it was helping me until I didn't have any! This NANO SOMA is a Godsend to me...

Thank you for helping so many people with this product. I will always be eternally grateful for your work...

Thanks again. June, March 2022

Dr. Raghavan,

The transformation of my cat 'Joey' has shaken my world. Joey is 15 years old and has been declining in health for the last few years... Ten days ago, Joey appeared to have what might be considered a stroke or was in a coma. He was in an upstairs bedroom in a frozen state, lying on his stomach with his head between his paws. He was immobile for two hours. I moved him to a couch in the middle of the night where I gave him spine massages until the morning.

I gave him two sprays of NANO SOMA and nothing changed. At noon, I gave two more sprays, and by 3:00, he started to move and walk. He then began eating and drinking small amounts and continually improved throughout the day. In the next few days, he transformed into a normal older cat – walking quickly, alert, hungry, and roaming the neighborhood for the first time in a year.

Jerry

March 21, 2025

Hello Doctor Raghavan,

I want to thank you for giving me the chance to heal my father who suffered many years from severe senile dementia. So much so that the doctors had written that the situation was stationary 2 years earlier, which is not possible for degenerative disease.

Before starting 5 NANO SOMA sprays 3 times a day, my father could not get out of bed, dress, or even eat one. After only a year of the spray, we did a Nuclear Magnetic Resonance (NMR) spectroscopy and the brain areas that were in necrosis were largely regenerated. He also had several cataracts in his eyes that did not allow him to see even the television if it was over a meter away. After another year with NANO SOMA, my father can read the instructions on medicines, is totally self-sufficient and every two weeks he comes to my house for lunch. Anyone who witnessed the change has never been a recovery like that. My father is fine today and continues to be self-sufficient. Thank you again for inventing this product that has allowed me and all our family to avoid great suffering and expense.

Dr. Giovanni, Italy

I started taking NANO SOMA a few months ago. I was suffering from symptoms of fibromyalgia, caused by what I believe was a long (18 months) case of Epstein-Barr and cytomegalovirus that I got at

- 120 -

www.magicdichol.info.

March 21, 2025

university. Having just turned 60, I am focusing on my health and well-being and working to feel energetic, fit, and healthy.

Over the past year, I was really struggling with fibromyalgia, problems falling asleep, staying asleep, deep body pain (muscle and joints) daily headaches, awaking in the morning with a deep burning sensation in my eyes, heavy and sleepy, and would lie in bed for a few hours wishing to get more sleep but generally unable to. I'd finally get out of bed late morning, have a strong coffee, and have a few good hours of productivity, a gym in-home spin bike session or walk, before getting a bad headache or a deep feeling exhaustion and then would go to bed late afternoon for a nap, which I would doze for maybe 30 or 40 minutes if at all, but would just lay quietly and hope my headache or migraine or fatigue would clear.

I am now on my 5th bottle of NANO SOMA. I now fall asleep within an hour of bedtime, and although I wake up every few hours, I generally get back to sleep within an hour. I awake early, between 6 and 8 AM instead of 10 AM -12 PM like I used to. I no longer awake with that deep burning in my eyes, even if I just manage 5-or 6 hours sleep...and my body doesn't need hours to get moving and get out of bed each morning. I sit up, have a coffee in bed (thank you dear husband), read the latest on my phone, and then within an hour, I'm up and about. I generally mostly have enough strength and energy for a productive day, and only get back in bed in the afternoon if a migraine or bad headache sets in (not as often as before NANO SOMA). I go to the gym and rowing machine for 45 minutes, spin bike for 10-20, and some machine weights or ride my gym spin bike I have in my "home office" for 30-45 minutes, 4 or 5 days per week. I think the exercise helps with my overall feelgood factor now too.

I had a very bad flu in December with all the typical symptoms. I was so ill; I was just lying in a dark room suffering for a week. I did not think to take NANO SOMA during this time, as I just didn't want anything. But by day 8 it occurred to me it might help. My symptoms were still as bad after a full week, including the fibromyalgia getting intense as well as the giant swollen glands, bad sore throat, difficulty breathing (like fluid in my lungs) bad headache, etc. just all ongoing. I took 5 sprays 3 times across day 8, awoke day 9 breathing much more easily and decided to do 5 sprays every 3 or 4 hours that day. I still wasn't eating and just drank water, apple juice, or tea. And slept and slept some more. I awoke on day 10 so very much better it was amazing. Incrementally it was like a 3- or 4-day improvement.

Another fascinating story I'd like to share is about the first miraculous thing I witnessed with NANO SOMA. My husband got his COVID vaccination, his second one. I began noticing his face broke out in a rash, with very red angry looking bumps in patches in a few different places across his face. I suspected it was a result of the spike protein reaction to the serum, etc. I asked him if I could try the NANO SOMA on his face. (Note: He was not taking it internally very often yet. I gave him a bottle but most days he'd "forget" it was there.) So, I sprayed about 5 half pumps on those rashy-looking areas. And guess what!

- 121 -

March 21, 2025

(Are you sitting down because you're going to be blown away...I was!!!) after that ONE application - the next morning his face was COMPLETELY cleared up! Not a sign of anything but lovely skin. It was truly miraculous to me.

A couple of months later, this came back on his face, but not as bad. I did not have any NANO SOMA in the house and was awaiting my order. When it arrived, he'd had the rash for maybe a week, or 5 days, can't remember.... but it wasn't going away. It looked identical to the one he had a few months earlier, which went away within 12 hours of 5 sprays directly on the face and air-dried, not taken internally. But it showed me that if we'd not intervened with NANO SOMA treatment last time, it probably would have lingered and gotten worse, rather than cleared up.

So again, I repeated what I did with the previous rash, but this time it was morning when I sprayed it on, so I did a second application in the evening. And yet again...COMPLETELY GONE the next morning. We now still both use it as instructed by NANO SOMA on the bottle. And if I'm feeling a bit poorly will take it every few hours. But what I also do now, is use the spray externally on any skin issues. Here are my other positive results I can report using the spray externally. I had what looked like a fungal growth spot on my shin, looking like ringworm but in a spot, not a ring. I used a small amount of spray on it, and it was greatly reduced in 4 days.

I have an issue on the bottoms of my feet with not just hard skin on my heels, but I get these very painful splits in the skin that look like I've been sliced open with the tip of a small knife. They are deep and very painful to walk on until I put on layers of brand-name blister patches. I finally have come to realise that these appear after I use a specific product on my skin after a shower. I looked up the ingredients and believe it is my body responding to one of these toxic chemicals. (I stopped using this product...and I stopped getting these fissures in the heels of my feet...and one day I used a small amount and then reminded myself that I stopped using it due to the suspected reaction and sure enough the next day I got a painful split in the skin...This has gone in the trash by now...

But my point is that not only does spraying the NANO SOMA on this painful skin injury close up. fissures and heal them in days but the rough and tough skin on my heels is also gone, replaced with baby soft skin, until I stop using the precious spray externally as I need it internally. But it does work miraculously quickly.

I also had a big toenail that split in half down the middle and finally, half the nail was pulled off while I was in bed...so it was just raw nail bed exposed...the NANO SOMA spray helped noticeably to turn this diseased nailbed that caused the initial split, to heal, and now I have a beautiful healthy big toenail. had

an irritating start of what looked like a mole and sprayed it till it flattened out and got lighter and faded and was no longer uncomfortable.

So, my friends, those are the testimonials I can share at this point. I'm sure there have been a few more random things that this miraculous little bottle of magic healed on this old body of mine, both inside and out....

I just wanted to share. Also, I want to give a MASSIVE, HEARTFELT hug of appreciation and gratitude to Richard and Roland. They both have personally corresponded with me and answered my queries.

You and NANO SOMA are a GODSEND for humanity. Thank you both and of course, Dr. Raghu. The planet and humanity are so very blessed for your determination and hard work and persistence to get your product out, production issues sorted in not just USA, but Europe, Australia, and now the UK

Love and Light.

Energies of Healing Humanity ONE body at a time.

Energies of Peace on Earth. Energies of Love and Divine Light for Nova Gaia...EARTH 2.O.

ENERGIES of pure heartfelt gratitude and soul felt appreciation for your work helping beautiful humans. I hope understand the Joy people feel as each one suffers less and less in the physical body thanks to your effort,

your work, your pure good energies, and pure positive intent to manifest healing at an affordable price and accessibility to as many people as you can.

So, from my heart to yours: Love and Light and endless gratitude.

Pamela L.

Here I am on my 60th birthday.

March 21, 2025

It's a long story. I've been riddled with an inflammatory issue in both my inner shins area for well over 6-7 years. Saw every specialist known to man, which always resulted in "you have to have surgery so we can scrape the fascia back". This issue was the reason why I gave up football because I physically could not run anymore without pain. I've always played high-level football and have had 3 shoulder reconstructions and a left knee reconstruction so there was no way I was going through another surgery process for my shins.

I knew deep down there was a way to fix this naturally. Might sound odd but the way I see it I got myself into his situation there must be a way to get myself out of it. Oh yeah, over 2 years ago I had a massive spiritual awakening and from then I started my journey. Unlearning everything I've been taught. Then about a year in I came across your video.

I believe I also had fibromyalgia for years. Constant pain due to a lot of things. Football injuries. But the main one was toxic relationships that I held on to internally.

One thing that has fixed that for me is the daily Wim Hoff breathing technique. But also NANO SOMA I believe has contributed to this healing as well.

I'm so appreciative of the videos you put out. So, thank you very much.

Also, my mother has very bad rheumatoid arthritis which has completely turned around. No swelling on her fingers, no pain when lifting things.

The one thing I'm very interested to see is she had stagnant leukemia, I don't understand it fully but apparently, it isn't active. It comes on with stress. But she has a checkup in a few months and will be tested so will see if the NANO SOMA has helped with that issue.

Jake K, February 2022

Richard!

I have had Relapsing-Remitting Multiple Sclerosis (MS) since late 2000 and have been managing it to varying degrees of success with diet and lifestyle, meditation, supplements and generally elevating

March 21, 2025

consciousness and healing which I believe helps with chronic illnesses. Except for the first 0 years after diagnosis, I have never taken traditional medications such immunosuppressants.

The last few years I have really been feeling the impact of MS, affecting my walking, it making it cumbersome d awkward, due to many factors - spasticity and balance largely...or so I thought. It was actually the damaged nerves in my left leg that I had forgotten about...but NANO SOMA obviously identified as needing the st healing and went to work! I had tried some things - olite helped a little - naturally, any heavy metal detox helps with MS but nothing till NANO SOMA has had remotely the same impact. I realized that as the product team points out - it goes to work on what is most injured and acute first. With the function in that left leg mostly restored (it's only been since late October 21!) the spasticity and balance are not nearly as problematic and it's probably healing that as well.

It has had such an impact I can actually jog and even sprint comfortably and my next goal is to be up and skiing next winter! I could not be more grateful or recommend this more wholeheartedly to anyone!

Joanne, January 2022

We received this message from one of our customers:

My name is Jørgen, I am 84 years old and therefore retired. I have been using NANO SOMA since September 2021.

I was inspired by some of the testimonials I read and sprayed directly on my right shoulder. My pain in my shoulder disappeared so now I use it every day. I started with 5 sprays of NANO SOMA in the morning, 5 sprays in my mouth, and a round of spray on my right shoulder, which is a painful area. I find that the 5 mouth sprays stimulate my morning mood and that my shoulder sprays alleviate the pain considerably over 3 - 6 hours, so they must be supplemented during the day.

Jørgen, January 2022

Dear Richard,

Caroline, who is 16 years old, is very happy. After only 3 days (from 13 January to 17 January), she has already been much improvement in her eczema. She will keep us updated. Below are some photos.

Kind regards,

Ianke, January 2022

Richard,

I just listened to Lorraine - Love her info - it ties in with galactic info now coming in regarding the human species. Elena Danaan says the “seeders” are back to see how the kids are doing at this most important int in our human evolution! The inner strength Lorraine speaks of is what I felt first and still feel and was ACTLY what I needed.

In February 2021, I felt as if my Life Energy or Vital Force was draining away and that I was slowly dying, and that 19 November would be the day my body died. July was also a significant date to me last year.

Part of me was going along with this slow death but I didn’t want to leave my two sons and I really want to see what happens to us Humans here on Planet Earth or Terra, but until NANO SOMA, I had no way to stop this draining of my Life Force. From the first five sprays under my tongue MI was back being Me but more so. I now felt free and still feel an inner strength and solidity to my BEING that I had not experienced before. My words cannot adequately describe either. Lorraine’s description of NANO SOMA on our DNA repairing does explain my inner physical strength though.

I will try NANO SOMA into my nose to benefit my pineal gland as Lorraine says.

Grateful Thanks to Dr. Raghu and to you Richard

Sincerely,

Barbara, January 2022

Two weeks ago, we were called for some urgent guidance for a sudden deteriorating situation of severe blood poisoning. After suggesting the immediate use of NANO SOMA, we received the following message today: Remember the phone call about my neighbor going into septic shock? I offered him NANO SOMA parallel to his prescribed antibiotics. The first day he was a little afraid of taking it...but then he really went into shock, and so he started using it in the morning, only 4 sprays under the tongue. Before taking it, his blood pressure was so low that the drip would no longer work, and they had to squeeze the bottle. His liver and kidney expanded, and water formed on his lung. The doctors couldn't find any reason and pared his wife that he would probably die. He started with the spray and the next morning his heartbeat had most returned to normal.

- 126 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

The swelling on the liver and kidney was retracting and the water on his legs started to disappear. The next day his heartbeat was back to normal again and the doctors were flashed and told him that he was an enigma "...they had given up on him. Another day later he was discharged from the hospital and is doing well in every at home! What an unbelievable recovery story! Since he is out of the hospital, he is now happily spraying it 3 times a day. Thank you for supplying me with your advice and wishing you a super weekend!"

Regards,

ker Windhoek, Namibia – December 2021

I would like to talk about my experiences with the corona vaccine, and its side effects. Currently, I am studying "social-og Sundhedsassistent", which is in the healthcare field. Because of that, I chose to get vaccinated to protect the elderly citizens I assist. I've always been healthy and rarely been sick. On February 23rd in 2021 I got my first shot of the vaccine made by AstraZeneca. Shortly after, I experienced major dizziness and became sick with fever, shortness of breath, muscle pains, pain in the lungs, chills, and general pain – at this time I was sick for about a week and a half. Afterward, my second and third shots where I became sick again, though not quite as bad.

I got my third shot on November 21st, 2021. In the period between my shots, my natural immune system was weakened. As of this writing, I have been sick about 4 times over the last 3 months and have begun taking NANO SOMA, because of my weakened immune system. NANO SOMA began working steady the first day after. Now, a week after, I feel healthy and don't feel any sickness. More updates are to come after I have taken NANO SOMA for some time.

ah, December 2021

I have noticed uge difference in taking 5 sprays of NANO SOMA for just over two months. I no longer suffer from bad mood ngs in association with perimenopause. To feel normal again and balanced within myself is the best feeling.

Warm regards and thank you!

nia Chumbley, December 2021

Personal results from treating my own Covid 19 with NANO SOMA:

- 127 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I am 65, 5'11", and 305 lbs. Being unvaccinated and recently diagnosed with diabetes, tested positive for COVID-19. My doc placed me in a high-risk category of course. However, he was completely surprised on a follow-up visit 4 weeks later. on testing positive for COVID, I began oral AND nasal self-treatment with NANO SOMA, giving myself a dose of 5 sprays, 6-10 times per day by mouth, and several sprays per day intranasally.

I had persistent and frequent cough throughout the day and night began to subside in about three days. My instant sharp headache did persist, however, with no relief from OTC headache treatments such as ibuprofen and my sinuses remained clogged for several more days. A feeling of deep exhaustion also persisted for several days, but I could feel a definite positive change occurring. My sense of smell and taste was still lacking.

Definite improvements on all fronts became noticeable by week three of this regimen, with my unusually sharp headache at last gone, and my energy returning to normal levels. The sense of smell/taste did take a few weeks to return. The striking event however was that my personal physician was quite surprised that his patient overed quickly and without incident given the dangerous risk factors present. It is now time for me to lose a substantial amount of weight, and I will continue to use NANO SOMA on a regular basis to continue my effort to improve my overall health. NANO SOMA has passed a hugely important use test: my own.

March 21, 2025

Recovered from COVID injection adverse reaction in 30 minutes.

Thursday 12/2/2021, I received a Moderna booster at about noon. By dinner time, I was chilling, I was hot, having a bad headache, and ready to vomit. I lay down at about 7:55 PM. Just like what I have been doing for about a year, I took 5 sprays of NANO SOMA in the mouth, 1 spray in each eye, nose, & ear. I thought I was down for the night. I didn't quite fall asleep so that I felt the process of feeling lousy, more comfortable, back to kind of normal, then suddenly feeling good, ready to get up. And I did. I looked at the clock, it was 8:22 PM. about 30 minutes, I experienced totally opposite feelings of health. I'm even more convinced out NANO SOMA's simple yet profound ability to bring the body back to its optimal health.

en D., December 2021

I buy it for my dear friend in South Africa who runs a charity dear to my heart. She has little money, so I bought NANO SOMA for her as she had sleep apnoea (apnea) for over 10 years. After a few days, she started sleeping again. I got this last week:

Sandy, only God would know how grateful I am for meeting you many years ago. I'm thanking Him every day. I'm sleeping again, after 11 years, due to the best gift ever I received.

Sandy G, December 2021

Treated my mum successfully with NANO SOMA after she came home from the hospital. (COVID/pneumonia.)

Her recovery has been phenomenal, we did 5 sprays 4 times a day for 1 week, then 5 sprays 3 times a day for three days, then to maintenance. It also cleared out the experimental COVID drugs she was injected with without her consent.

Artificial antibodies!! I watched her life force return, healing, recovery right in front of my eyes in the ten days I was with her supporting her. She has been through the mill!

Need to fill my cup up now... Susan F. who has been a fantastic friend, healer, and warrior of the light to me this past 6 months, also helped me with distant energy work. Together with NANO SOMA, my mum has had a speedy recovery and was on the mend in no time at all!

www.magicdichol.info.

Catherine, December 2021

You suggested that I ramp up the NANO SOMA from one dose/day to the schedule of 4x/day and so on for whole purification program. Prior to that, I'd used it 1x/day, the only thing I ever noticed besides it feeling very friendly was that an issue on my skin which had been on my back for several years cleared up completely shortly after I began using it.

The first week of the 4x/day I didn't notice much other than a slight headache one day. The following week I stopped using it after a few days because I managed to irritate a nerve in a tooth in my mouth, which happens every few years randomly. When it gets irritated the pain can be extreme, and this time was actually worse than usual. None of my usual go-to remedies made much difference, other than sipping cool water which only calmed it down for a few minutes. I was reluctant to use NANO SOMA at that point because everything except water had caused greater pain. After nine hours I finally relented and swished some NANO SOMA in my mouth, fearfully. Within about 30 seconds I noticed the pain softening and educing and within maybe 10 minutes was barely there. I continued to use NANO SOMA whenever the pain started to increase again, but from the start, the periods between flareups kept lengthening and the pain was gradually less. Within about 1 1/2 days it was 95% gone, and I had actually been able to sleep during the night. After three days it was gone entirely. Typically, in the past, (and this has repeated itself about every four years since 2004), the sensitivity might take as much as two weeks to recede, so this was genuinely miraculous by comparison

I doubt that the flareup had anything to do with using more NANO SOMA the previous week because I'm sure the vulnerability came from some acidic grapefruit that I ate too much of. I've never found it to be irritating in the slightest. Nerve pain is horrible, so just knowing that I now have a real answer to it should this happen again has lifted my spirits. Feeling at risk for pain even if it rarely happens is still like a shadow over your life.

I am very grateful to you both, thank you!

With love,

H.F. – December 2021.

March 21, 2025

Hi Dr. Raghavan,

This is Seyed Mohamed. Today on December 15th I am writing this Testimonial to you. I was affected by COVID-19 on January 14, 2021. I was not able to breathe. My oxygen level went to 80. I was in the hospital for 6 days. They sent me home with an electric oxygen machine. I was using the oxygen machine all the time. I did not use any steroid medicine.

After a lot of searching on the internet, I happened to see NANO SOMA. I bought NANO SOMA in April. I sprayed it 5 times in my mouth 4 times a day. I had a CAT scan in May after 5 weeks of NANO SOMA use. My lung doctor told me I am getting better on my own and there was no need for the oxygen machine in May.

I started NANO SOMA as a Nasal Spray in October. I had a CAT scan and breathing test on December 10. On December 14, my lung doctor told me (after looking at the scan and breathing test) that I DO NOT need ANY medicine.

My lung function is back to normal as it was before the COVID-19 attack. My oxygen level is 98-99 now. This is a GODSEND REMEDY - NO SIDE EFFECTS.

Our thanks to Dr. Raghavan. God Bless him.

Seyed, December 2021

Using it in my clinic each day and the results are incredible.
Prostate issues of 20 plus years – resolved.
Hormonal imbalances.
COVID-19 vaccine cleared. So much more!!
Works well on nearly all viruses and bacteria. It could put me out of business (just kidding).

Jen H. Holistic Health Practitioner – December 2021

Dear Doctor Raghavan,
I want to thank you for the BLESSING ✨ of NANO SOMA firstly.

March 21, 2025

Dr., some time ago on the Telegram group you requested further information about brain and mental activity, I started a draft mail to you but am only getting to it now. Dr., I am a 57-year-old South African female. I have gone through an inordinate amount of trauma since 2007 until now trying to survive financially, it was part of my journey, and I am finally on to a path of recovery. I was not happy with having had to come back to South Africa after living abroad for some time, but I realize now I was brought back to heal on spiritual, energetic, and physical levels. I am filled with appreciation now for being able to see the bigger picture.

I realised I was in a depression as about two weeks after taking 5 sprays once a day (I was told the wrong starting protocol) I realised I was far happier and of elevated spirit.

as hoping for my diabetes to be dealt with but still feel this will come. The first thing that I noticed was no more eye floaters (week one). I started 5 months ago. You have asked about the brain and mental news, however, I digress. I feel that I was actually in a depressed state and am now out of it! I feel sensitive and find myself uplifting others, WHAT A GIFT YOU HAVE GIEVEN ME, I Thank you.

Thanks and Kind Regards,
ren

Dear Dr. Raghavan,

rtng in early August 2021: I have had energy issues due to Fibromyalgia for the past 30+ years and sustained energy has been a struggle. I became an Ayurveda Practitioner looking for healing personally for myself back in 2008. And have been maintaining quite well for the past 25+ years with Yoga Meditation, Nutritional diet, and herbal protocols.

NANO SOMA came to my hands very mystically, I must add as it found me, I was very humbled by its proative process and wanted to try it out. It has been 3 months since I have been on the NANO SOMA protocol the energy levels are improved drastically which I noticed in the first month. The first day I took early morning my meditation was deep, and I had a euphoric feeling of prana flow during my pranayama class. Did not pay too much attention as I wanted to make sure it is not my imagination and wanted to see something good happen. So, I have waited to write this testimonial.

My chronic problems would take time I knew, and so waited. But the energy change is very consistent, and my bowels are performing much better. My absorption in the Gastrointestinal tract has improved.

I have used it on insect bites; mountain mosquito-like black flies which are nasty, and it could take numerous episodes of rash and Itching on the site of bites. I tried NANO SOMA Spray on one of them and

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

the redness was gone in 3 hours and itching went away within 24 hours and never returned. The scar healed in 2 days totally.

My walking on inclines has improved as we live in the Andes mountains and I have been advocating getting NANO SOMA to people who are struggling with various health issues and word is really getting around and to be art of this process is very humbling and gratifying to find such a simply solution to deep-seated conditions regardless of age, conditions and duration.

I'm witnessing its positive effects at a deeper level of psyche and recommend freely to all who are willing to be open-minded and ready for healing at the cellular DNA level.

I have now ordered the NANO SOMA Topical Gel for my shoulder tear which happened due to a nasty fall I took on early February of this year. I have just started using NANO SOMA Topical Gel on the area of the tear will follow up on healing in the next testimonial as I just started a week ago. Week two: I am applying the NANO SOMA Topical Gel twice a day and feel good. I am very thankful and grateful to Dr. Raghavan for discovering this nothing short of a miracle - a "Cure All Remedy" in the simplest bioavailable forms.

Grateful to Dr. Richard Presser for taking NANO SOMA to worldwide exposure and I will do all I can to promote it in my practice. I have 20 people on it already.... In Canada, USA, and India so far. I wish the whole staff of NANO SOMA USA especially Sean McDonald who has been kind and patient processing all my requests in the order to process them diligently getting to people who await its healing.

With the deepest Gratitude!

Renu C., Registered Ayurveda Practitioner RNP, Toronto, Canada

haullabamba, Azuay – Ecuador, South America.

Richard,

I'm writing with this little story of the results of my knee replacement. From October 20th, 5 days before the surgery, I sprayed 5 times almost every 4 hours until the bottle was exhausted. The surgery went well. After the surgery, I sprayed NANO SOMA two or three times a day, five sprays under the tongue as the protocol goes. In one week, after the bandages were removed, I sprayed NANO SOMA three or four times a day on the wound. sprayed it also around my muscle tissue in the swollen areas. PT (physical therapy) was advancing well. Two weeks after home care I went to the PT facility. The owner of the facility did not know me, but I told the therapist about NANO SOMA. He was amazed. The following

- 133 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Monday, he brought the owner over, (who did not know me personally) to look at the wound and they asked him how old he thought it was. He said it was a five to six-month-old wound healing and when we told him it was only 3 weeks old, he thought my results were fantastic. After 4 weeks, I saw the surgeon and he looked at the wound and saw the progress - he didn't know what to say. I did not say to him what I did at that time - 30 days after the surgery which would take it to November 0th which is right around now. I'm able to get a 121° bend at my knee, the stitches have all healed, there's a ne where the swelling is going down, and during the PT I'm walking without a cane or any aids whatsoever. Last Wednesday, when I saw the surgeon, he could not understand how I was healing so fast. I told him about NANO SOMA. He immediately went online, found it with me, and he started looking at it. I said do your homework and get back to me. I guess this may be a big plus for pre-surgery and surgeries of all kinds of cases. He's very much interested, and he could not believe that I have advanced so far in such a short time. Today, November 30th, at PT, they told me that I was advanced with a 6-month stage of recovery. I can go up and down the stairs, I can do all these things. I get fatigued. It's still healing but they must understand the power of NANO SOMA.

I'm speaking to people in New Hampshire, where I reside. People are awakening rapidly, and they see through this crap. ease pass this to Raghu and share.

Yours truly,
Charlie.

Richard,

Part of the "trouble" with NANO SOMA is that I just don't have much that seems to need fixing, so the most dramatic issue — my thirty-year bout with Candida, which, thank God, cleared up in a week — has left me with little to note, other than my hair quit falling out and the several lipomas I've had for 20+ years have all but finished. My friends and clients have been getting some stunning results, too — tinnitus vanishing, fungal sections of the feet secondary to Type II diabetes clearing up, eczema vanishing, joint pain relief, angry, defiant behavior in a child reduced significantly, taste and smell from long-haul Covid returning after a year post-Covid, c.

Tim S. November 2021

I'm a 43-year-old male based in Mumbai, India. I was diagnosed with Brain TB (tuberculosis) and also HIV-AIDS in February 2021. I was on TB medication, and suddenly in March 2021 I suffered a paralysis attack and was admitted to KEM, a government hospital in Mumbai. My situation was very bad. My right side was very weak with no movement. Even after days I still had no movement. The doctors told us

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

recovery would be very difficult due. One of our relatives, after seeing my condition, discussed this with their family physician. That doctor so said it would be very difficult to recover but he suggested my relatives try a product called NANO SOMA. My relatives immediately contacted Mr. Murali, a supplier of NANO SOMA, and purchased 3 bottles.

Remember that same day around 8:30 pm they had given me NANO SOMA twice over a gap of 3 hours and after that, I slept. The next day around 11:30 am, I started walking with the support of my son. The doctors were surprised and after 5 days I was discharged from the hospital. I continued NANO SOMA and I as improving, which I could see in my body.

September 2021, I went for a blood test. It was unbelievable. My TB and HIV all came negative. My weight, which had been 42kg had increased to 54 kg. All of my disease has now gone. I have no words to describe NANO SOMA and its Inventor, who brought NANO SOMA to this Earth for the wellbeing of humanity. Many thanks for saving my life. Because of NANO SOMA, I am alive.

ukund, Mumbai, November 21st, 2021

Dear Dr. Presser,

Thank you, thank you, thank you for this incredible information!! You have just cleared my mind of horrible thoughts creating fear in me this past week. I was in close contact, in a very small room (my laundry room) for approximately 20 minutes with an electrician who I found out later as double “vaccinated” last week.

This past week I developed a rash on my left breast around the areola. Photos I found eliminated issues that use similar rashes, like breastfeeding and other maladies, so when I found articles on IBC (inflammatory Breast Cancer) I became VERY concerned. Breast Cancer, specifically “in the left breast” runs in my family... So, then my right breast started getting the me rash around the areola and both breasts started to become tender. Fearing the worst, of course, I immediately made an appointment with my doctor, but the waiting list is so long, the earliest I can see her is the next week!

The good news is, now that NANO SOMA has been in my life since May this year, I naturally started applying NANO SOMA Topical Gel and I started taking more NANO SOMA orally, and of course, true to its function, I have felt some relief.

Even though I was experiencing some healing externally on my breasts, I continued to try to determine what his rash could be from, other than IBC because NANO SOMA was helping my body heal so quickly...

- 135 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I thought how could this be IBC? Also, based on my research, most women only have IBC in ONE breast, not both, so I tried to determine what other causes this reaction could be from.

I changed laundry detergents recently to ARM & Hammer for "Sensitive Skin" thinking perhaps it was a healthier detergent. After checking reviews on this product (after the purchasing, which is senseless to do after the fact) I learned other people had skin reactions, so I looked for full disclosure on the ingredients and found that some are toxic! Although I have had high susceptibility to skin contagions since childhood, I have never had a reaction from a laundry detergent before, so I was still a bit puzzled but got rid of it just in case.

NOW that I received your email, I realize, the skin rash I am experiencing is most likely from being in close contact with my double-jabbed electrician!!! I thought if I did not have "skin" contact and remained a few feet apart that the shedding wouldn't affect me – BUT I WAS WRONG! I had NO IDEA about the skin rashes from shedding... I am so relieved but at the same time alarmed the shedding can do this! I bet a doctor would have sent me to get a biopsy or a mammogram and put my body through unnecessary trauma. Mind over matter- I can almost see a difference in my rash simply from the relief of knowing about the shedding use... since I started writing this to you today.

I hope you share this experience I had so other women who may experience rashes around their areola, who have been in contact with the jabbed, understand that it may not be something as devastating as the thought of having cancer.... I had NO IDEA. Thank you, thank you, thank you from the bottom of my heart, Dr. Presser, for all you do.

Kindest Regards,
Stacey G, USA. 30 October 2021

Sean,

I'd like to share something with you but I don't know how you would classify it. About two months after I started taking NANO SOMA, I started getting an image in my head of an x-ray of my pelvic bones. They were standing straighter than I have been my entire life. So, I pushed in my pelvic bones and thrust them out the way I "saw" them in the x-ray, and lo and behold, my stomach flattened out, my chest thrust out and my shoulders went down. So, I started standing like that whenever I thought about it.

My lower back has been hurting me for YEARS. And changing my posture like that caused my lower back to hurt even re ... for about three weeks. But I just knew it was something I needed to do. I have been getting weekly adjustments my lower back for years also and they never held.

- 136 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

After about three weeks, the pain went away, and again lo and behold my hips started no longer needing to be adjusted because they were no longer "out" when I went to the chiropractor.

I became accustomed to standing with my pelvis held straight and my posture straight, I am walking around pain-free now and it's a trip.

I think the NANO SOMA somehow sent a message to my brain about my posture. I don't know how, but I just think that's what happened. Is there a place in the "Testimonials" book for stories such as this?

November 2021

In late August 2021, I had my first vaccine (Pfizer) at a Newtown location in Sydney. That same day I felt fine. The following day, I struggled to get out of bed, with a headache and suffering aches and pains and severe chills and was not able to get warm, leaving me in this condition for two days. On the third day, I felt some recovery. I've not suffered from any other conditions and/or felt this way ever before. On hearing about NANO SOMA and its ability to trigger a healthy response in the body, I was interested to try this product and look for a way to assist in reducing the effects of the Pfizer, jab s I was aware from discussions with others that with the second jab, I could suffer similar symptoms, if not worse. I was guided on the use of NANO SOMA and on receiving it, I had a morning and evening dose, starting two weeks out from the second Pfizer jab. Knowing I had another jab coming caused some anxiety. I fronted for my second dose and went back to work expecting I would not be up and around on day two. Day two came and I was so surprised I was able to get up, shower, and get to the office with no symptoms or side effects from the second vaccine. I was so elated that I was not bed-bound.

I am continuing to take NANO SOMA, I have also lost a little weight, too. I'd recommend this product to anyone and my experience in using this has shown me that this product could heal and cancel out the terrible side effects of the vaccine and I'm most appreciative of being introduced to it.

Many thanks

Best regards,

Matthew, November 2021

Late September 2021 on a Sunday, my mom was tired in the evening and went to bed earlier than normal.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

Monday morning, she woke up and after my dad left for an appointment, she went back to bed. Something she never did and was found to be odd by my dad.

Later my dad came back and my mom was awake, he noticed that her speech was slurred. He is a trained first responder and did a field test to see if she suffered from a brain infarction. The answer was negative. He called their general practitioner and explained the situation, after which the GP asked them to come immediately to him. The GP did the me tests and called the hospital straight after to inform them about my mom while my dad was driving towards the hospital.

- 138 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

At the hospital, the same field test was done for brain infarction which was, thankfully, again negative. My mom subsequently got admitted and tested for everything they can test. CT scan, MRI, blood, you name it and it was done. She was hooked up with antibiotics IV as the only thing noticeable was that the part of her brain that controls speech was inflamed. Next to that, a nurse that drew blood for the samples said that her blood was “thick”. The blood thickness comment did not lead to testing for D-Dimer, unfortunately (checks for early signs of blood clots).

After a couple of days of antibiotics, her speech returned to normal. After multiple more CT scans, MRI’s and other tests, she was allowed to go home 7 days after being admitted. I put her on NANO SOMA 4-5 days after she was home. She used it 5 sprays, 4 times a day on average until she finished one bottle which was 8-9 days. After that, she continued with one time per day 5 sprays. This second bottle will last her approximately 6 weeks. After 4 weeks from being released from the hospital, she had a follow-up appointment where again CT, MRI, and blood were tested. The comment from the nurse that drew blood was that her blood was so “nicely flowing”. In the conversation with the doctor, the question was asked if all of this could be vaccine related. At the time of admitting, between the second jab and being admitted 4 months and 1 week had passed. The doctor answered that he wasn’t saying yes or no. He found the entire situation odd. When asked about the blood thickness, he said that in retrospect he had looked at other indicators and nothing was worrying or out of the ordinary. At the same time, he also mentioned that given the part of the brain that was affected having smaller veins it could not be led out that “thicker” blood caused a lack of enough oxygen which caused the inflammation. Both my parents are vaccinated. My dad has a permanent prescription of “blood thinners”. To me, it sounds like that this prescription is benefitting him. He started also with NANO SOMA and found that it tasted terrible, which led to him taking it irregularly. My mom found the taste close to neutral.

Fast forward to now; all is back to normal. No follow-up appointments since the last one. My personal interpretation is that the vaccine is the only difference in her life. I also cannot say with absolute certainty that was the vaccine that caused this inflammation. With more and more news appearing around vaccine side effects, I however do think that the vaccine was the cause of this inflammation. I can also not say with absolute certainty that NANO SOMA helped speed up the healing process. With all the information shared about NANO SOMA, including all the anecdotal stories, I am however of the opinion that NANO SOMA made the difference. The main part on why I think it did make the difference are the two nurses that made the comments about “thicker” and “nicely flowing” blood.

November 2021

www.magicdichol.info.

March 21, 2025

I have been using NANO SOMA since December 2019 and I have just been told my biological age is ten years below my actual age, i.e., 66 and not 76, so that is good news, eh?

Hope you are both scoring equally well!

Warm regards,

Susan Fairley, November 2021.

Dear Dr. Hillermann,

I have now been to my cardiologist for a follow-up with my cardiac arrhythmia. He certified that everything is absolutely fine. The cardiac arrhythmias that I had at that time disappeared completely after about 10 days of treatment with the NANO SOMA that you prescribed for me. So, I am currently very happy. I spoke to the cardiologist about his experience in his practice with the vaccinations [Sic]. He said that he had seen several patients where 14 days after the BioNTech vaccination, something like this occurred.

With gratitude,

Hans K, November 2021

Dear Richard,

Thank you! I'm so grateful to be spreading the word about NANO SOMA. I have a testimonial for you, too. NANO SOMA has been such a terrific, totally life-changing discovery for me. The most immediate and noticeable benefit I've had has been around a side-effect I would get any time I was around people who'd received the mRNA vaccines. Before finding NANO SOMA, I would have unexpected spotting or bleeds like I was getting my period either the same day or the day after, like clockwork. I am in menopause, so I knew there was a direct link as it only happened after I'd been out at the shops, or if I'd been in close proximity to friends that I knew had had the vaccine. As soon as I started using NANO SOMA these worrying episodes went away.

Then when I ran out of it for about a month, it started happening again. After going to get a massage with someone new I had one of the worst bleeds ever the next day, and large blood clots had formed. I was horrified and realised the masseuse must have just been freshly vaccinated to keep her job. Thankfully, my next delivery of NANO SOMA arrived a couple of days after that, and I've been back on it

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

for a month, and I have had no further episodes. I will never go without it, now. I've also noticed an improvement in my skin and look forward to seeing what else improves over time.

Thank you to Raghu, Dr. Presser, and the whole team!!

Best,

Liz, November 2021

Aloha Dr. Presser, many blessings.

Through a mutual friend, I have been on NANO SOMA for almost 4 months. Wonderful product. I can only say how wonderful that some of my issues have shifted since July. The first 4 days I did nothing but sleep. My friends have noticed the changes i.e., walking better, having more flexibility (not out of the woods, yet) and the neuropathy in my feet and legs is lessening; more to go. Since I am a sensitive, after the 4 days of sleeping, I divided my doses to am and pm; just now I am increasing doses. It doesn't taste as horrid as in the beginning. Joy replaces sadness, stamina returning, and making healthier choices regarding food, environment, and friends. There are no words to express the joy that I felt when information came to me when researching water. The floodgates opened.

sia M, 73 years young, November 2021

Richard,

TWO separate occasions (this morning included) I woke up with a horrific sore throat - body aches - and ALL signs of a very bad head cold or virus. (No fever) The kind of BAD virus or cold that gets progressively worse & I put you in bed for a few days to a week.

I (intuitively) sterilized an empty Saline Nasal Spray bottle - poured just enough NANO SOMA into it to spray it deliver it as far up into my sinus cavity as I could get. I then took a small glass eye/ear dropper and only put about 2 or 3 drops in it (for each ear) and dropped it directly into my ear canal. Years ago, I remember a healer telling me at the very 1st sign of a viral cold or flu, etc., to put a few drops of Hydrogen Peroxide down in the ear canal as this is actually where the virus enters, sits, and grows to get into the nasal cavity.

So, I dropped about 2 or 3 drops of NANO SOMA into each ear - turning my head to allow the drops to get as far down the ear canal as possible. Then spraying into my mouth to swallow down my throat of course & get into my body.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

What would have put me in bed for a few days to "ride it out" is over & done from a few hours to a day - then wake up like it's never happened. My only wish was that the NANO SOMA came in bigger bottles (more ounces) but am grateful for the access to what I have.

On my limited budget, I can't order multiple bottles at a time - but I make sure in my budget to keep a full bottle coming each month to always have NANO SOMA on my end table next to me.

With Immense Gratitude,
Susan T, 29 October 2021

Here is an updated English version of my experience with NANO SOMA.

I started taking it 7 weeks ago. I had a very severe stress breakdown about six years ago which left me with a lot of physical struggles. On top of that, I developed hypothyroidism which comes with a long list of horrible symptoms. I have gained 40 kilos, I struggle with fluid accumulation, I can't exercise (when I try I feel sick for days after). I have zero energy and can't work, and worst of all, I have struggled with this brain fog that leaves me unable to put two thoughts together.

After taking the first dose of NANO SOMA, the brain fog disappeared within minutes and hasn't been back since. I'm still very tired but I'm starting to experience days with a more normal amount of energy.

The last two years it felt like I was gaining weight every week no matter what I did, but since started taking NANO SOMA, my family has asked more than once if I have lost weight)*+,-, and even though I still struggle with fluids, I feel and look a little less bloated. And that is just what I've experienced the first 7 weeks. I can't wait to see what happens in the next few months

Thank you! 🌸 0123/ Helena

MY 1ST NANO SOMA TESTIMONIAL

40 years ago, I was diagnosed with Glaucoma and was prescribed eye drops. During that time, my eye pressures varied in the 10-16 range. During the last 2 years, the pressures were 16, but in the last 6 months had increased to 18 on the left, and 20 on right. I started taking NANO SOMA 9 weeks ago, 5

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

sprays for 2 and occasionally 3 times daily. One week ago, the Ophthalmologist measured my pressures and the results were 10 in each eye!! YIPPEE...SKIPPEE!! I am confident this is the first of many

testimonials!

Thank you, Dr. Raghavan and Richard.

Leah. 6 October 2021

Hello Richard,

I continue to see improvements with NANO SOMA; as of this month, my biological age has gone down by 5 years since I started taking it in July. My chronological age is 59 and my biological age was 58 when I checked before starting NANO SOMA. This is very exciting, and I'll continue to share updates with you.

Thank you.

Joyce K-P.2 October 2021

Dear Dr Presser, I've been on NANO SOMA for about 6 months now. I was wondering if my body stopped "aging" per se. So, I start taking it at 35 so I should look 35 for a long time now? Thank you so, so much :-)

I do notice that my hair line is growing back, and my left shoulder pain is getting a lot better :-)

Thank you so, so much.
Sincerely, Jessica M, 3 October 2021

Hi, Dr. Raghavan, I thank you for the invention of the NANO SOMA Topical Gel. I applied it to my right and left shoulder. I applied it to my hands. From 2013, I was not able to raise my two hands above my head. After applying for two weeks in the above-mentioned areas, I could lift both my arms above my head.

My pain is so much reduced. My doctor told me to have surgery for my disc C3C4. I am not going to have any surgery. I am moving my neck much better. I am going to use the NANO SOMA Topical Gel continuously for some me, then I will take a scan and inform you.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Thank you for the NANO SOMA Topical Gel invention.

May God Bless You, SM October 2021.

Dr. Presser,

Firstly, I want to say what an honour it is to be part of the NANO SOMA journey. I have never met a product in all years I have been taking supplements (30yrs) that offers so much promise. I have been taking NANO SOMA for the past 5 months. I am a cancer survivor and have had so much stress in my life... I cannot even gin to tell you. But the first thing I noticed is that my mind became much clearer and less fog in my brain. I also noticed psoriasis completely cleared from both my elbows, my hair is not falling out the way it used to and I have energy that lasts all day.

I became hypoglycaemic at 22 after my military vaccinations. After 6 weeks of NANO SOMA at 56, all gone. If I now skip a meal, I feel hungry, but no giddiness, no palpitations, no craving for sweets or cold sweats. Thank you, NANO SOMA!

Roland, October 2021

Wonderful product. It keeps me from taking so many products and makes me feel amazing.

Tasha B. USA. October 2021

I was diagnosed with Asthma about a year ago, with a CT-Scan showing spots on my lungs. I started NANO SOMA in May and had a follow-up CT scan in July. MY LUNGS ARE CLEAR! NO MORE SPOTS!!!!!!

Michelle, USA. October 2021

I have a sister with Bipolar, and she was in the bathtub slashing herself up and crying and screaming. She also does the same taking off on walks and screaming and carrying on. I have had to get the cops so much involved. I never knew if I would see my sister again. I decided to spray the NANO SOMA under her tongue to see what would happen. I sprayed three sprays under the tongue, and to my surprise, she calmed down.

March 21, 2025

A bruised leg injury resolved by the application of NANO SOMA Topical Gel.

Dr. PR Raghavan. m: CM (Female -60).

Welcome to my testimonial! In June 2021, I heard about NANO SOMA. I did my research, watched videos, studied the ingredients, and decided it was natural and I was going to try it. I had zero expectations going in, although, knew other people using the product had experienced benefits and they were unique to the person. Being a year-old white female, and with the need to get in healthier shape, I decided to buy a bottle. I have nothing to lose and everything to gain I thought.

I have created a timeline of my NANO SOMA experience over the first month so you can see how it helped me.

I used 5 sprays a day. The first two weeks, I took 3 sprays in the midmorning, 2 sprays at night. After that, it was 5 sprays a day at no pre-set time. As a side note, I admit, I used PH9 after for the first two to three weeks since it's what I use after working outside in the extreme Arizona heat.

I've included my Log of Notes so that you may experience my progress as I went through them. After a month's post evaluation, NANO SOMA exceeded my expectations.

Day one

After an hour, my blood pressure lowered on its own. I felt the tingle in my head. I had a histamine reaction as if something is working to heal my sinuses.

I had a mosquito bite mark on my arm that was a little swollen and painful to touch. They normally take 10-21 ys to heal. It express-healed overnight. The site is a little pink, flat, with no pain and it'll be gone in a day or two.

Day two

My ankles have been more swollen for weeks but today they are normal. I'll see how today goes. My blood pressure feels like it's on target.

- 146 -

March 21, 2025

Slept great last night. I haven't slept that well in weeks. Thank you, NANO SOMA! energy improved midday on Day 2.

Had the mindset to cook a meal that I haven't done in weeks due to an allergy attack and insect bite. Noticed my eye tear ducts were secreting as if I have bad allergies. I assumed it's cleaning out toxins.

I am getting stronger—for example, I'm able to increase my capacity of carrying weight in my arms and improve endurance when going up my steps in my home.

After two knee replacements, a tendon repair, and a tendon reattachment a couple of years ago, this is a huge improvement to my life. My last tendon repair has been a little sensitive. It feels like nerves repairing after 2 years.

March 21, 2025

Day four

I came inside from gardening in 95F Arizona heat. I wasn't winded or even a little shaky. I didn't need to sit to recover. It was amazing.

I'm noticing a change around my Total Knee Replacements (TKRs). It feels tighter and the muscles are more stable when going up steps, although I didn't think after two years that could happen— self-repair. I'm amazed. My surgery scars are starting to diminish as the epidermis is repaired. That's unbelievable. I took mages yesterday when I noticed it starting so I can track any changes. The scar was, for a lack of a better word, peeling off in some areas. NANO SOMA is allowing my body to heal my epidermis layer. Wow.

My face is more moisturized.

My energy is increasing and I'm in the mood to clean.

Less brain fog - nice.

Weight Loss: Down 0.5 to 1lb a day. For the first 24 hrs, I was down 1.5lbs.

I trimmed all the trees and bushes in my back yard for 45 minutes in 110F temps and after finishing, entering inside the house, within 2-3 minutes and a little sip of water, I'm back to normal.

Day 5

I woke up for the second day at 6:30 am. I normally get up hours later and am sluggish. My energy is 2 times the amount I had when I started 5 days ago.

My brain feels alert early in the day.

I worked outside and installed trellises for my vine veggies in my garden. It's hot here in AZ, at 105F at noon. I didn't have any issues and don't feel overheated. I recovered inside in 2 minutes and not two hours. believable.

I am in the mood to clean anything and everything in the past 24 hours. This is amazing. I'm drinking 3 times the water with all the outdoor heat.

BMI on my scale has gone down 1.8 points and my water percent is going up. s shows progress. Talk about inspiring.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

not craving sugars or carbs as much in the past 24 hours. I manage my glucose by diet. e had the best night's sleep in decades.

This one is a bonus factor. I have always been able to sense when I'm close to radiation, larger security systems, radar waves from various environmental situations on my arms. Think of it as the feeling of those electromagnetic science spheres when your hair stood on end. What is amazing is, now my shins are feeling the energy when I'm close to a 5G tower, etc. I guess my body is healing and my circulation is better. Nice.

Day 6

Bone Density Increase: My scale showed my bone density went up 0.1 from 6.5 to 6.6, and I tried it a second time because for 5 years since I've had this scale it's never changed from 6.5.

Weight Decreased: I lost 5.3lbs in the first 6 days. Toxins...

Nail Health: My fingernails are growing faster - 3 weeks' growth is now in a week.

Day 7

nerve Repair of Knees: It's 2 years after my right knee replacement that had tendon repairs and tendon attachment, and my nerves are repairing around my right knee. I could feel its repair in the past 24hrs — that pping pain twitch at certain times. I have always had a numbing feeling around a certain area of my knee. In the past week, it's repaired most of the nerve damage, and note that I had not seen an improvement in over a year. I couldn't lean up to anything with my knees touching it without feeling this tingling pain. As of now, that pain is nearly eliminated. This impacted my everyday life in so many ways. I was informed after the KR's, by my surgeon, I'd never get that feeling back again around my knees. Well, he needs to know about NANO SOMA! This could help so many people and improve their quality of life within weeks after their surgery!

Also, my cravings for sugar & salty foods are gone. I'm eating more organic fruit such as peaches cherries.

Muscle repair: Getting stronger.

Day 8

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

was told years ago that I'd have a chronic sinus infection unless I had surgery. It seems as of yesterday, after 7 days on NANO SOMA, my chronic sinus infection I've had for a decade has vanished. It's amazing.

My neck skin is younger. My body working with NANO SOMA is becoming a powerful partnership.

I notice my stress has decreased. It's likely due to a combination of less pain and more energy.

Sleep: My sleep has improved. I'm waking between 6:30-7:30 am. Before NANO SOMA, my sleep was so confused...up awake until 2 am-4 am, then attempting naps to recover. Hope this continues.

My iPhone typing right hand has lessened to almost no pain. I'm grateful for the repair.

My teeth are whiter. Nice bonus.

Day 9

I am continuing to improve in the heat. 105F feels like 95F now that my body is cooling better. I can do my outside tasks and come inside and continue with other tasks. That's a 2-hour efficiency benefit.

My leg muscles and nerves are continuing to improve. You don't know how nice it is to walk without a bunch of numbing tingling feeling bands around the knees. It's a 50% more improvement in one week.

My eyes stopped eliminating toxins after 3 days. It was like a bad allergy attack, then after spraying NANO OMA in the one eye, I recovered the next morning.

I have had pain under my left front rib in one spot for decades. I had every test done by several medical professionals and they could never figure out what it was. I met one other person who had it in the same spot and her medical team couldn't figure it out. Well, NANO SOMA helped figure it out. It's been a few days and I realized as I was typing this, I have no pain in that area. It's a miracle.

My energy continues to increase, and my sleep is the best it's been in 5 years.

Thought for the Day: I wish this product grew on a plant in my garden so I could grow it and share it with those need.

Day 10

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I noticed inflammation throughout my body has decreased significantly including (this may seem odd) my tongue. I think my distance vision improved after 3 days of the toxins being released.

My sinusitis—for certain, gone.

Day 11

My eyes are changing to a multi-jeweled color. They're brighter. They were a blue gray. Now they're a blue-teal-gold in the evening. I'm going to watch this to see if there are more changes.

My right ear is doing some repair. I think with the sinus repair, it's finishing things around the ear now.

Day 12

I have lost my appetite for red meat products.

Had a chickenpox scar that disappeared. I've had it on my face since I was 6 weeks old when I had chickenpox.

My TKR scars are 1/2 the width in most places now and flat. It removed a tiny piece of thread left behind. Thank u.

I'm coughing sporadically. Nothing exciting. Not an illness. (No vaccine.) It's probably clearing a few toxins in known places. Do it. You have my permission.

I didn't think I had a lung problem and after two weeks of NANO SOMA, I felt my lungs were lighter and it was easier to breathe. I'm completely off any allergy meds. This is amazing! I've been on them since I was 11 years old.

Great for night-time dreams, I'm remembering more of them now. I can start the types of dreams I want for a given night too. It may be the mental clarity that helps in this process.

Day 15

I don't need caffeine but I'm craving anything with lemon/citrus.

I haven't eaten red meat in several days since I'm no longer craving it. NANO SOMA must be a great

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

nutritional traffic cop to effectively use what is in your body.

- Nerves around the TKRs are over 90% repaired.

Day 16

- My muscle strength in my legs around my knees is so good, I no longer must watch my feet going up the steps so I don't fall. I honestly wasn't aware I was looking down until I stopped looking down, and then I panicked one day and realized that my body had recovered, and my brain knew that I no longer had to use the 'backup plan' of looking down to ensure I would get on the stair steps properly. I was tearful on this one once I realized what had occurred, and how my life changed at that moment.

Day 26

I got up off a low pouf the other day without hanging onto the chair. That was a first since the knee surgery. I am blessed.

From a sitting position, I can put my elbows on my knees without experiencing a shooting pain to my knees.

Day 28

- Eye 'floaters' are dissolving. Now, they are tiny dots. They shrunk 95%. I'm amazed and grateful.

My 61st birthday is Oct 17th, and I am feeling good this year with more to go in the coming months. I've been working on minor home improvements with more energy. I trimmed my huge 12-14ft Bougainvillea's yesterday that are intertwined into my Acacia/Senna tree. I use the super heavy loppers to get to the top. My daughter and I moved outdoor furniture around, I cleaned the outdoor area rug and hosed it down. I swept averse, watered all the plants, and came in and wasn't shaky or exhausted at all except I was a bit hot—normal in 90s heat in AZ. I couldn't say or do all that 2 months ago.

March 21, 2025

This observation is entertaining. I noticed when I'm sleeping, I awaken because my knees touch (my mind thinks, what's touching my knee? Oh, my OTHER knee. 😊 ha-ha – back to sleep...) Funny, yet real-life improvement observations in motion.

Overall, I'm getting pieces of my life back that I had no idea I was missing or lacking. The past 3 years were full of challenges with three major knee surgeries and learning how to walk again. I'm turning the corner...I see it. I feel it. I'm grateful for it.

Thank you for being a part of this transformation.

CM, USA, September 18, 2021

To: Dr. PR Raghavan. From: MS. CM, regarding my daughter.

Daughter: 33-year-old white female. Diet: Keto.

Epilepsy – Identified at 26 years old at Mayo Clinic. The type of condition is Periventricular Heterotopia.

It is a condition in which the nerve cells (neurons) do not migrate properly during the early development of the foetal brain. It is inherited from the male gene. Started NANO SOMA...

First week improvements:

- ✦ Sinus cleansing – in her cheeks and her eyes were watering and her head felt light which could have been blood pressure.
- ✦ Decided to get back on the Keto diet at the end of this week when she had more energy.

Second week:

- ✦ Short-term memory – short-term memory improvement – able to recall the prior day's activities quicker.

- 153 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

- ✦ No seizures before her monthly cycle. No seizures during the week.

Third week:

Calmer with loud sounds and interruptions - she normally would jump because, for every one of our thought processes, she has 50 times the reaction per the neurologist. In the sound scenario, it would be 50 times greater than how we experience sounds. The nerves seem to be healing and decreasing the repetitive traffic before it connects properly within her brain. That means less traffic back and forth, less chance of a neuro issue creating the seizure condition.

This was a tough mental week for her as I believe there was a great deal of healing. She was very tired and slept more than usual.

- ✦ One seizure, but I believe it was due to her taking ½ the normal dose of medicines that day.

Fourth week:

- ✦ Positive attitude and outlook.
 - ✦ Sleeping back to normal.
 - ✦ No seizure.
- ✦ More helpful around the house with more energy.

Fifth week:

- ✦ Memory recall improvements were noted.

- 154 -

www.magicdichol.info.

March 21, 2025

My daughter made it through a month without a seizure. A major, major accomplishment. She's on her keto-style diet, her seizure meds, plus NANO SOMA, 5 sprays a day. She started the gel on her face a week ago and she came to me all happy this morning— “Look, Mom, no lines on my forehead!” I replied with a positive compliment and then said, “Now, imagine what it’s doing to the inside of your body.” She’s starting to turn the corner into believing what it can do for her. 🙌 She’s had an ongoing issue with her hair falling out in handfuls after it’s washed. It’s a side effect of the meds.

As for me, I’ve had a right eye infection (itchy and below eye skin burns and is red and swollen from wiping eye so often), then a left eye infection, and back to the right eye, and with two days of sprays once a day in the eyes, NANO SOMA cured it each time.

Then, I had a little upper respiratory allergy cough for a couple of days and doubled up my dose of NANO SOMA for 3 days to 8-10 sprays. My body healed quickly. My sinuses have been cured of chronic sinusitis— no relapse. m saving so much money on the allergy meds—more than the cost of NANO SOMA!

CM, USA, September 18, 2021

NANO SOMA has given me more energy and more motivation to accomplish anything I need to do. Work doesn’t seem like drudgery anymore! I’m so thankful to God for this product.

Alice R. RN. USA. 8 October 2021

Years of very strict diet regulation have eased up with the addition of this product to my regimen. God has directed me in many directions to teach me many things about wellness. I’m grateful that He has given me a der range of foods to eat now. Not just meat anymore, but fruits and some kinds of goat dairy. God is certainly working through this product.

Name Withheld, USA. 8 October 2021

I have been using NANO SOMA for about 3 months now. Lately, as crazy as it may sound, I have been noticing re instruments in the music I listen to. I hear little background chimes that I never noticed before. My hearing has always been good, but it just seems better. Also, my sinuses have never been better.

Bonnie B. USA. Sept 28, 2021

www.magicdichol.info.

March 21, 2025

I started NANO SOMA on July 26, 2021, using the protocol provided, though because of my many health problems, I continued using 5 sprays 4 times a day until week 7 when I was running out. I took it only 2 times

a day until my new order arrived on September 19.

I had gone to the eye doctor on August 16 because I was having problems with my glasses (headaches and poor vision), and I figured I needed a stronger prescription as I had for most of my life. The eye doctor was upset at the first appointment and asked if there was a change in my diabetes medication. There was.

On July 27, the MD had reduced my dosage by stopping 5 mg of Glipizide that I took daily in addition to my 00 mg of Metformin, probably because I had lost weight and my A1C was now 6.6.

The eye doctor suggested that I schedule an appointment when my blood sugar stabilized. Although it wasn't really "unstable" because it is always under good control, I did so. At the second appointment on September 24, she was still a bit upset. She said it was rare for a person to go from a 6 to a 4.

I see in comparing the two prescriptions that it wasn't quite so stark, but it was a definite improvement in both eyes. I had no exam in 2020 because of the Covid shutdowns.

Best,

Kathie K, USA, Sep 26, 2021.

Dearest Richard,

I have been taking NANO SOMA now for a while, and I am still on my first bottle. I take 5 sprays 2 x daily. I have immediately noticed a significant loss in weight. I have lost 3+ kg so far and will continue to take it. Thanks,

Catherine O. 19 Sept, 21

NANO SOMA is the Real Deal

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

My name is Matt, and I'm writing about the experiences that a friend and I have had from using NANO SOMA for only a few weeks. My problem has been intermittent bouts with tinnitus or ringing in the ears. It's particularly present when listening to music at even a medium volume level. As I used the first bottle of NANO SOMA, I became aware that I was experiencing longer periods without the ringing in my ears. I will keep using the NANO SOMA so that the tinnitus resolves and continue to use it afterward for longevity and anti-aging. I also notice an anti-anxiety effect and a feeling of being more "in the present".

A good friend of mine had back surgery a couple of years ago. He injured himself from exercise and years of squats, so had to have very invasive surgery. Months went by after the surgery, but it never reduced his pain, and drugs didn't relieve the pain and stiffness. I suggested he try every nutraceutical there was for inflammation and pain relief. This went on for months and months, but he didn't respond to any of it.

So, a mutual friend started raving about NANO SOMA and how he had cancelled a scheduled knee surgery because the NANO SOMA repaired the knee problem. So, my friend with back pain tried the spray and after a short time, he was incredulous that he had nearly complete relief for ten days straight. I spoke with him today and he had a recurrence of the pain, but he will continue because as Dr. Raghu has explained, the healing doesn't always occur in a straight line, sometimes it's more of zig-zagging to reach your health goal.

I've been researching and using vitamins and nutraceuticals for forty-five years and I haven't come across anything like NANO SOMA in that time.

Matt, September 7, 2021

Richard,

First was introduced to NANO SOMA by an alternative news video blogger about four months ago. I'm not sure I remember exactly who, perhaps Cliff High or Cirsten W. It was someone who gives good information in my experience. All I heard was the name and used Duck Duck Go to search for a phonetic spelling. I was given links to various stores. On the US store, there were enough links to the introduction and testimonials that I was intrigued by to look further.

I'm familiar with a great number of alternative energy folks from Nikola Tesla's work on up. In the late sixties, I read all of Wilhelm Reich's works (you could still get them used at the time) and started

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

studying Orgone Energy. My studies were practical. I learned to go to the beach on brilliantly clear days and throw my eyes out of focussed alignment, which observes reflected light, into a parallel alignment to observe emerging light... I found that was the same as Chi and Prana. But I digress.

I was intrigued by NANO SOMA. After reading all the testimonials I decided I had an issue worthy of experimentation. On one cheek, high on the cheekbone, I had an area of red, flaking skin. This had been with me for over twenty years. I attributed it to sun damage. Because of the testimonials of people who had skin issues resolved, that was my primary area of experimental observation. I purchased three bottles a couple of months ago and gave my cheek a mini spritz of NANO SOMA twice a day by massaging it in, and four sprays in the mouth. That skin issue is completely gone as well as two patches of sort of dry, peeling skin on one hand that had been an annoyance for at least five years. Gone.

I've used the NANO SOMA for the last two months I suddenly realized, just yesterday actually, that I hadn't taken any Ibuprofen to relieve pain in a bad hip. My arthritis and bone degradation was the result of a forty-five fall off a telephone pole when I was a lineman. My neck which has been stiff for years is loosening up as is a shoulder that was damaged in a separate injury long ago. In short, I'm positive about the skin problem resolution and suspect the others are being ped.

Because of the beneficial results I've experienced, I decided to 'double down' on NANO SOMA and purchased 24 bottles. My specific area of inquiry will be eyes. I have a macular pucker in one eye and a cataract forming on the other. After reading about people experiencing positive effects of NANO SOMA in the two areas of my eye issues, they will be the focus of my experimentation. I have high hopes. Thanks for your work to save the world!

Iles G, 6 September 2021

March 21, 2025

Thank you so much for NANO SOMA. I was truly suffering from all the bug bites on my back, neck, and arm. For the last few weeks, the itching has been so severe, I was literally up 3/4 of the night scratching and pacing the floor from being so uncomfortable. The day you saw how bad the bite was on my arm, I was at wit's end. I had become so sleep deprived it was difficult to function. My work was sincerely affected. I was exhausted.

Then NANO SOMA to the rescue. My bug bite had swollen to the size of a fifty cents piece. The itching was non-stop. It was awful. I put NANO SOMA on the bite twice in the afternoon and then once more before bedtime. That was the first good night's sleep I had in two weeks. When I woke in the morning, the bite was the size of a pinhead. The itching was 100% gone. I was stunned and amazed. So, thank you, sir! When you speak with the gentleman who created this amazing product.

Thank you, friend.
Kindest Regards,

Barb., September 2021

Dear Richard,

Thank you always for your updates! I look forward to catching up on the most recent news and happy testimonies. I have waited for months to share with you a testimony!
For me, it has been worth the wait! I am delighted to share this wonderful bit of news!

In 2012, I received that diagnosis no one wants to hear... Stage 4, Non-Hodgkins Follicular Lymphoma. I went through the usual Western medicine treatments back then not knowing what I know now about cancer. My blood work was abnormal for years. I began taking NANO SOMA in 2019 and always felt a sense of well-being. I knew something good was happening in my body.

In June this summer, I had another dreaded PET Scan. Oh my! the results were amazing!!! NO evidence of reoccurring Lymphoma! As well, ALL my blood work had returned to NORMAL! Everyone was astonished, to say the least. I have always sensed that NANO SOMA is a truly divine gift from God. I am now completely convinced! As a 72 yrs. old great-grandmother, I have received a new outlook on life with extra energy to spare!

March 21, 2025

My sincere, heartfelt thank YOU, Richard, for your part in spreading the GOOD NEWS and for always reminding me of what a necessary gift to LIFE this product truly is!

Martha B, August 13, 2021

Hello, Richard.

I'm writing to tell you about an experience that I had a few days ago with NANO SOMA. Two days ago, I was pan-frying a steak in a hot cast-iron skillet. One time when I flipped it, the steak almost slipped out of the tongs and splattered hot oil all over me.

There were two similar splatters on my hand and wrist. The spots had already begun to form blisters. I got the NANO SOMA and sprayed a little into my hand and dabbed some on the spot on my wrist (B). I didn't put any on the area where you see the blister. (A) When I woke up the next morning, there was no sign of the spot at B. Even when I touch the area with significant pressure, there's no indication of any injury whatsoever. This is an amazing product!

Thank you,

Carol Q, September 2021

Dear Richard,

Thank you so much for your latest and always wonderful update. I am onto my 3rd bottle. By the start of the first bottle, and after just 2 doses of 5 sprays of NANO SOMA, my bowel normalised. My problem

- 162 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

had been an irritable bowel so that one day they were loose with lots of gas, and the next day constipation and straining, and sometimes bleeding from haemorrhoids!! So after just 2 sprays, my bowel normalized, and no more haemorrhoid!!! Extraordinary result as I am now having normal bowels every day. I have been on a probiotic for years. Also, after one bottle my friends started commenting on the phone, “you sound amazing! I can hear how strong and confident you sound, and positive!!!”

Delores, USA. 17 August 2021

Richard, I am 77 and have lived on my own as a widow and on the pension, and I have toughed it out since the loss of my fabulous husband of 40 years marriage from medical malpractice. I only covered after he died that he had been on 2 statins, [brand names], for several years. At age 67 he had a stroke. You could not imagine a more powerful, brilliant man...and a successful entrepreneur and humanitarian, husband, father, and grandfather. I am onto my last bottle, and I am stronger, happier, and sharper in my brain. Most of all I am motivated to do things in my home, which is such a blessing through this miraculous food.

Thank you again, Richard, for your marvelous updates and God loves you and Raghu! I shall be ordering more next week and shall never stop. In unceasing gratitude,

Dianne S. USA. 27 August 2021

March 21, 2025

hanging out for your product to give me some relief from my constant tremor and left-side paralysis. I trust your product is what I have been waiting for!

Thanks,

Glenys A, Australia. 26 August 2021

I'm a youthful 60-year-old fitness instructor! Then on being told we would get a bottle to her to get started...Omg!! I'm crying!! Tears everywhere! It's been so tough... everyone thinks I'm mad... trying to shove their pharmaceuticals on me as well as the COVID jab! I don't want either!!! I am so humbled by your generous gift! I hadn't realised how much this had affected me! I know this will work for me... I know and trust my gut! I know this will work for me!!

Thanks,

Glenys, August 2021

And when asked if she would share her response:

Absolutely!! I am happy to share my journey... I would like to write a book about the journey from diagnosis, the despair... hen the path back to radiant health... I know this is karma. (I even soaked up again with your reply... I'm usually the tough one... I am a fitness trainer at a little local gym with 350 members. 7 of us with Parkinson's disease diagnoses... I want to help and give hope to others with this shitty diagnosis. I'm more than happy to film my progress:)

Thanks,

Glenys, August 2021

I hardly know where to begin, as this product has completely turned my life around. I'll be the first to admit that I was skeptical at first, thinking with a programmed mindset (compliments of belief systems and indoctrination), that nothing outside of so-called modern medicine, along with its treatments, pharmaceuticals, vitamin industry, and cutting edge

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

(emphasis on "cutting") technologies, could begin to help with the issues I was facing. Issues that I now realise were merely outward expressions of imbalance taking place within my body. I had begun my journey in February 2020, with breast surgery and removal of lymph nodes, followed by two additional surgeries in February 2021, along with an untold number of tests, scans, and labs, while experiencing consistent and unwanted weight loss throughout the entire process. During this time a friend had offered me information on your product, suggesting that I might consider giving it a try, as it might "kickstart" my body's ability to heal. (Well, it ended up helping me in ways that I never would have dreamt of!) After speaking with one of my physicians, I decided to stop all "treatments"... right down to the various vitamin and minerals I was taking. I had just received the results of a very extensive 29-page workup, was looking at yet another lymph node situation, an area on my knee, which I was told needed biopsy, and bone lesions extending from my hip into my femur.

Presented with all of that, I knew at that very moment I was done being irradiated, medicated, and going through more surgeries. I decided to try NANO SOMA. I tried it on each area of concern twice daily, along with six sprays twice-daily sublingually, for two months. My body must have been totally depleted and in great need of help in getting the proper "nutrition" into my cells! I was able to enjoy a 2-pound weight gain (the first gain in over a year!), the swelling and tightness in my knee completely disappeared, the lymph tumour majorly reduced in size, my labs came back nearly perfect range, and the bone lesions showed as having no new change... no rate of growth! My oncologist (quite perplexed and surprised) has ordered a follow-up scan for September.

I'd also like to mention that I live in a region known for poor air quality, which can play havoc on anyone who suffers from yearly sinus issues... Since using NANO SOMA, I've noticed that my lungs are clearing respiratory irritants better than ever before! I realise that everyone is unique, all having different needs to be met and our bodies react differently in bringing about optimum health and balance... I am so much more than grateful for the transformation I have witnessed in my body's natural ability to heal since using NANO SOMA. To me, it truly offers the gift of restoration. Thank you seems too little a phrase for something so beneficial.

Jo N. USA. August 2021

I did the start-up protocol about a month ago, and quite honestly, I LOVE NANO SOMA so much that I take it between 2 to 4 times per day x 5 squirts. My body loves it, I love it and I feel so alert, my skin looks younger than a 40-year-old, and what can I say...I am immensely grateful.

Looking forward to getting it again. I can't thank you enough for your commitment to the VISION
Enjoy the rest of your day/evening.

Best Regards, Allie. USA 12 August 2021.

UPDATE:

Hi Richard,

I have to say that in addition to the other things I told you about, one of the BEST things of all is the regularity of my bowels. I have had a mild form of constipation my whole life. NO MORE!!! Also, when I began the NANO SOMA, I had a small wart-like growth on my back. Totally gone now. I love my NANO SOMA!!!

Allie. USA 13 August 2021

Hi Richard,

I hope this email finds you well. I am writing to share my experience with NANO SOMA so far. I have been on the natural and self-care wellness path for about 20 years and I use a lot of high-frequency nutraceuticals. Before I start using a product, I learn as much as I can about it to have a good understanding of how it works and how it will benefit my body and my overall health; and also want to know it is safe. This is the first time I'm sharing my experience with a product. I decided to keep track of my experience and share my story based on the information I read, the videos I watched, and especially the incredible testimonials I read. I have a part-time wellness business and use a simple, noninvasive FDA Class II medical device that measures arterial stiffness index and biological age in my sinus. I was, therefore, very intrigued to learn that Raghu has been aging backward since he's been using product. I decided to check my biological age before I started taking NANO SOMA. I'm 59 years old, and biological age was 58. My arterial stiffness index was 3, which is a very good index. The stiffness index range 18, with 0-3 being the best range, 4-5 in the middle range, and 6-8 being the worst. I planned to check again in one month on the product. I followed the protocol on how to take the product - 5 sprays 1x/day for a week, 4x/day for the second week; 5 sprays 2x/day week 3, then on to 5 sprays 1x/daily. On day 4 on the product, I noticed that a swollen lymph node (not even sure if it's a lymph node, calcification, or scar tissue) in right groin which was about an inch and a half in length, but not sure how deep it was in my body, had reduced in size by over 95% and is now about the size of a pea. I can't remember when it first showed up, but I know it's been there for over 10 years but didn't pay much attention to it because it didn't bother me, no pain, didn't increase in size - I just knew it was there and one of those things you

March 21, 2025.

'live with'. This was so shocking to me, that taking just 5 sprays once a day would produce such results. This was even one of the symptoms I put on my list to watch and see how NANO SOMA would help. From the little understanding of the product taking care of critical things first, I know how important it was to start clearing issue that created this symptom. After seeing such results in such a short time, I decided to check my logical age again after two weeks (5 sprays per day); instead of one month, just to see if there was any change because that would be the real test for me as it tells what's going on inside my body. I did a repeat test of the arterial stiffness and biological age test. My biological age had gone from 58 to 55; gone down 3 years in two weeks! Incredible! My arterial stiffness had also gone down from 3 to 2, which is excellent. I did another test after one month, and my biological age had gone down another year - down to 54! My arterial stiffness index was still 2. To have my biological age go down by 4 years, 58 down to 54 – nothing short of staggering. This is so much more important because it is a good indicator of what's going on in body. I also understand that the health challenges we are NOT aware of, are way more than the ones we aware of. I know a lot of changes will continue to take place in my body and I will continue to be on this product. I'll continue to share updates with you.

Thank you - J.A.K. USA August 8, 2021

Spider bite was completely gone in 60 hours +/-

Hi Everyone,

Here is a photo of a spider bite that I sprayed directly with NANO SOMA.

www.magicdichol.info

March 21, 2025

While cleaning the garage I was bitten on the back of my elbow. Within about 30 minutes, the spider bite welt/blister grew to the size of a dime, turning white, surrounded by redness. Itching followed and the welt appeared to be getting larger, with the welt surrounded by red skin. Put NANO SOMA on and within seconds, itching was gone. Within 60 hours of the first NANO SOMA application (3X's), all signs of the bite were completely eliminated.

Blessings, M. Justin Elledge. USA 8 August 2021

Dr. Raghu,

s is Seyed. This NANO SOMA TOPICAL GEL is a miracle supplement. I used it on both of my knees for 4 days. The itching which I had for the last 15 years is completely gone. It is an amazing product. Now I am taking it twice a day for my lung problem. I have scars on my lungs because I was affected by COVID. After 3 months I am going to take another cat scan and I am pretty sure it will be gone. I will keep you posted. God reveals secrets to SIDDHARS. You are a living SIDDHAR. Thank you again,

Seyed and Ummu Mohamed. India. 7 August 2021

Dear Dr. Richard Presser,

I started using NANO SOMA spray-on 07/07/21 and was very interested to see the results. I reached out for NANO SOMA because, since 2012 - 2013 I have suffered from Irritated Colon Syndrome that used tremendous pain in my lower abdomen at least 1 week before my monthly period. The pain was so intense that for the entire time I was exhausted because I would wake up multiple times during the night being pain. Also, the pain was present during the day and people around me could see the pain on my face. (The pain went back and forth and each episode of intense pain would be for 15-30 min at a time.) Then I received my first order of NANO SOMA, I was in the middle of an intense pain cycle, unable to rest at night. I had my first 5 sprays in the morning of 07/07/21 and that day and the next day was pain-free. I could not believe it. I was so used to being in pain multiple times a day and at night, and when 2 days passed with no pain, I was extremely happy. To me it tastes soapy - really strong taste in the beginning - now it is less soapy, but still tastes soapy :) I know I have a lot of healing to do and I'm patient. I wanted to write to you right then, but I said to myself, let's wait other month and see what's happening next time before my period, just to make sure I'm not living in a dream :). So, I waited and used NANO SOMA for a month (1st week I used 5 days 2 times a day, and after that 5 sprays, 1 time a day.)

- 169 -

www.magicdichol.info

March 21, 2025

This month, I noticed a tremendous improvement. Some pain but not that intense and not that often. My period came on time and after so many years of suffering, finally, I was able to rest during the night and function properly during the day. I also noticed an improvement in my energy level.

I'm not snoozing my alarm in the morning so many times as before (I used to snooze my alarm at least 4-5 times - 15 min in between the snoozes, because I could not wake up in the morning, no matter how early I go to bed the night before). My mind is clear now, I'm happy and energetic.

My colleagues at work noticed the difference and they admire me for my positive and energetic attitude every day.

It gives them energy as well :)

I talked about NANO SOMA with my family in Europe and ordered some bottles for them, and they were already on their way (due to the delay in Germany). Once the store in Germany opens, they will be ordering directly from there. I also talked with some of my friends in the US about it, and I'll continue talking about NANO SOMA benefits.

I plan to continue using NANO SOMA spray, and I'm waiting for the gel and cream in the US as well. I want to see if my parotid gland tumour will respond to the NANO SOMA spray, and as soon as the gel is available, I'll use it to massage the area where I see the lump growing again (after my surgery in 2018, the lump is coming back and I don't want to go back to the painful experience of another surgery). I believe that NANO SOMA I help teach my body to heal itself. With great appreciation,

Felicia S – Chicago, USA. 44 years young. 6 August 2021

Aloha Richard,

Mahalo so much for your e-mails & all the wonderful testimonies! They are fabulous & I too have one. I am one person, who I hate to even say these words but not a lot works on me. I just don't FEEL much from any products I've taken for years! But I've had very achy legs and just 'restless legs' I guess, and NANO SOMA has helped me tremendously, I am so grateful! Mahalo so much!!:>) That is NOT why I am writing but did want to share that.

March 21, 2025

I have a good friend who had her hip broken when she was a teenager. She has had 4 hip replacements & during one they used cobalt, & she had a terrible reaction to the cobalt. It gave her diabetes pretty badly. he also lost a lot of her hair & teeth. Thanks so much,

Aloha, Cheryl P. USA 6 August 2021

I have been spreading the word like wildfire. Our dog developed a growth on its nose and we sprayed it daily for a bit over a week and it just disappeared. use it on everything (cuts, scratches, etc) as well as under our tongue. My wife developed a wart on her finger and it has gone now after daily spraying. Keep up the great work. arm regards,

Adrian Fields. Buderim, Australia. 5 August 2021

Here is my testimonial: (Sorry this is so long)

Started NANO SOMA with the 5 sprays, 4 times a day for a week because I felt I have many uses that might be improved. Then I did the 5 sprays 2x a day to finish another bottle in 2 weeks. I have needed knee replacement for 7 years now in both knees. Lots of pain. I was still able to do gentle cardio through at least 5 of the years and it helped with inflammation. I don't believe in putting metals into my body, so I just dealt with the pain for that time instead of surgery. After roughly 5 years I decided to do stem cell injections. These were expensive. Throughout the last two years, I put \$2000 worth of stem cells in my knees every six months and did it three times (At \$1000 per knee). Each time I waited for at least 5 months to see if the knees improved. They did not. I am certainly not rich but was hoping to avoid surgery. I kept thinking that the next dose would be the one that worked since my knees were so damaged from waiting so g. \$6000 wasted. I know stem cells work for some people but for me, it didn't work at all. I do trust my alternative health practitioner, so I know she knows what she is doing. I just don't know why my body didn't respond.

After all this, I cried and cried and didn't know what to do. I was so hopeful for this procedure. I was ready to give and have a knee replacement, but I still kept putting it off. There came a time in the last year that I could no ger do cardio due to the pain level getting worse. That raised many other problems that come without exercise. My practitioner said that my circulation had become very bad from inactivity among other things. I was w a couch potato, and I love to exercise and stay fit. Anyway, immediately after I finished the intensive NANO MA treatment, I noticed that the pain has gone down

- 171 -

March 21, 2025

substantially and mostly remained there with a few bad days occasionally. I would say from a constant pain level of 10 as high pain, I am now most regularly at 3 and a half to a 4. That's how fast my pain level went down. I am so happy! It seems to me that the NANO SOMA kick-started my knees to begin healing. I don't think it was just a coincidence that my knees feel like they are beginning to heal now that I am using NANO SOMA. It has now been 5 weeks and I feel like my knees are slowly but surely healing. This is the best they have felt in years. They are still weak from nonuse for 7 years, but I know that as I continue this treatment, I will gain my strength back as well. I feel fully confident that I won't have to have surgery. I almost feel that in another 4 to weeks, my pain level could very well be gone, or down to a 2 or 1. I will do an update again at that time. w, I have to say that I also had purchased a Bemer (pulsed electromagnetic field) machine 5 months ago and is seeing small changes with daily use. It would take the swelling and inflammation down with everyday use and I was able to do a bit more around the house. The Bemer had said that many people did not have to have knee surgery with continued use. She did say it would be slow. I think that my knees may very well have healed if I had kept diligently using the Bemer but the healing is painfully slow. I was indeed seeing small improvements though. So now I still use both the Bemer and NANO SOMA. Once I finished the two bottles of NANO SOMA is when I saw the healing begin to speed up.

On another subject, I have been struggling with insomnia for the last year or so. Of course, then I was tired all day g. I have been seeing some improvements in that respect also. Not perfect yet but getting there. Some better ep and also some bursts of energy during the day. As I said, I will do another update in a couple of months or so and let you know what improvements I see further down the road.

Thank you so much for the NANO SOMA. I feel like I am getting my life back!

Rosemary Beare. USA 3 August 2021

Began taking NANO SOMA in utter desperation 5 weeks ago. I have improved in numerous ways that have improved my quality of life in body, soul, and spirit. I credit NANO SOMA with turning around the death spiral I was . I even went out and paid for a gravesite. The money I was planning to spend on a burial plan I spent on my first order of NANO SOMA.

My gratitude is deep and vast to Dr. Raghu and Dr. Richard Presser. Also, Tank and UNN for being the first to tell me about this in their reports.

March 21, 2025

T Wilson USA July 2021

Richard,

My husband and I are both using NANO SOMA (10 days in). We both noticed changes immediately. Our sleeping is improved in that we are both getting deep sleep and waking up refreshed and ready to go, something at we have not had for many, many years. We both initially experienced a not- so-pleasant taste which now improving.

am experiencing subtle improvements such as less nervous tension, some digestive improvements, and I have a damaged toenail (I have had it for 15yrs) which seems to be growing from the matrix attached to the nail bed. m using 5 sprays x 1 daily at night.

My Husband has had long-term health issues due to a childhood viral infection (he is now 59) which we have consulted with many Doctors, Allied health, and holistic practitioners, with little improvement. He has been using NANO SOMA for 1 week today (5 sprays x 2 daily). Improvements include- quality sleep and sleeping till morning, body inflammation is reducing, he has a nail fungal that he cannot get rid of which seems to be growing health.

I know it is still early days, but we cannot believe the improvements so far. This is exciting.

Regards and thanks,

C from Australia. 22 July 2021

Dear Dr. Presser,

I am on day 11 of the NANO SOMA and feel so blessed to have found it. I didn't think I had an experience yet it until yesterday. I have had difficulty walking for many years because of my back issues with 3 herniated discs, sciatic flareups, etc. I avoid having to go to certain stores as I'm worn out and in so much pain by the me manage to get back to the car. Yesterday I decided to get some errands done anyway. I got to the store and on to a cart for extra support and away I went. I managed to get all around the store and was surprised by the time I got to the cashier, I noticed how strong and pain-free I felt! Pain-Free...I never feel PAIN-FREE!

March 21, 2025

Granted, I'm stiff as I don't get a movement except around the house. I was all smiles!!!! I teared up in the car at the revelation that it was the NANO SOMA ALREADY! I'm so grateful!!!! I didn't expect to feel this so quickly!

I have another revelation to tell as well. I have had chronic headaches and migraines a few times a week. It has been diagnosed as caused by the occipital nerve on the back of the left side of my head that is always inflamed normally, around 8 pm I dose myself with about 750-1000 mg. of Aspirin to keep me from waking up in the middle of the night with a horrible headache. Last night at that time I was preparing to take the aspirin and I felt the nerve which is usually so tender and sensitive.... was shocked that it wasn't that way. I thought I'd take the chance of not taking the aspirin and just going to bed without and see how the night went. I didn't get a headache at all....even in the morning! This is a miracle for me and I haven't gotten a headache today either! That nerve was calm when I woke up and all day today! THE NANO SOMA is at work on my nerves in my back d my head!!! THIS IS A MIRACLE!!!!!!!

I watch all your interviews a couple of times because I get little nuggets that I missed the first time I listened. I have four friends who have recently ordered. I'm trying to memorize the scientific jargon to express it clearly to others.

THANK YOU, THANK YOU, THANK YOU!

All this is just the beginning!! Btw, I'm 79 years old and will be getting younger!

P.S. I don't think it has a taste at all!

ce Farinas. Palm Desert, Ca. 13 July 2021

Dear Richard,

went to the Kinesiologist/Chiropractor, and she tested the same as I did, that now I only need 1/2 the amount thyroid medication I have been taking for a long time. At this rate, blood tests cannot keep up with these anges

I've said before, when I tried to get off thyroid meds, that she thought it was not worth pursuing. I still needed it, despite what another Naturopath was trying to replace it with which didn't work. We both tested that I no longer need about 6 expensive supplements I had been taking. Now she wants to try NANO SOMA. You are welcome to use my testimonial. Thank you so much for all.

March 21, 2025

Best, Lesta Frank. 21 July 2021

Dear Richard,

I definitely notice a higher vibrational level, happier, less worried, less impatient, more grateful. I am more bodied. I'm doing kinesiology testing for even less thyroid medication needed since yesterday. I will get a re experienced Kinesiology person to test for this. If I'm right, blood tests cannot keep up with this! more hemorrhoids either. astonished!!!! Thank you SOOOO much!!!

Lesta Frank. 17 July 2021

Hi Richard,

I am in USA. I've been taking NANO SOMA since yesterday. I've been on a parasite cleanse for months.

This morning I passed a large group of what the Functional Medicine Doctor said were liver flukes and that is huge! Then I was also suffering from haemorrhoids for days. It was so bad that in middle of the night night, I got up and did all the home remedies I knew of that had been helping a little, but actually not aling the problem. I had the idea to spray the area with NANO SOMA, and after going back to sleep a few hours, it was like I never had haemorrhoids!

The stuff is quite miraculous! I'm 78 and you are supposed to heal slower at best - which makes it even more doubly amazing!

Thank you so much!

Blessings,

Lesta Frank 13 July 2021

Hello Dr. Presser,

Thank you for your last 2 emails and info on the NANO SOMA being back in stock... I meant to respond to you sooner and got focused in other directions. I love the product and am sparingly nursing my last bottle as there is not much left. I have some money together now to order 3 more bottles! I would like to report that an enlargement of the right lobe of my thyroid (Goitre) has shrunk significantly, and soon, I expect it will be completely gone.

For more information on the MagicDichol Family of Products, go to:

March 21, 2025

I always enjoy your presence on Jeffrey Daugherty's show, and I look forward to getting the DPE 100!!! Thank you for bringing us this great product.

Sincerely, Corinne Shea, VA, USA. 21 July 2021.

As promised, I wanted to update you some more on NANO SOMA, as I mentioned that I was going to wait for a few more days to see what else it would do for me. Well, yesterday was day 14 since I started using NANO SOMA. The entire bottle is finished, and I am excited to give you more feedback!

Since July 2020, I was dealing with allergy issues due to dust mites. My allergies were seriously acting up, so I was not able to eat and drink as often as I should since the beginning of the year.

Currently, I do not take any form of medication. The puffers/inhalers my doctor prescribed in October 2020 were not helpful after using them for a short while. My energy was low, but I got some relief from other forms of natural remedies that I took.

I also had to lie down often due to weakness in my body and pains in my joints. Then, in the early part of May 2021, a friend and mentor of mine mentioned NANO SOMA and what it did and is doing for others he recommended it to. Now, after taking NANO SOMA, my joints are less painful and more flexible. I am taking longer walks and my appetite increased. I also noticed that I did not get a lot of menstrual pains during this month's cycle. This is the very first time I experienced such tremendous relief, as I have always suffered from serious discomfort, cramps, and heavy pains during those delicate times. This is a miracle for me!!! I am very, very happy!!!

Also, one of my older sons experienced mental clarity and focus. The other one experienced cognitive improvement, alertness, mental clarity, more energy, and an increase in his appetite. My youngest son, whom I gave 2 sprays per day, experienced mental clarity as well. Isn't that awesome?

Regards, Sandria Gillespie. USA 20 July 2021

NANO SOMA results for me Day 7.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info

March 21, 2025

I have had to limit my activities due to my back which I mentioned to you previously. I really couldn't walk re than half a block without sitting down. In the last 3 days, I have walked distances of 15 blocks! I enjoyed taking 30% less pain medicine. I hadn't slept more than 2 to 4 hours at a time for just about 2 years, and in the last 2 days, I have slept 7 hours and 7.5 hrs.

I have a far clearer mind consistently.

I have double the energy throughout the day without a low point in mid-afternoon which was customary for me... I would grind through it. I haven't had that for 3 days now. dog continues to do extremely well.

After a time, I will have a biopsy done again to determine whether my lichen plans and lichen sclerosis will be gone.

Thanks,

Anahata Graceland, USA. 17 July 2021

Richard,

Thank you so much for bringing NANO SOMA to the world. I work as an FNTTP (functional nutritional therapy practitioner) and I use food and nutrients to help people return to wellness. I take good care of myself but have had difficulty nailing down the inflammatory cause of my hypothyroidism (despite removing the foods to which I'm sensitive.) I've taken NANO SOMA for a month, and now have no external markers for hypothyroidism. (Pre-tibial oedema is a good test point. None now!) NANO SOMA seems to work for acute reactions to food sensitivities...Last night, I had Pad Thai for dinner from a local restaurant. A half hour after dinner, my tongue was swollen and sore. "Ugh," I thought, "food sensitivity!" I sprayed five sprays of NANO SOMA to the back of my throat and five more directly on my tongue...I held it in my mouth and didn't swallow for about a minute. Very shortly thereafter, my tongue stopped aching and the swelling went away.

This morning, I had no symptoms at all.

Wow.

Additionally, I noticed that my dream sleep returned almost immediately when I started taking NANO SOMA! I've told so many friends and clients about this! Thank you so much for what you do.

Sincerely,

Antoinette Caruso. 17 July 2021

March 21, 2025

Thank you so much, I love NANO SOMA. My teenage son has bad acne, and with one bottle which he isn't even done with, his face has almost completely healed. He looks so good. He needs a heart valve, so I hope this helps that. He is very healthy despite this and has plenty of energy.

I love how I feel all over.

Beverley Young. 10 July 2021

Shortly after starting NANO SOMA the regular problems of blocked sinuses and resulting headaches which I suffered from for years are no more. Even though I have run out for the moment, the problems haven't come back (yet). And as for my thought processes, well my days are so much more productive. Thank you.

Kind regards,

nton. 5 July 2021

Hi everyone, I want to share my experience with NANO SOMA.

I have been taking this for a month now, and for me, it has been a painful process. I was born with what the doctors call Eczema, and have been on prescription Cortisol Cream since a child (I am 35 now). I have also been overprescribed antibiotics, and due to a lowered immune system, I have been very susceptible to viral infections.

Since taking NANO SOMA, it has brought forward viruses that I had no idea that I had, the worst of which presented on my face. This was extremely painful whilst the virus was being eradicated by the NANO SOMA. However, once it comes out it is gone forever. I just want to warn you that unless you are great health and have been all your life, it is highly likely that you will have a transition period where there will be some pain as the damaged cells are identified and pushed to the surface to be shed. To me this is invaluable! A cure for everything! It is worth the pain.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info

March 21, 2025

This is a picture of my face while the virus was being shed and healing.

Jenn V.. July 15, 2021

I am writing to tell you about one big thing NANO SOMA has done for me. I have diabetes 2, and 3 months ago my A-1C blood test was up to 6.4. I have had it even higher than that in the past. year taking NANO SOMA for just one month (I also did the accelerated protocol that you do if you have an affliction). The A-1C blood test I had taken 2 days ago, 3 months later than the last test was down to 6.0, which shows my body is healing from Diabetes! I have also eaten a lot more sweets during the last 3 months because I have an insane sweet tooth and having the A-1C going back down to 6.0 is

- 179 -

March 21, 2025

amazing! Normally it would have risen higher because of the number of sweets I have eaten! (Blame the sour gummy bears, lol!) Also, Blepharitis has pretty well disappeared (a fungal infection of the eyelids)!

Ilse Barros 25 June 2021

Dear Dr. Raghavan,

My name is Kim Cooper. I am 62 years of age and I think I have Pneumonia; extremely bad chest pains and struggle to breathe. I could only get up at 10 in the morning and it took me forever to get ready for a job in which I work a few hours a day or when they need me. I am not overweight at all, so it defiantly was not a weight problem. Many, many nights I could not go to sleep because of breathing problems and my heartrate would speed up. I was constantly on Disprins just to help with my heart rate, and I could not afford to go o the doctor. I was anxious about everything, tense, and constantly nervous as well. Everyone suspected that I had a very bad dose of COVID19, and I just got worse and worse every day.

I was invited to the NANO SOMA channel and I saw all the excellent results. I couldn't help myself, I was desperate for some kind of help, so I reached out to you. Not many companies are doing well and I knew I would never have that kind of money. So, I reached out and you gifted me two bottles. I was shaking so much when I received the 1st bottle and immediately took 5 sprays under my tongue, and 5 sprays every 4 hours as n the bottle, including at night. I put my alarm on to take my sprays at night, and within 2 and a half days I could breathe, and I started coughing up a huge amount of stuff. My hair was falling out by the and full. On the 4th day, my brush was looking much better and cleaner and my daughter nearly fainted when I showed her. The 1st and 2 days on NANO SOMA I got a very high fever. On the 1st and the 2nd day I had very bad headaches, the fever subsided by the evening, but the headaches lasted for about 2 hours, maybe 3 hours, and then they subsided. I continued to spray 5 sprays every four hours, even at night I woke up to spray religiously, and my healing began very quickly after 3 days. Before started on NANO SOMA, I was also extremely depressed and couldn't get out of bed, unless I absolutely had to.... My body ached everywhere. Today, I arrived at work at noon and am doing slides.... It's unbelievable. My energy level has increased. I'm still a little slow and my depression at this moment has cleared up it seems. I felt I could no longer cope with life; it was just too hard to get up every day. I felt exhausted 24/7 and struggled to breathe. I did spend a few hours on Monday crying. It was like I had a pain in my heart.... that was Monday.

But today I am doing slides, I cannot believe it myself.

If there is anything that I can do in return for this gift please let me know as I have just been given my life back and I am extremely grateful.

Kim Cooper, Cape Town, South Africa. 29 June 2021

In February of this year, I shattered my tibia and fibula bones while snow skiing. During the first surgery, they ed me with an external fixation device to stabilize my leg. A month later, I had a second surgery to move the external fixation and place the immobilization metal into them. Six months before my accident, I sprayed NANO SOMA internally twice per day - then post-surgery, I began topical application directly to the injury e and post-hole infections as well.

To my amazement, all infections were resolved entirely within weeks, plus the need for pain medications was significantly decreased. I experienced zero withdrawal symptoms coming off the pharmaceutical drugs, and all my muscle flexibility and my scars healed quickly. I can also attribute a substantially better mood and a hopeful outlook that I know would not have been present without NANO SOMA during this time.

my final doctor visit, he stated that I was "weeks ahead of schedule." I now enjoy mountain biking with no pain and notice only a slight loss of cardiovascular capacity, despite being sedentary for four months!

My experience with NANO SOMA as an alternative medical practitioner has proven the importance and vital necessity of this product needed on the planet today.

Gratefully yours,

nn Streeter. 25 June 2021

March 21, 2025

This is an update on my NANO SOMA use for the past months. I have had a Johnson and Johnson shot adverse reaction 5 days post-injection, with a full-body rash that sent me to the ER spital for two days, with the only conclusion that it was the shot. I had put NANO SOMA directly onto the shot site and 5 squirts right after getting the shot. I do believe it stopped the reaction from being worse (somewhat itchy all over). I did report it to the Federal VAERS because I don't believe that the spital would report it. My asthma is still reduced as reported previously, although I do get some symptoms at times (I live with a smoker). Applying NANO SOMA to some skin tags cleared them up right away, although some other ones popped up that I am now treating with direct sprays.

My dog is doing well with her peripheral neuropathy and can walk longer distances now. All four legs are stronger, and she is happier and more playful. She continues to get 5 sprays a day on her food of NANO SOMA and will continue. I highly recommend this for animals for all kinds of problems. I am starting the other older (10-year-old) Rottweiler on it for his arthritis.

Lynn (Buffalo, NY). June 25, 2021

Nano Puppy Miracle

For more information on the MagicDichol Family of Products, go to:

March 21, 2025

After exposure to a COVID-vaccinated person, this lesion/ pustule appeared. It got worse over the next two days with dark black blood bruising under the skin around the blister and dark red blood inside raised portion, then full body tremors began lasting about two days.

After a week of spraying NANO SOMA on it, nano tremors disappeared, the lesion fully healed, and today there is no evidence of illness. The entire underbelly looks completely normal and behavior and motor skills are normal for a 6-week-old puppy.

Kate

Dear Richard, Peace, and love be to you.

I have used NANO SOMA in my eyes and ears with an eyedropper. My eyes are better with no redness and in my ears, there is no more pain. I still have hearing loss. My blood pressure is very good. I walk every day or bicycle, I keep active. Thanks to NANO SOMA and Richard Presser.

Alvin Schultz June 13, 2021

***** |

I received the NANO SOMA skin cream. It smells divine and feels amazing. Thanks so much!!!
Blessings, Kerry Cassidy (Project Camelot), June 2021

I wanted to share with you: I had a litter of puppies born 4-3-21 and one was born hypoglycaemic - blood-red paws, face, etc. Instead of using high fructose corn syrup to bring the glucose levels up, I felt called upon to - administer NANO SOMA to the newborn. I asked Spirit how much and it guided me to .075 mL- basically a teeny drop. I put it on the puppy's lips and watched in awe and reverence as, before my very eyes, the pigment began to fill in the bloodred places. The puppy is developing normally with proper weight gain, nursing beautifully, and seems content. He looks just like his 9 siblings now, 6 days later.

WOUND HEALING

On January 4th, my 94-year-old mother was admitted to the hospital with a gash in her leg that went from her knee to her ankle. It was a horrendous wound and she was flown to Adelaide for major surgery and skin grafts. The area on where the grafts were taken from remained slow to heal. Four months later the wound had not healed at all. As she was in care, the wound had been kept bandaged, so as not able to see it and not being able to enter the facility due to the COVID restrictions had hindered me from keeping track of her progress.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

My first thoughts were "gangrene!" On May 2nd, I brought her home from the Nursing Home and decided to check under the bandage. This is what I discovered:

I immediately reached for the NANO SOMA and sprayed 3-4 sprays directly on the wound and rebandaged it before returning her to the Nursing Home. I had been attending daily and spraying 5 sprays of NANO SOMA in her mouth for the previous 6 days. I made a plan to speak with the Dr. urgently and work out what could be done for her wound. Today, I brought her home again and removed the bandage and could not believe my eyes.

Just 48 hours later, with nothing other than 3-4 sprays on NANO SOMA and reapplying the bandage, this is all that was discovered. Truly incredible change. Bear in mind it is now four months since she had the surgery with no sign of healing.

CANNOT WAIT TO SEE WHAT A DIFFERENCE THERE WILL BE IN ONE OR TWO WEEKS TIME!

March 21, 2025

Something else of interest is that she has had two very nasty falls in the past week. Normally she would be black and blue" with bruises from a fall. However, this time practically no bruising! Can you believe that? I almost cannot! She has one dark bruise on her shin area that is all!

Heather Wardale, 13 May 2021

I am Harish Kalambe, 41, living in Amrut Nagar, Ghatkopar (W), Mumbai. I am sharing my experience with COVID-19.

On 29th June 2020, I felt feverish and it lasted for 3 days but the fever was gone as well as symptoms like itching in my throat and coughing.

Then, on 2nd July 2020, I went to my family doctor, and he prescribed a few medicines - DV2K, ABRON-XL, PARACETAMOL, GRANIFORCE MD & FAMOCID. Also, the doctor told me to go for a CBC blood est. took one dose of medicine on 3rd July 2020 and suddenly I felt a problem of breathlessness. Then it was

March 21, 2025

confirmed that I was COVID19 positive. So, I moved to a separate room and called my cousin, Mr. Abhisekh, about my problem and requested he help me get admitted to a COVID-19 hospital. He told me about the NANO SOMA Immune spray for COVID-19 infected people.

On 4th July 2020, I called the NANO SOMA representative in Mumbai to supply one bottle, and within an hour I got the product and without wasting time, around 12:30 pm, I took 5 sprays in my mouth. I took NANO SOMA every 4 hours. I was having breathlessness while standing but no breathlessness when sitting and lying on the bed, but no breathlessness after the first 5 sprays of NANO SOMA.

However, as soon as I stood up, the breathlessness would start immediately. This continued for two days and on the third day, it stopped. After I started NANO SOMA, I stopped all medicines. I took only one dose of prescribed medicines.

Thanks to Dr. Raghu who invented NANO SOMA which is a wonderful product. On 9th July 2020, I went for a COVID-19 test and it was negative and an antibody test on 13th July 2020 was positive, showing antibody presence at a value of 12.9.

Thank you to the Discoverer of NANO SOMA, who saved my life and also money, I did not need hospital treatment.

Thanks & regards, Harish July 2020

Thank you again Dr Raghavan...I'm healing in record time. I'm seriously off my sinus meds, allergy meds, my inhaler, my blood pressure meds, my water pills for oedema and my anti-inflammatory pills. I've cut my migraine and thyroid medicine by half. I've had to cut my insulin in half because it was taking my blood sugars too low. It healed my face mask blisters, my earache, and I've lost 10 pounds, and I am now taking less pain meds.

ina Wilkes, June 2021

Dear Richard, I just finished my 4th bottle of NANO SOMA! I must say that I felt it working the very first spray! I have more energy, I feel healthy inside and out! I need to order more, but have to wait until payday! I gave a bottle to my friend and she loves it! I can tell when I don't use NANO SOMA!

I don't feel as good! As soon as I get paid, I will be ordering more! NANO SOMA is a great product!

Kind Regards, onda Reed June 17, 2021

March 21, 2025

of NANO SOMA... put it under my tongue (quickest way to get into my body) and slept. This morning I checked my sugar. It was 99. (Normal range: 80-120). I feel great.

I will keep track of my blood sugars to make sure I'm on right track.

I've been trusting Creator God for healing for at least half my life. This is the door God opened for me. I'm walking through it. This is my testimony so far.

June Glover, May 2021.

Dear Richard,

My writing to you today is a testimonial of the truly amazing results that NANO SOMA produces. I am not going to repeat what others have said about it.

I shared with you and Raghu my test data from my body scan and it shows amazing health improvements. What it cannot show is the other changes occurring to the human body. As you are aware from a past letter to you, I suffered lifelong idiopathic scoliosis to my lumbar spine.

The curve was at 40 degrees in the lumbar region. For those who don't know of the disease, it can be debilitating, putting it mildly.

One of the conditions for the cause is a muscular imbalance in either lower region of the back and buttocks. The brain cannot send signals for the muscles to grow and stabilize the cavity. my situation, from childhood, I suffered from the get-go. I will leave out the details. You have the full story.

Last year, I used my VPN to research childhood scoliosis and muscular disease and I found out from DC reports released outside the US that the POLIO VIRUS was induced in the vaccine! It is not a natural disease. So, many children were vaccinated and many got sick or died as a result of the jab.

Then I pieced it all together. I suffered a mild form of POLIO - not enough to incapacitate me, but enough to cause me much suffering. The right-side muscle systems were deformed and underdeveloped; so, as I grew older the condition accelerated.

March 21, 2025

As a result of my decision to follow my spiritual path and study REIKI and QUANTUM TOUCH, I began to understand and keep myself active as much as possible. Last summer, after 6 months with NANO SOMA, I began to lose weight and become fitter.

70 years young, I had knee issues and with Richard's help, those conditions were cured. September, I was fit enough, so we decided to sell our big home and downsize. In November, we moved into a beach house rented for the winter on the ocean in upper New England. Living on the ocean, allows me to enjoy the real world with no demands. In January 2021, I began to notice my lower muscles on my right side are owing to normal size, and my balance is normal and I have no back pain.

I can now flex my lower muscles independently, which was impossible before. NANO SOMA is flushing out all the damage done over many years. Mind you, I have refused any vaccination since I was 18 (I never trusted the system). So, in closing, this is starting year two on NANO SOMA and we will see what comes of things.

Richard, I will say it again. You and NANO SOMA saved my life.

Warm Regards, Charlie Zevitas February 2021

Richard,

Rarely, and I speak as someone who has passionately sought out the truth about nutrition and diet for over 45 years, do you encounter a novel yet ubiquitous element, properly prepared and packaged for the average person: NANO SOMA.

My experience with this product is so profound that words will only approach my experience. After using for a couple of days, consuming five sprays about five times per day, I noticed that a ten-year-old injury was suddenly gone. This injury to my left thumbnail separated the nail from the bed and was unsightly to me. I noticed it every day. I had tried everything to remedy this injury and nothing worked, for ten years. I can only attribute it to stimulation of my endogenous stem cell production.

My clarity and ability to think through complicated issues as well as my focus was also enhanced past what I thought was possible and it lasts all day; no slump. Coffee will not achieve these levels of focus or clarity. And after taking it for about 2 months, my clarity has improved even more.

For more information on the MagicDichol Family of Products, go to:

March 21, 2025

Another issue for me was what appeared as a dark spot on my right leg, small at first 30 or 40 years ago, it grew from about 1/8th inch in diameter to about 1.5 inches in diameter. This spot, whatever the cause, only seemed to grow regardless of what I treated it with. Now it is barely visible and almost gone after a month.

My friends who've used NANO SOMA at my insistence have also found remarkable and even unheard-of results as their bodies have suddenly switched on, from diabetes to thyroid issues solving themselves within days.

My understanding of health and the body tells me the product is not a nutrient or doing anything. It's your body. NANO SOMA is merely a messenger, like a ringing bell, alerting the almost perfect human system to turn on and off when needed. We possess all of the necessary ingredients to have remarkable health; however, life, environment, and a myriad of other items have negatively influenced our systems. NANO SOMA signals the system to turn on and that's amazing.

Profound thanks to you and Raghu for your dedication and for bringing this product to market. a gift for all mankind and no wonder a shrine was constructed 5,600 years ago to its origin.

I've forgotten many things in history, even as our bodies have forgotten, and now NANO SOMA – our wake-up call to health and vitality.

Regards,

David G, May 2021.

God morning from this side of the world!

I am absolutely loving this product! I have more energy and focus and have only used it for 3 or 4 weeks! The results are noticeable, and I can sense my demeanour shifting the moment I spray it into my mouth! I have 3 bottles, but will be sure to replenish this when I am getting low!

Be well!

Julie Boehr March 2021

March 21, 2025

Hello Richard,

I live in a small community, and I believe most in this community and even most of my friends think of me as a conspiracy theorist and do not believe anything that I believe. I wore a mask twice to see my premature granddaughter in the hospital. She was born on March 21st. She is tiny, 5 pounds 3 oz today and, doing fine. Luckily, I have a daughter who watched "Shot in the Dark" a vaccine documentary and did not vaccinate her son nor is she vaccinating this tiny one. That was my birthday present to me if she would watch it and fortunately, she did. It horrified her to see infants doing well and getting the vaccines and becoming gurgling and unresponsive babies.

Most people see me as that lady who will not conform to wearing a mask and is harming them. When people wear masks, it makes it quite easy to just pass people by as we cannot see who they are anyway. Conversations have disappeared.

So, for me to tell anyone about NANO SOMA would not be very productive. I have lost weight using it and I was 135 and now 120. I am more agile and I am soon to be 70. I can get up off the floor, now, with ease. People say I am looking younger. I have always been in pretty good health and have not been on any medication because I think it is all crap and is only harmful. So, I will continue to use it as I believe it is helping me stay younger.

The consciousness we are inside of is a challenge for all of us that are awake to it. But it will change, and NANO SOMA will play its part, IMO.

Cheers Donna, April 2021

Richard,

I have allergies every year and every year I have had to take antihistamines from March to June. And this year, since March, I took only 3 pills, so far. Last year I had to take them every 24 hours. So, something going on in my system. And the only thing I take is NANO MA. ink it has an impact on my health.

Suthida, April 2021

March 21, 2025

Just wanted to share with you: I learned about NANO SOMA from Jeff Daugherty and I ordered a bottle. Then, a few days later I ordered 6 more to give to family members and a friend whose son is extremely autistic. The first day taking NANO SOMA, I noticed that I had so much energy like when I was in my early 20's, again. I have now been taking it a month and I cannot be more pleased with this product and I tell everyone that I can about it. It is a miracle product. I would love a chance to be an affiliate for your product.

Stephanie, April 2021

On a small front, I put 2 sprays of NANO SOMA into my largish bird bath, along with the usual O2 (plasma water from the GANS of CO2), and the water has remained utterly clear and pure for over a week, despite birds using it. It normally starts to ferment by the end of the day if it is warm weather. The bowl itself has not gathered any green slime, etc. Small, practical...but still proves the product, doesn't it?

Warm regards, Susan

Richard,

I have been taking NANO SOMA for about three months, now, and have just started my Rottweiler on it. My results have been varied but I have noticed a decrease in my asthma reactions although I do live with a smoker who smokes in the house. I still react to the smoke but have had less general coughing and need for my rescue inhaler for most of my asthma symptoms otherwise, which is great! More recently with spring allergy season, I have noticed a greatly reduced reaction to my usual allergens, especially the huge Magnolia tree just outside our front door! Along with using colloidal silver, I am in the process of curing a UTI over the past week, which I attribute to both the NANO SOMA and the silver without antibiotics, yeah!!

My dog has had for over the past year a progressive peripheral neuropathy, with weakness occurring in all four legs. She is only 3 years old. She has gone through extensive joint and blood testing with no definitive results. My diagnosis is neuropathy because I have seen it in adults as an Occupational Therapist for over 42 years (now retired). I put her on the NANO SOMA, 5 squirts once

March 21, 2025

Per day for the past 3 weeks and already she is walking up on her feet and not her "wrists" and wanting to walk or longer distances. Her personality has brightened, and she is more herself, playful and joyful!

I can't wait to see her get better! So, for those out there wondering if animals can use NANO SOMA; Yes, they can!! My cat has glaucoma, which has turned for the worse, so I am going to try it with him. Just have to figure out how to get it into him (LOL). I will keep you updated on all our progress.

Lynn, April 2021

Hi! Richard, I ust wanted to give you a brief update as my husband, son and I have just started using NANO SOMA. I ave been in the healing field all my life and people call me for help from all over. Well!! No need now!! here is NANO SOMA. My husband, and son, use 5 sprays a day, and I, 7 sprays, just because I like the umber 7 lol!

My husband and I are in our early 60's and I hope we are in pretty good shape. Anyway, my husband had some quamous cell on his back that for a year now I've been using Curaderm cream on it (eggplant cream). It's supposed to work on basal cells and squamous cells, but it just never quite could get all of it. I used the NANO SOMA on it and it's absolutely drying up completely and going away. So happy about that!

For me, I had a bad haemorrhoid from childbirth that I used so many different methods to clear up. Well, I noticed it's barely there anymore!! I know that might be too much information for some people, but anyone that has them, which are many, will know how exciting this can be to have this go.

We all notice more energy, better sleep, our blood sugar is much better balanced as cravings for sweets and the energy dumps have dropped off for all 3 of us, maybe a bit of weight loss, which is great. Now my son, ADHD, low-level anxiety, leans towards seasonal affective disorder, he seems just all around balanced better, much calmer, notice end-of-day not so worn out, sleeping better, body not aching from physical work, mood better.

We are looking forward to continued healing. Very impressed so far and it's only been 2 weeks! I feel so blessed that I was led to finding NANO SOMA and I return the blessing by passing this on to others for their healing and better health.

Thank you!

March 21, 2025

Julia

Hello Richard,

YES!!! I am having great results with the NANO SOMA and have been taking it now for 10 weeks.

During the first week, I had a few days of sore eyes, dizziness, earache, very tired, dragging my body around, and the NANO SOMA tasting like soap! A week later, the soap taste is almost like water, my energy levels are very high and continue to be so, and I can do whatever/whenever I want... Such a Blessing! Also, an old arm soreness when raised above the shoulder reappeared about week 8. I applied NANO SOMA to the skin in that area 2x for one day... it went away but came back a week later, so I put on more all around the arm and shoulder 3x/day for 3 days and it suddenly disappeared.

Also, I need less sleep. Also, my food preferences have changed. It was noticeable when I installed my DPE100 but was much more pronounced since starting the NANO SOMA. I used to eat a lot of meat while on the Paleo diet a few years ago and the last couple of years, I've wanted a little less but since the NANO SOMA, I detest meat - it makes me cringe! The same goes for all cravings, almost addictions to dairy, grains, processed foods, highly sweet things, alcohol... also for going on the internet/social media...It has all fallen away...

I feel like there is now a definite choice and I at long last feel like I AM FREE! All I want to eat now is wonderful, delectable healthy fresh fruit and vegetables and manage my time in a much more productive way. It helps to manage sleepiness while traveling and makes a good deodorant, too!

I am so thankful for NANO SOMA and all the Light Beings of the Most- High who enabled this to come Earth at this time for the Highest Good of All.

And thank you so much, Richard, for bringing these things to our part of the world. Very much appreciated.

Love, Sunshine, Rainbows, and Hugs
Theresa Beecroft

Richard,

March 21, 2025

This product is amazing. My hair is growing and darker, my vision has changed from 20/30 to 20/20, I feel better, more energetic, my sleep is excellent. I am on my 2nd bottle. I do 3 sprays in the morning and 2 in the evening and will keep doing this till my last day on this planet.

Thank you for introducing me to this product, you are a godsend. Please stay safe.

Walt Bruyn

Hi Richard,

It truly is a miracle; I am ready to order 3 more bottles next week. The results are amazing. I wish I knew about this 10 years ago. I am 73 and people say I look like I am in my late 50s/early 60s. I feel lot better, have more energy, no COVID-19 and I sleep well. Again, thank you for recommending his product. Please stay safe.

Walt Bruyn, January 2021

.....

I sure am feeling so good with NANO SOMA, I can just about do everything but walk; thank you, Richard.

I am trying to figure how to get more. It is not a drug but it is my lifeline. I don't hurt much anymore; missing having both legs.

Walt Bruyn, April 2021

***** a

Dear Richard,

My mom is 85 years old; she gets terrible bruises from the smallest thing. Well, well, she was not even on NANO SOMA for a week when she knocked her hand against a chair and as usual, we were expecting a HUGE nasty bruise. It did not happen!! She got a tiny bruise and when I sprayed a little NANO SOMA on it the next day... (she was taking it orally, too), it started to go away!!!

Do you know what kind of miracle this is? It normally takes a bruise on my mom MONTHS to disappear. I can't wait until the cream comes out, too. Also, could NANO SOMA possibly firm the skin? Especially when applied topically? After this, I have high hopes.

WOW!! We are wondering what new miracles will happen next.

March 21, 2025

THANK YOU, Carla, April 2021

Doctor. Presser,

I am not sure where to even begin. I began to feel things breaking down in my body almost a year ago - I won't re anyone with the myriad of details - but I've been keenly aware that my biggest issues the last few months have been liver, gall bladder, stomach, and intestine/colon issues. More than that - I began noticing how sore d stiff I was getting out of bed in the mornings in addition to all the liver/gut issues - more than likely a lymph system that was pure sludge...

over a year, on a scale of 1 to 10, I have lived with a pain level of 5 to 8... at times going from 8 to 10- finding some relief from my Acupuncturist and my Chiropractor, who does more energy work than cracking bones." But never being 100% pain-free. I couldn't make it through the day without a nap from an hour to 2 hours... sometimes needing to sleep all day... brain fog - a depression that I was on a downhill slide that I wouldn't be able to come back from...

I first became aware of NANO SOMA a few months ago concerning COVID-19 - and interested in the results. But as I began to read the multitude of testimonials - and what it was helping people for - you had another person say "it was literally calling out to me" - and it did... I too have an extreme and highly developed "intuition" - my body talks to me all the time... and it seemed to be screaming yes.

I wasn't prepared to be writing to you so soon - but had to. My product arrived yesterday - and having read the protocol - I knew I would "listen to my body" - I also read on the protocol about the time that you might go through a healing crisis - having been through many of those in my life - I knew I had to be careful - I have THE most important appointment in my life coming up that will be requiring a sharp mind and a pain-free body as possible - not knowing the exact day of the appointment - but knowing it is soon - ad to go by instinct in my dosages to ensure I would not be in the middle of a healing crisis at the time I s called for this appointment...

Knowing all that was wrong with my body - I fully prepared to give NANO SOMA a good 30 to 60 days to feel any difference. I received my product yesterday at 12:30 pm - took my first dose at 12:35 pm and "intuitively" took another dose before bed. I woke up at 1 am thirsty - got a drink and upon returning to bed - laid there for a moment and realized - upon going to bed my pain level exceeded a 15 - (I was in crisis) but at that moment at 1:00 am - I realized I was literally in NO PAIN - none - got out of bed this morning - with NO PAIN... this was 12 1/2 hours after my first dose! My energy level and mental acuity are off the charts! I do not doubt that the other major issues will begin to solve

March 21, 2025

themselves sooner than later. My Acupuncturist has always told me that she's never had a patient whose body knew what it needed, wanted, and responded to so clearly and quickly - and I got to experience that again - first-hand with NANO SOMA... in LESS than 13 hours...

Thank you seems so inadequate - but thank you... rest assured I will keep you posted on my progress...

Susann Turnbull, April 2021

Richard,

Unfortunately, I had the first Pfizer COVID-19 injection. within minutes I felt lightheaded and hours later, I broke out in itchy burning hives which lasted for seven weeks. (until I started NANO SOMA) The doctors had me on IV antihistamine 60 mg... two other prescribed oral antihistamines with no prevail. Then a friend suggested NANO SOMA. drum roll.)

Hours later I woke up and noticed a shift. I was not burning or itching or even breaking out in hives. I am so elated.

March 21, 2025

Savana, April 2021

Hello Sir, I am Ganesh and I work as a Sub-Engineer at MCGM, 31, living in Ghatkopar (W), Mumbai. I wish to share my experience with COVID-19.

On the evening of Thursday, 18th June 2020, I felt a problem of breathlessness, so I talked with some of my ends about this problem. Some of them suggested to me that this kind of problem may occur due to wearing mask for a long time, and they also suggested that I take steam with added cloves and cinnamon, and also d me to take milk with turmeric. I followed those steps, after which I felt better in the morning; the problem breathlessness was reduced.

About that time, I began wondering – is this related to COVID-19? But I didn't have other symptoms such as a fever, cough, etc., so I thought this breathlessness problem is due to wearing a mask for a long time. Still, to avoid the risk with my colleagues, I didn't go to the office on Monday, and when I felt I didn't have much of a problem with breathlessness and didn't have any other COVID-19 symptoms, I decided to go to the office on Tuesday. But, again, in the evening of Tuesday 23rd June 2020, I felt the problem of breathlessness and the next morning I felt some body pain and minor fever after waking up.

With such symptoms, I decided not to go to the office and to take complete rest (still I wasn't sure whether I have COVID-19 or not). I was living with my wife and she took care of me, giving me steam regularly, ding cloves, cinnamon and providing turmeric milk.

While resting I was feeling better, but after walking and working, the breathlessness and body pain problems returned. With this experience, I tried to take maximum rest and minimum movement. The symptoms continued until Saturday morning. In addition, my wife Ruchita, 24, experienced a breathing problem and a sore throat on Saturday morning (27th June 2020), so on the same day, we decided to have a COVID-19 test.

For testing, we went to MCGM's Rajawadi Hospital, Ghatkopar, Mumbai, where they took our samples (throat swab) and after hearing of our symptoms, the doctors prescribed medicines. The next day, 28th June 2020, we received our reports, in which my wife Ruchita Shelke detected positive and I tested negative. The doctors also checked our chest xrays and said the xrays were clear and normal. Since my

- 200 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

wife was COVID-19 positive, the doctors gave her 10 tablets of HCQ for five days (1 for morning and 1 for evening), in addition to medicines prescribed on the previous day.

On 29th June 2020, we received a phone call from another doctor, who asked where would my wife like to be admitted, but as we live in a 3-room house where Ruchita could stay in a separate room, the doctor agreed to home quarantine, and also he advised us to take medicines, which were suggested on 27th June 2020 (the course of which we had started on the afternoon of 27th June 2020) and HCQ given on 28th June 2020 (the course of which Ruchita started on the evening of 28th June 2020). Now, with rest and medicines (we completed the course of prescribed medications), my in-laws provided meals that helped us to rest and provided us with good food. From 27th June, we started regularly to take hot drinking water, gargling with hot salt water, turmeric milk, kaadha, and two times steam with cloves, cinnamon, and Nilgiris oil; we are still practicing these things.

After hearing of our problems, my officers Shri Ramesh Deshmukh Sir and Shri Ramesh Kurhade Sir suggested and also provided 'NANO SOMA NUTRACEUTICAL' to us. We received this bottle on the evening of 01 July 2020 and as per the recommendation, I started to take 5 sprays 6 times a day, my wife takes 6 sprays 2 times on 1st July, 5 sprays 6 times on 2nd July, 6 sprays 7 times each on 3rd and 4th July.

In my case, after taking the 1st spray on the evening of 1st July, the problem of my blocked nose was gone after 1 or 2 hours, also my problem of breathlessness was reduced drastically from the morning of 3rd July 2020. In the case of my wife, she was feeling very weak from 28th June to 3rd July; from 4th July her weakness as reduced.

She had a sore throat and a little weakness and breathlessness (breathlessness is not continuous and intensive, occurring mostly before sleeping at night and for a few times during the day) up to 20th July 2020. From that date. we have both felt very well and completely recovered from COVID-19.

Thanks to NANO SOMA and Dr. Raghavan, sir, for such a wonderful innovation.

Thanks, and regards, Ganesh S.

Hello Richard, called a lot of friends and told them about my ankle. They all ordered NANO SOMA. Three ordered 12 bottles, the others ordered 5 bottles.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I originally ordered 5 bottles and then, after my extremely painful ankle became pain-free, just less than an hour after 5 sprays of NANO SOMA... I ordered 12 bottles more. I don't ever want to be without.

Many blessings, Jane R - in Phoenix, Arizona

February 2021

Dear Richard:

I have not been using the product for long. I'll just tell you small surprises.

My arthritis pain on my third finger right hand is not painful anymore, just a bit stiff. My stuffed- up sinuses have improved and the pain across my forehead is gone. Also, on Sunday I stepped right out of the bath, instead of having to haul myself out by using a bar attached to the bath.

Pretty good, eh! I am now taking 3 sprays in the morning and 2 in the evening. This is the best I can do for now.

Blessings, Kathleen, February 2021

For more information on the MagicDichol Family of Products, go to:

March 21, 2025

I have had psoriasis, eczema, and seborrhoea all my life. I have improved my skin a lot over the years because the work I do. However, there have been a couple of large spots on my scalp that have been hard to shift. I started spraying the NANO SOMA on them about 6 weeks ago, daily. The improvement is very encouraging. One spot has almost gone and the other is reducing. I hope they will both disappear very soon. It's a shame I don't have before and after pictures, but I didn't think to take them. Of course, I will reorder when I need to but, now, I still have 2 bottles left. I also believe you can cut out many other forms of medication if you take NANO SOMA, but this is very particular to the individual.

Blessings,

Barb, February 2021

Dear Richard,

Thank you for your message. I started using NANO SOMA a week ago and although I was quite fit already, I feel more relaxed, mentally sharper, have better concentration and, have more stamina during sport. I will certainly order NANO SOMA again!

Best regards,

Erik, February 2021

I have already reordered once and am getting ready to do so again quite soon. NANO SOMA is amazing stuff! I had Morgellons for around 3 years, a year and a half before I figured out what it was. It broke 2 of my teeth and ravaged my hair. The other day, a friend of mine commented that my hair is starting to look more like it used to. My sleep is better, and I generally have more energy. I notice NANO SOMA becoming less bitter.

Also have a growth or tumor on my hand. It's big and people have been bugging me to go to the doctor and have it removed. I don't think that's a good idea. I've been spraying it with NANO SOMA and it's starting to come apart. Pieces of it are coming off. I'd love to have the cream or gel for it but spraying works, too.

Lorie, January 2021

March 21, 2025

Hello,

Sasha here. For the past week, I have been suffering from food intolerance, which caused diarrhea. As a result, I was admitted to the hospital for 2 days. Following this, I was tested for COVID-19, and it was positive. Murlir recommended NANO SOMA to me and gave me instructions on how to consume it. After taking his advice and medication, I am completely recovered after just 36 hours. I will have results by Monday for both the COVID19 and antibody tests. Thank you, sir, and NANO SOMA.

August 22, 2020

Richard

The function of my Islets of Langerhans is now 97% today! (This illustrates Deb's recovery from Type I diabetes.) I'm almost there!

I have to say that while the process up until 70% was easy and quite joyful, it has since been extremely tough and there were times when momentarily I fleetingly felt like it would be easier to be an insulin-dependent diabetic.

It has required an intense reality check on this life and past lives. Life itself and my outward circumstances have construed in the direction of my healing. I am working with the people that I have karma with. I have had to make some very difficult life decisions about personal boundaries and where I draw the line especially with being treated disrespectfully by people.

I could not have achieved this so rapidly without the friendship and support of my friend and partner Greg, who is also a wizard at clearing psycho-spiritual shadow, spanning this and many past lives.

I am blessed to have NANO SOMA and the health benefits, which have improved my quality of life immensely. I am taking negligible amounts of insulin, now. Soon it will be none as my body continues to adapt to a new state of being. Thank you, Richard. I will stay in touch. So grateful to Raghu.

Best Wishes - Deb Walsh, May 2020

A different Deb...

Dearest Richard,

I feel so good. I got off of one of my blood-pressure pills which was twice a day. I've noticed my hair issue seems to be reversing, also, which is wonderful coz I've used colouring for over 30 yrs. I have

- 204 -

March 21, 2025

more energy, the palpitations are pretty much gone, except now and then. And I am getting younger!
Thank you so much Richard for introducing me to NANO SOMA!

Love, light & Many Blessings,

Deb, July 2020

Dear Richard,

My husband was cleaning the soffits of our house with a bleach formula. While on a ladder and king up with his hat and goggles on, a drop found its way into his eye. It was very painful. After washing his eye for at least 15 minutes, I had him spray some NANO SOMA into his eye. It burned like crazy! He continued spraying NANO SOMA under his tongue for 3 days. day 5, the redness and pain went away and his vision was back.

He is now a believer!

Thanks much, Richard and Raghu also for producing such a wonderful product.

Nancy G., January 2021

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

Dear Richard,

I have been using NANO SOMA since last Fall on my ears and eyes. I had pain in my ears and it's now gone, though I still have hearing loss it is better. My eyes had lots of itching and redness. Both the itching and redness are gone. Thank you, Richard, for NANO SOMA.

In love and light, Alvin, February 2021

Absolutely thrilled. My results are mind-blowing, and I am only heading into week 3 of use. I purchased an entire year's worth of product. I understand not only the science but the spirituality behind it all. This is a blessing from another dimension. I can't wait to share. Otherwise, speechless.

Update - I continue to be impressed with my healing response following the dosing protocol provided and in another 5 days will have a month's use in my body. Feels like it's been much longer and almost can't remember what I felt like without this magic.

Gratefully, Kate, April 2021.

I'm in my third week, or is it the fourth, of my first bottle. I have three new bottles to go (until I purchase again). The cancer on my face is almost all miraculously imperceptible. My mental clarity is improving and I feel healthier overall. None of this surprises me. I will be surprised if I don't feel even better in a few more weeks. I feel I "salt" or "seed" my being through the sprays in my mouth. I don't know where I most need it nor what it is most helping just yet. The great thing is that It knows and I believe in It (him if you will). So, I expect to be in touch. Thanks for keeping in touch.

Blessings, Larry, March 2021

I have been through a lot of stuff in my life. I'm a Retired Navy Amputee and it's just that I am starting to get a le more done. I can lift both arms above my head (I have not been able to raise my arms for about 20 years or and I feel more alert. It does help with what amputees call phantom pain; body functions are getting better.

Overall, I feel like I am more energetic. Works like crazy.

Thank you very much...

March 21, 2025

rry, April 2021

This is my second order for NANO SOMA. I have been noticing that my eyesight has changed for the better. I still need reading glasses, but I no longer need glasses to watch TV anymore. I just wanted to let you know that NANO SOMA really works.

Best Regards,

Dora Chu, February 2021

Hi Richard,

I have just completed the start-up regime and will continue to monitor progress. I have to say that most of my joints have improved. The worst ones are my knees and I'm still struggling with them... energy levels are greatly improved. On another level, I feel more "present".

I had a bone density scan a month ago and the results were better than the one I had in 2008!!! I can only attribute this to NANO SOMA. Considering rheumatoid arthritis has been with me for over 40 years, think I am doing well. Not sure how long I have been taking it. Your records will tell. I would like to know as well (December 2019). I've been enjoying your info on the Planet situation and keeping a close eye on that constantly.

Kindest Regards Carol James, February 2021

Great news, Richard - I had my last spray this morning - I will reorder the minute I receive your email to say we are good to go. Marcus and I walked 11km (door to door) last Sunday - out to Bunnings to get a sausage sanga - big day out ha-ha!!! This Sunday I am doing the virtual City2Surf Walk with a friend - 14km over Rocky Hill (the biggest hill in town - where the War Memorial stands).

Normally, I do the Sydney "City to Bondi Beach" each year - I have done it 8 times.

I figure something must be working as a few months ago, I did not think it was even a remote possibility. I was relieved when the real one was canceled in August this year.

Many thanks Rose, October 2020

Last week, Sylvia, whilst walking our woofers along the High Street, encountered a young couple. They walked out into the road to avoid her, social distancing, and she acknowledged them... Not seeing where she was walking, she tripped on the wobbly paving at the Stables Theatre car park entrance.

March 21, 2025

acerated. She was lucky not to have broken her wrist. The extensive bruising was distressing, as you can imagine the shock was not pleasant at all!!! She managed to get home alright. Later, when she was cleaned up and settled with a cup of tea, I suggested we spray her with NANO SOMA. She was reluctant, not believing it would do any good. Three days later, cuts all healed, all bruising gone. Her knee scabbed well and now no discomfort from her bruises, either. he is sleeping well, too.

For me, my right shoulder doesn't discomfort me anymore and I am sleeping the whole night. Before, I managed only two hours before distress and awakening. Usually, my hand would be numb, too, and rheumatism in the middle finger joint would be painful.

All gone. Sylvia is 78 and I am 84.

Yours Aye! Michael, July 2020

Update from Michael:

Hello. Richard again I am content with NANO SOMA. My energy level has remarkably increased. I am doing arduous work and am quite tirelessly more active and stronger, and am amazed, too. The arthritic right hand is not giving me any difficulty anymore.

Thank you,
Michael, August 2020

Sylvia fell and fractured her left radial on the 24th of August. Plaster off 6th October. The surgeon was amazed at her healed arm. It's still hurting but she's back to normal. This is a good report.

Michael.

Hello Richard!

Thank you for your email with the new testimonials. It reminded me that I should be sore today because I went cross-country skiing two days ago and I just realized I'm not even sore! I'm thinking the NANO SOMA may have something to do with it! What a pleasant surprise! I expected to be quite sore because this is a new activity for this 65year-young body and I skied probably two or three miles. I couldn't be happier to have accomplished this type of recovery when as certain I had overdone it.

Best Regards,
bbie, January 2021

www.magicdichol.info.

March 21, 2025

Dear Richard,

I love the product. It has connected with me in an unusual way. From the beginning, I felt a calling to take it, and I mean it. I felt "It" was asking me to use it. This type of connection has never happened before with any other product I have used. It is as if it is communicating with me at my cellular level. I feel it is protecting me from the virus (COVID19). My question is on pricing and the reason I am looking into the price is that I see myself using it for a long time so the price makes a difference. Right now, I am ordering the 3bottle bundle.

Maria, January 2021

With time, we expect the pricing to come down, although probably not in the next 12 months.

From: Dr. Giovanni, Bari, Italy - Oct 7th, 2020

Baseline Jan 2020 October 2020

Dr. Raghavan. As you know, I continue to help a friend who is 90 years old, who HAD terminal cancer on his face. He also had Type II diabetes, high blood pressure, cirrhosis of the liver, and his blood analysis was balanced. The doctors left him in his house to die...

I began to give him 6 sprays a day of NANO SOMA (also known as Metadichol) on January 29th.

The situation as of today is this:

- Blood analysis - normal
- Type II diabetes has disappeared
- High blood pressure eliminated.
- Liver improved a lot!
- for the facial cancer, the two photos tell the story.

Doctor Raghavan, thank you from the depths of my heart!!! You saved another life.

Giovanni

6 months with NANO SOMA:

My PSA dropped from 2+ to near zero

Blood pressure 128 over 78

Triglycerides were up to 300, now 160 - Cholesterol 260 no issue; low is no good Oh... lost 0lbs as well

Charlie - August 9, 2020.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Later update:

FYI, 6 months with NANO SOMA, I have shed 15 lbs of body fat, down to my 30s weight. Back, knees, all good.

Thank you.

One more update:

Hello, my friend!

FYI, I have now taken NANO SOMA for 8 months. Now, I have shed 17 lbs of body fat and have more staying power than younger folks. My back and knees, which I explained to you before, have healed. Is this the result of long-term use?

Thank you for all of your help.

You are one heaven of a guy!

Much love, Charlie, September 25, 2020

Like everyone else, I am always skeptical until proven otherwise. Maybe it's my Missouri roots. The ShowMe ate! Anyway, I purchased a 3-pack a month ago and received it after the biggest blizzard melted since we've been in TN. We got a culmination of 10". It delayed delivery for about a week. I have been very healthy all 61 years. Since we moved to Tennessee some 10-11 years ago, I've done hundreds and hundreds of hours of search on health, anatomy, detoxing bodily organs, states of mind, past lives, emotion, etc. Anything that has everything to do with health and why the "powers that were" continue to suppress natural remedies. I've personally found over 50 natural cures to cancer alone! Some of the people that brought this information forth have been shut down, arrested, or worse!

I was willing to try NANO SOMA because of the Masters of Vibration group (connected to my spiritual work - Richard) and the testimonials. I've been doing the 5 sprays under the tongue every morning for two weeks, wow. What I discovered was my right shoulder, which I use at great intensity for work - I'm in the lighting business, so my arms are above my head, changing out lamps and ballasts and rewiring fixtures daily.

We also play pickleball, which is similar to tennis, but on a smaller court, and also play golf.

- 211 -

www.magicdichol.info.

March 21, 2025

These were causing pain in my right shoulder for which I was using oils to get temporary relief.

After only 10 days of using NANO SOMA, my shoulder pain is completely healed! Who knew?

What I found interesting as well was after about a week, the outer back portion of my left foot started having light pains. Almost like a soreness. I believe that any toxins/acids that remained went to that area, sort of like how gout travels to the big toe. Well, after a few days of that it has now disappeared! So, I am very excited to tell family and friends about this Magic Elixir. Thanks, Richard. 'm also glad you don't have a storefront so that the oppressors cannot shut you down.

Rick C. Shultz, March 2021

Yes, Richard,

About 10 years ago I fell and jammed my thumbnail into the floor to break my fall. The nail separated from the nail bed and while not terribly unsightly, always stood out as I looked at my fingernail. The nail bed was exposed about 1/4 inch past the normal and never seemed to get any better. Within about 3-4 days, the nail bed regrew to its original position, now matching the other thumb. I was amazed and began checking other parts of my body and, sure enough, other things were happening as well. My skin tags, not that many but always there, began to disappear.

My alertness, while hitting the top end of the scales for a while, is now more pronounced and my clarity is off the charts.

I am not the normal case as I enjoy amazing health with no meds at the ripe age of 67, soon 68. I eat about a 95% carnivore diet with a very low carb intake. I've lost about 45 pounds over the past 14 months. Prior, I had a low b, high fat diet and never thought the vegetables were my nemesis; however, they were. I work about 12 hours a day and sometimes more and would be considered an outlier for sure.

Seldom exercise except for my normal routine around the house and around town, walking at a brisk pace. I do etch regularly, morning and night, which I highly recommend, and for those interested in exercise without risk, a large rocking chair. It moves the lymphatic fluid without too much effort. You can move to a minitrampoline er.

www.magicdichol.info.

March 21, 2025

Also, I believe it has helped my eyes 56789(00) and now I can read as I have never been able to before. I member taking the Evelyn Woods speed reading course in 1967. Until I took the NANO SOMA, I have been able to master speed reading as taught. Today I was able to read entire paragraphs as is intended.

The experience was surreal.

Thanks to you for your courage to come to Jeff’s show and Dr. Raghu, especially, and all the team.

Regards,

David, March 2021

I can’t remember the last time I felt this good.

My stress level is way down, I’m thinking more clearly, I’m not hungry and I only eat lightly once a day and have lost inches of belly fat. Even my back pain is going away. My energy is increasing, no more problem with my bowel. I was passing blood if I didn’t eat straight vegetarian.

And to let you know, I’m feeling stronger every day. My skin problems are also clearing up.

Thanks,

Kerry, March 2021

Hi Richard,

Your support is very much appreciated. I was introduced to Nano Soma through William Ekpa. After taking NANO SOMA for 1 2/3 months now, my sinus condition has improved and my wheezing while sleeping and walking as well as shortness of breath has almost disappeared.

I’ll keep you posted.

Best regards, Monika Conte, March 2021

Chronic fatigue syndrome, possible vaccine damage.

10 years ago, I took the swine flu vaccine and suffered recurring bouts of fever and flulike symptoms, then ultimately, it all developed into chronic fatigue syndrome, where every little thing to be done during the day seemed like a mountainous task. My energy levels were incredibly low and no doctor with myriad tests could find an explanation or find a treatment that would get me back to normal.

I was at rock bottom. Several months ago, I began to take several drops a day of NANO SOMA and to my surprise and the surprise of se close to me, things began to turn around after 4 weeks. My energy levels returned to where they were ore this damage occurred and even though I have to take a rest after doing too much (I am in my late 70s), I now able to lead a normal life, again. The difference for me is

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

astonishing and the only thing I changed during that time was beginning to take NANO SOMA. So, even though I cannot prove it, there is, for me, at least no other explanation as to what made the difference after 10 years of suffering.

Thank you, Dr. Raghavan, for discovering such a wonderful gift to humanity.

zel, Ireland.

Richard, I have used my NANO SOMA for three days. I have battled inflammation for over 20 years. I was hurting so much, I double dosed it for the three days and then back down to one dose per day after today. Today I have had more energy than I can remember, and I actually vacuumed my living room. Something I have not been able to do in more than 10 years.

Sincerely, maria-janet

Luv - m-j continental Superior Court Judge restoring Our precious Freedoms, December 2020

I have been controlling my blood pressure with plasma water from GANS, but then I started getting shortness of breath and chest pains, which bothered me, but not enough to go and see a doctor. After the first bottle of NANO SOMA, it went away.

Norma also has some issues that we hope she will have good results with.

Thank You, Norma & Bobby, March 2021

Dear Richard,

Here is an example of how fast NANO SOMA can heal a wound. My husband fell on a very abrasive surface and tore his forehead open. We put butterfly bandages on it. The next day he went to the Emergency Room and they remarked that it looked pretty good, considering the circumstances, cleaned it up, took a photo (which I do not have, but my husband saw it and it looked BAD)! Well, I gave him a bottle of NANO SOMA and this was the result one week later.

I also had an abrasion on his nose that has healed completely in that time. He was perplexed and totally amazed.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

He is now a major fan, after dissing it for quite a while.
BIG thanks to you, Richard and Raghu.

Nancy & Dom G, March 2021.

Hi Richard have really benefited from using the NANO SOMA spray since 22 December 2020, and the last bottle out of three is about to be consumed.

Even in the last week of December 2020, I already felt the difference in my energy level, it is raised to that of a younger person although I have already made 65 trips around the sun, Helios. Climbing my 66 steps condominium unit is as easy as when I started living here with my family more than 25 years ago.

My target is to be at my "20-30 trips around Helios" energy level.
That is the reason why I placed my second order for NANO SOMA spray.

Regards,

n, March 2021

Hello Richard,

I am writing to share my experience with NANO SOMA. I started using it about 3 bottles or 3 months ago. Now, all my life I have had food allergies and was always looking for relief without the medicines for asthma and allergies. When COVID-19 started about a year ago, I knew things like garlic and onions would be worth their weight in gold for prevention. I always wanted to use them, but I was allergic to them, along with wheat and corn. During this holiday season, I found myself going into wheat and corn fun foods, then I tried garlic and onions and no negative effects have been observed.

I was just curious about other people's experiences with NANO SOMA and have they ever experienced this positive effect. Of course, I feel my body is stronger when I exercise and breathe, so I can vouch for that, but I was wondering about the diminished allergies towards foods and the environment after only 3 months of using NANO SOMA.

Really appreciated the lower price of the product when a store was set up in the United States. I can definitely feel an overall positive effect on my entire system, and I was wondering if others are feeling the same things. Thanks, Richard, for the good service and excellent product.

Gregory, January 2021

- 215 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Gregory's experience is exactly what has been experienced by others. When using NANO SOMA, the body corrects e causes of allergic reactions. It appears to trigger a reset of our bodies back to their original blueprint.

Richard,

I started with 5 sprays once a day for the first 2 days. I subsequently increased it to twice daily the last 4 days.

I have noticed a drastic reduction of phlegm in my throat, and I feel like it (the phlegm) will be gone by the time through with 3 bottles (we'll see). Also, my eyesight has improved a lot. I can now read small print without needing to put on my reading glasses. Amazing!

Thank you for bringing this to the rest of the world. I shall keep you posted on the improvements as the days go by. Thanks, once again.

Regards, William E., February 2021

Richard,

I am glad to be able to report an amazing result after using the protocol of 4 times a day and then twice a y. As I mentioned in my previous email, after a week of 4 times a day, I had a healing response. Among her things, I had a severe outburst of Herpes blisters on my lips. When I started the second week of twice a day, I tried spraying directly on my lips, besides ingesting the 5 sprays. I only used one spray twice a day on my lips so I wouldn't finish my bottle before the week. In 3 or 4 days, my blisters had completely gone away. is known, Herpes blisters are extremely painful, and these were even more so. They normally take about weeks to go away.

I also don't experience any pain in a problematic jawbone infection after a failing bone implant that wasn't cleaned out properly. When things settle down in my country and the world, I will have it cleaned out by a biological dentist. I do intend to take NANO SOMA indefinitely, and the price reduction has been a boon for me.

I still have slight discomfort in my digestive system and occasionally my right shoulder with 2 torn tendons is slightly painful but much less than before. I also feel more energetic though the last few days

March 21, 2025

didn't get enough sleep. I am emotionally calmer as well. I do meditate as well, of course. still have my last bottle left and will be ordering next week.

Blessings, Shulamit, February 2021

Hello Richard,

My friend, Jackie, in Scottsdale, AZ., ordered 24 bottles, it arrived; she is very happy with the product. Jackie s slowly losing her eyesight, (along with a lot of other problems). She couldn't see well enough to place her order, so her daughter in Michigan purchased for her.

Jackie's circulation is very poor, her feet are always very cold (Age 80). Guess what? In just 3 days, her feet are as warm as toast!

My friend Patricia said you helped her place her order of 3, thank you. I bought 5 originally; I quickly ordered 12 when my ankle became pain-free, in just a few minutes after the hour! had to have more!

My friend Sharon (living just north of San Francisco) ordered 12, as soon as she got my phone call. She could hardly raise her arm, due to an auto crash in "December". Now, besides being pain-free, she has full use of her arm. Great, isn't it? We both placed our orders for 12, the same day; I think it was February 12th.

I express mailed a bottle to my brother in Baltimore, 2 weeks ago. (not there yet-just snow) I intend to send him 3 bottles if he likes the bottle I sent to him from my home in Phoenix. I'll probably do that tomorrow. Of course, he will like it!

That is all for now. Tomorrow, I will call my Vegas friends. Thank you, Richard, for helping them. Sent to you with love and many blessings.

ane R Lightner, February 2021.

Hello Richard,

I really enjoy and appreciate the NANO SOMA. I feel that it has made a difference in my body and I also believe he best is yet to come.

March 21, 2025

Thank you,

Nadine, February 2021.

Hi Richard

I am happy to report the skin cancers on my head have just about gone. One lot on my forehead has gone completely, the other larger one has a small crust and should disappear in a few more days. Still feel wobbly in the head and unsteady on my feet, so will persevere with the spray. My cat seems to have improved his wobbly walk. I think he's in sympathy with me.

Carol, February 2021

Thank you so MUCH Richard for the info on spraying your body and face. You are so right!!! I don't know why didn't think of that. I've also been doing the same on skin tags I developed due to the medication. Guess what? they are disappearing!!! OMG. And I've also used it on my forehead where I have kind of like a pimple, but hey've been there for years. hey are disappearing, also. And I've been doing this for almost a week. WOW!!!

Thank you, again. Take good care and a Very Happy Holiday to YOU and your family and friends.

Deb, December 2020.

Dottie has had chest problems since she was a child, tightness in the chest which restricted her breathing, and chronic cough (which was diagnosed as COPD about 10 years ago). After 3 weeks of using NANO SOMA spray, the tightness in her chest has been dramatically reduced and her cough is less frequent. She also experiences arrhythmias and has leukemia (which she manages with supplements) and is looking forward to relief from those challenges as well.

We are both avid health enthusiasts and follow anti-aging strategies. We are very interested in seeing results e: our telomere length. I am 74 and Dottie is 72.

On 8/27/20 I had a tooth pulled because it had had a root canal procedure about 20 years ago which became infected. The infected cavitation was cleaned out, sterilized, and sewn up plus an implant post was inserted.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Also, each day when I sprayed NANO SOMA sublingually, I directed one of the sprays right on that area.

I had a follow-up visit with my dentist 6 days later and as soon as he and his assistant looked in my mouth, they both exclaimed, "Wow! It looks like you had the surgery 3-4 weeks ago! It looks great! Thank you, NANO SOMA!!

Keep up the good work!!!

Blessings and appreciation to you and Raghu.

Paul, September 21, 2020

Thank you so much for your store and the alternative ways you offer for healing! I had a recurrence of my Rheumatoid arthritis in February. (I had originally been healed of it years ago by taking minocycline for over a year.) This time it wasn't getting better on the minocycline after three months and so I added the NANO SOMA. I finally started to recover last month and plan to continue the NANO SOMA going forward. Thank you.

Sincerely,

e, September 17, 2020

My name is Priyanka; I live in Mumbai, India, and I felt a need to share an experience of my life which I have gone through over the last 2 months.

My father died on 4th June 2020, and I wanted to share a bad experience about his death. In the beginning, he suffered from a viral fever and went to a clinic. The doctor gave him medicine, after which he felt good in 2-3 days and his fever left but his physical weakness remained. He again went to the clinic but the doctor said that it was due to the fever and not to worry. The doctor never suggested he take a COVID19 test. He is still feeling weak but had no fever and he had no taste in his mouth, but the doctor did not tell him to for COVID-19 testing.

My dad also agreed with that assessment. His appetite had gone down but we thought that may be due to the fever. He had no fever and no cough, either, so we were thinking it was a viral flu.

- 219 -

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

I, my dad did many other tests, including a lipid profile on 12-05-2020 and all reports were normal. His oxygen was 96 percent on 12-05-2020, so he was relaxed but still physically weak. No doctor recommended a COVID-19 test due to the absence of any fever.

Afer 2-3 days, one of my dad's friends, who is a neurosurgeon, messaged me to please admit your dad, due to loss of appetite. We were all scared - why did he say it like that? Apart from the weakness, my dad was fine and used to go alone to the clinic, and he went to the hospital on his own to get admitted. but there were no beds the hospital. Due to all the rubbish formalities of taking the COVID-19 test, we failed to have him tested.

Then finally, due to a reference from a doctor, we admitted him on 1805-2020 at Global Hospital, Parel multispeciality Hospital. At the time of going to the hospital, he was not in a bad situation, but his oxygen was 75 percent, and he went on his own legs to the hospital. Then the COVID-19 test report after 2 days was negative, but still, he was in ICU due to low oxygen saturation. He was allowed to talk on the phone. We used to talk every day. He was normal but for a low oxygen level. We tried everything including a Remdesivir Injection and also many other infection removal therapies. On 31-052020 at 8.30 pm I was talking to dad and he was very normal and he said I am OK and I need to move to where an airconditioned room was available. His neurosurgeon doctor also said that he was OK. On the same night, I got a call from that doctor saying that we need to do intubate him and we need to keep him on ventilation. So, for 3 days my dad was on ventilation, and we didn't talk from 1st June and on the evening of 3rd June, the doctor said that his BP was continuously going down and around 2.00 am my dad expired.

A week after my father died, my husband had symptoms and he was admitted to Nanavati hospital. At that time, one of my friends suggested to me to try NANO SOMA, and my husband took it and within 4 days his COVID-19 report was negative. A few days after discharge, he had an antibody test and he was positive for antibodies with a value of 6.

I am very upset that I could have saved my father's life had I known about the product earlier.

Please, this is my request to everyone: Use this product and share your experience, so that other people can take advantage of it. I know it's difficult for people to easily believe this, but this is my personal bad experience from not using NANO SOMA with my father. At least I could have given it to my dad when he was suffering the slight fever and it could have prevented that low oxygen saturation level.

Thanks to all the team that delivered the product to the hospital where my husband was admitted.

ease try this product if you are a COVID-19 patient. This could save your life.

March 21, 2025

Priyanka

Hi, Doc (Raghu) have some amazing news: my father has senile dementia. He has administered 6 sprays every day for 6 months date. Yesterday, he had a magnetic resonance test and it showed that compared with that of 2 years ago, his condition has remained unchanged. Senile dementia is a chronic degenerative disease and theoretically cannot be stopped. This means that with 6 months of use of NANO SOMA, my father's brain has rejuvenated by 2 years.

Thank you from the bottom of my heart and may God bless you...

Giovanni, August 2020

Hi Richard,

Thank you so much for the advice to get NANO SOMA. Both my husband and I have been taking it for several weeks, now. With his Chemo and Radiation, he has skin itching and he has occasional Oesophageal pain. A spray of the NANO SOMA takes the pain away from his Oesophagus and spraying on his skin and gently rubbing it in stops the itching! In addition, he takes two doses a day - 223 - - one at breakfast and another at dinner time. I think it is working to expedite the removal of his cancer. As time goes on, we shall know more.

March 21, 2025

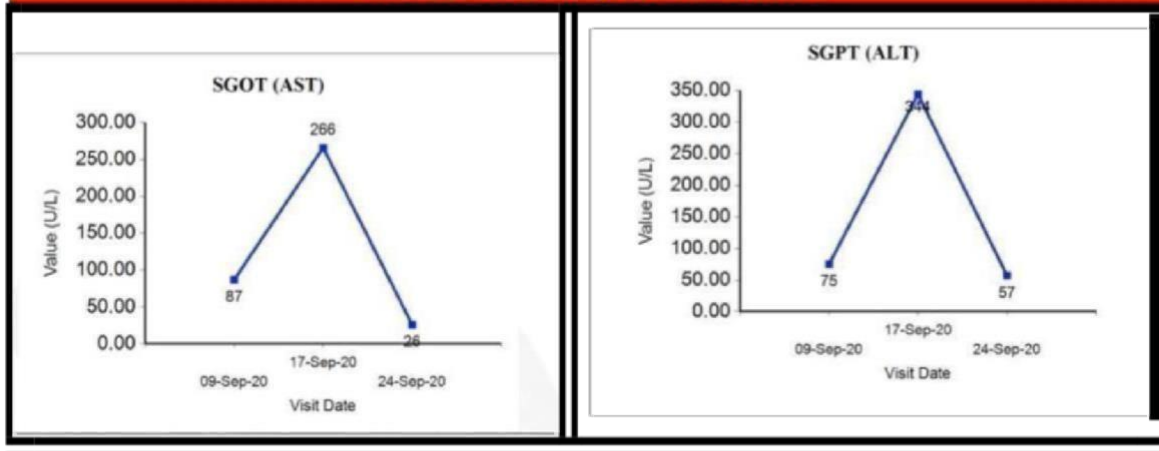

Sept

24th 2020

Female patient 51 infected with Brucellosis on her farm

Symptoms Fever every day for a few hours to 103 at night and normal in morning treated with Metadichol @ 20 mg per day. Today all parameters returned to normal

Elevated liver enzymes normalized

Brucellosis is an infectious disease caused by bacteria. People can get the disease when they are in contact with infected animals or animal products contaminated with the bacteria. Depending on the timing of treatment and severity of illness, recovery may take a few weeks to several months.

One last comment; I feel like I have a connection with the Metadichol (NANO SOMA). It seems to know where would like it to work and it goes right there. It feels like we are a team working together! It's organic and knowing! Lynne Pedersen Oriental, NC May 2020.

Update:

My husband has now completed 6 weeks of Chemo and Radiation and has approximately two months to recover before surgery. The doctors could not believe how well he had done. He had no sore esophagus, no difficulty eating, very little nausea (mostly controlled with NANO SOMA and Green Tea). His itching from the radiation as easily controlled with the spray. He takes it 3x a day and I believe it is making a huge difference. Now I think NANO SOMA can really jump into gear and help with his recovery. just hope that it will become available before the last of our supply is gone. Thank you for all you do! I am continually amazed at all you do!

any Blessings, Lynne Pedersen

March 21, 2025

Richard,

I'm happy to share with you what I've noticed since starting NANO SOMA at the end of February, '20. So, it's 6 weeks now that I've been on 5 squirts a day. I have watched as it's systematically gone through my body addressing all the old issues I have acquired in 70+ years! It started with the kidneys (slight pain me up), the stomach (odd pains), all the different bones I've broken (and it's many) - the NANO SOMA would go re and I would feel healing energies starting. Currently, it's addressing the broken ribs I've had, on both sides of body and I can feel things changing there as well. It's been addressing my lung issues (bronchitis, pneumonia, urisy, etc.), with a bit of a cough happening, my eyes (short-sighted since 10) and I can feel them changing as ll. The main thing is my skin. I've had skin conditions all life, including eczema, psoriasis, seborrhoea,etc.

At one point in my 40's, I looked like the elephant man for months on end as my skin erupted so badly with something t was accidentally put on my scalp. I do notice the sunspots on my face changing a bit and it would be awesome hey reduced in size and colour (damage done when I was 11y.o.). I would say minor inflammation in the toes is ter as well. So, I'm happy to keep on watching and noticing how things are changing. I've been able to reduce other natural products I've been using as well. I am not on any medication at all and intend to keep it that y.

Blessings,
Barb

Good morning, Richard,

As you know, I have been using NANO SOMA daily since late 2019. As a then 67yo (now 68), I was and am fortunate to have no serious illnesses or bodily problems, but decided to use it to maintain and even prove my overall health, based on the existing information and testimonials I read.

I do, however, have the beginnings of some varicose veins appearing on my right leg, both above and below the knee. They didn't look very nice, but as they were causing me no pain, I had no plans to visit a vascular surgeon. I just forgot about them.

A week ago, I was drying my leg after a shower and thought I was seeing things. Or not seeing things, more to the point. The protruding veins had gone. I reached for my glasses to double-check. And yep.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

Gone. Just like magic. I now actually enjoy looking at my hairy, 68yo legs (something I'm sure I have all to myself!!). Thank you, Richard, and thanks to Raghu.

John Wysham

My annual physical including EKG and echocardiogram, everything was within normal limits. I am 91 years old and I doubt that happens by itself. I credit NANO SOMA!!!

Richard,

I wanted to report back and say that the NANO SOMA I ordered from Australia has been great! I am in London, where we are still fairly out and about in the streets during this pandemic (my classes are still on!). e other day, I caught a sore throat and fever. Of course, I can't say what it was. It likely wasn't COVID-19, t it did feel like the onset of something larger than a cold (tonsillitis, flu, something of this nature). The spray worked wonderfully – it was the quickest I've ever gotten over anything. No groggy recovery period, either. My energy feels even better than before I had gotten sick.

Just thought I'd share.

Erin, March 2020

Richard,

This is what John has written regarding spraying NANO SOMA on his skin when it itches:

When my issue (chronic eczema - lifelong) gets out of control, it's so relieving to finally find a product that does at it claims to do and provides almost immediate relief where no other product, throughout my entire life, s been able to do. John Rawson!

Jennifer Rawson Activating Change Mt. Waverley, June 2020

Hello Richard,

I would like to let you know that I think that the NANO SOMA is a lifesaver for me. I am well past my mid 60's d still work 12-hour days, 14 days in a row. e amazing part is it's not a problem for me at all and I

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

experience very little fatigue. manage far better than the younger ones doing this very demanding physical work. skin is another area that I am happy to say is looking far improved. am halfway through my second bottle and just love it.

So, thanks so much for bringing us NANO SOMA, Richard.

Blessings to you, CC, June 2020.

Hello, Richard,

As I said, the NANO SOMA has arrived. I have used the spray twice now before retiring for the night. I never sleep well; two hours at the most since I had a fearful accident to my right pelvis, hip joint, femur, and right arm/shoulder. I had a prothesis and a "concreted" pelvis. Three bolts. Severe infection post-op: sepsis. Supra spinatus severed but repaired, rotator cuff op: 14th Sept 2014.

I have a cup of tea and watch TV all night. My right shoulder, too, hurts all the time and my arm gets numb; hence, I am awakened. My hand is dead to feel but I recover it with exercise and movement. For the past two nights, I have slept for nine hours!!!

No pain or discomfort whatsoever. Sylvia is amazed at seeing me "sleeping like a log". Watch this space: I will report again.

Update:

Three days ago, I twisted whilst mixing concrete and my right-side waist muscle was stretched. It was painful. Today all the discomfort has left. Back to normal, more concreting.

Kind regards, Michael, June 2020

Thank you, Richard, for turning me onto this. I've been using it and it completely cleared my pneumonia this winter, which I believe was the COVID-19 before anyone heard about it. I actually had a lingering sore in my nose all winter and I sprayed this on it and it healed up right away. I can't say enough about NANO SOMA...

Blessings to you and your work, urie D. Wheeler

March 21, 2025

Hi Richard,

I ordered the NANO SOMA before Christmas, received it, and began using it to heal my diabetes. I have been able to cut back on my insulin doses and my blood sugar has been registering in the normal range for the last two weeks. I am very pleased with these results and am quite hopeful as a result.

Later:

Good morning, Richard

I have been consistently using the NANO SOMA spray. My blood sugar is definitely under better control. I still use my medicine but have been able to lower my insulin dose and my blood pressure is lower as well. I rubbed my arm the other day and my skin actually felt smoother and tauter. I look forward to greater improvement and trust that my doctors will be pleased as well.

Blessings, Susan

I used NANO SOMA for about 5 months continuously, and I was just amazed by its effects on my entire system. My blood sugar came to almost normal, my polycythemia (no other known cure) was abolished totally with cell counts back to normal range. I felt more energetic, with enhanced vitality and vigor. All my recommendations for this unique and outstanding product.

Dr. Ravi Dutt Mishra, June 2020.

Morning Richard:

I am also sharing with you that I KNOW it is the NANO SOMA that is assisting me right now because I was slammed yesterday with an AI virus that wants to stop me. Last year I had quite the dance with these viruses that really knocked me around. But I know that with NANO SOMA, I have so much more recovery immediately in place from the get-go.

I have tested this in several ways to know this is truth.

Heart blessings,

by

March 21, 2025

My name is Giovanni. Because of the movement of 5 intervertebral discs then repositioned after two months, I suffered severe pain due to the inflammation of all the nerves connected to them.

I have tried several anti-inflammatory and pain relievers, even in high doses, despite having never taken medicines in my life, all to try to reduce the pain and at least try to be able to walk. Despite all the attempts made, the pain reduction was minimal. I then began to take 5 Metadichol sprays a day.

Honestly, I did it for a serious problem of degenerative coxarthrosis that I have now more than 20 years, but I was amazed how in about ten days of taking Metadichol, I started walking again once I had almost no inflammation and pain.

I remember thanking God for taking those pains out of my body because they were so strong that I often stopped thinking. I also remember thinking that God can use many ways to help us and use exceptional men who invent exceptional substances like them All this is the truth...

big hug to all, Giovanni

Good morning, Richard,

I have been using NANO SOMA for about 3 months and I am feeling quite well for an old bloke - 76 next August. My knees don't have the pain they used to. I had open-heart surgery 17 months ago, all was well there. I have convinced my wife Vivienne to start taking NANO SOMA. She started on 25th April. She was diagnosed with Vascular Dementia, early stage. After I googled dementia, printed it out, and printed the information you sent on NANO SOMA, she decided to start taking it. We will see if it slows it down or stops it. Thank you, Richard, for everything you do, I have followed you for many years.

Love & Light - Bill Sternbeck

I sat on the sofa amid the Bio-geometry(?) folks last night during your presentation. I am writing to express my gratitude for you and your presentation and the products you represent. I came into the presentation last night with my sacroiliac joint in an uproar - a condition of 7 years -- as I held the lumbar belt, the pain went away! I had also ordered NANO SOMA. I've used it since its arrival Thursday of last week. Every day I have asked my body if it wants/needs any of the supplements I had been taking (via kinesiology). The answer with just a couple of exceptions has been NO. I suspect it is ALL and MORE than what it is known to be!

- 227 -

March 21, 2025

I cannot thank you, Bettye, and the Universe enough for being a representative of such great products and coming into my . I look forward to following you and including your recommendations in my healing journey. How does it get any better than this? A few days later: During those 7 seven days, I've also taken NANO SOMA; I've continued to ask my body (using kinesiology) what supplements it wants from my storehouse of many. With only a couple of exceptions, the body has declined most of the supplements regularly. I believe it is this, the NANO SOMA, that is firming my skin from head to toe -- and I assume many other wonderful things are going on -- but the skin is the visible reflection of faith!

Gratefully yours, Colleen Steele.

Last year was the most stressful year I have suffered in my life with my health. I'm otherwise a healthy woman in her 60s

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

with no prior health issues other than the occasional cold. In July 2019, I began having symptoms of acid reflux, usitis, nausea, severe abdominal & lower back pain, urination frequency, rapid weight loss, and extreme tiredness with no energy to walk or sit. After being prescribed antibiotics at urgent care for the sinus problem, the other symptoms persisted.

August 2019, I was admitted to the ER for 10 days and diagnosed with a rare autoimmune vasculitis called anulomatosis with polyangiitis with kidney involvement. The disease caused swelling and irritation of blood vessels in the kidneys, nose, sinuses, throat, and lungs. Chest xrays and lab tests also revealed multiple nodules the lungs. The standard treatment is 210 years of infusions, which began in the hospital with antibiotics, high doses of IV steroids, and the IV chemo infusion of Rituxan. I continued this treatment as an outpatient for the following month.

During my time in the hospital, I was using 25 sprays of NANO SOMA, 3-5 times/day under my tongue, on my discoloured tongue, and into my nostrils. After being released from the hospital, I continued this secret weapon NANO SOMA, every day. My original tongue colour came back and gained so much energy, which I desperately needed!

Within one month I had made a full recovery. My doctors consider my case to be “atypical dramatic improvement.” In January 2020, I was officially remission after the chest xrays showed complete resolution.

After my first dose, I noticed a vast difference in my mental and physical energy, which started to build up! s product proved effective in strengthening my immune system against the adverse side effects of steroids d infusions.

I am happy that my health has done a turnaround with this amazing product. I am still using NANO SOMA consistently, 10-15 sprays 3-4 times daily, without fail. I’m definitely a believer in this great product. And the wonder is that NANO SOMA starts to work on your body almost immediately!

With proper nutrition and NANO SOMA, I regained my healthy weight, feel energetic and active, and can practise daily routine activities.

From my own experience, I consider NANO SOMA to be an irreplaceable ingredient in my everyday life

because it has exhibited positive effects in building my immune system and has given me a whole new life and e ability to stay healthy all year round!

I am grateful to the inventor who has brought this wonderful, effective, natural product NANO SOMA to enable us to experience positive health outcomes and successful results. I will continue to use the spray every day to live a healthy, worry-free life!

Hooray to NANO SOMA!

March 2020

Spraying twice/day for correction of distortions after a retina tear and detachment repair in my right eye, and left eye for fatigue. Vision in both eyes has improved. Slowly the distortions in the right eye are decreasing.

I am still not able to drive or read with the right eye; however, I'm closer to that ability than in the last 2 years after 2 months of use. Thanks for the information.

Bill

I am using NANO SOMA in my ears for ringing. I've used it for 4 days, lying on my side for 15 minutes and in 4 days the ringing has stopped.

Dear Richard

I started taking NANO SOMA spray at the end of December. I had a bone graft in my jaw on 6th January. My dental surgeon examined it after three days and thought it seemed more like a week's healing had taken place.

There was a little bruising but not a lot. I'm sure NANO SOMA helped.

I have just been for a diabetic review and my blood results were all in the normal range for sugar, blood pressure, and all the other things they test for. I had not taken diabetes medication for 6 weeks so I credit NANO SOMA for the results. My daughter is taking NANO SOMA and my son is also.

Kind regards,

- 230 -

March 21, 2025

Pam MacLennan

This company is so much what we need right now. This spray is in every car and every bedroom because we cannot stand being without it. We use it to keep our immune systems healthy while this crazy pandemic is happening, and I spray it in my nose when I feel allergy/sinus irritation and on wounds.

My son had a gash on his head and after we irrigated it, I sprayed this on it first and then added the antibiotic ointment. It is crazy easy to use, tastes fairly benign, and is super-duper safe. Even with my son's autoimmune condition. When he had his first flare-up, he wanted to use the spray constantly. Some immune herbs stimulate autoimmune conditions in a bad way, but not this one. I am a user for life.

Andrea, May 2020

Hi Richard,

Appreciating the rapid & remarkable recoveries.

As a rule, the dosage remains at one a day unless under the weather - in which case it goes to 5 individual sprays over the day.

This seems to be across the board except for people who are particularly compromised - where they begin at sprays a day, moving to 5 if in an acute illness.

Definitely doing a lot better with my autoimmune as well as acute infection. The lift in mood as the body exists in less struggle is a state I never thought I'd ever enter again. is most helpful toward keeping my spiritual focus, which of course is essential right now.

Leah

My husband had rashes, eczema on his back for years, especially itchy in the winter. I heard about this product m a trusted friend and bought it for him for Christmas. He was not very willing to use it for a while.

For more information on the MagicDichol Family of Products, go to:

www.magicdichol.info.

March 21, 2025

After reading the reviews and searching for information online, he started to use it once a day. IT GOT BETTER! e is no longer feeling so itchy. There is one dark spot about 1-inch diameter, which is getting lighter in front of y very eyes. Pink skin grows back from underneath the dark circle. Seeing this change, brings me joy, hope, and gratitude. I would recommend this product to anyone.

Helen

In only two days I got rid of rashes on my forehead. I have experienced rashes with greasy skin for years and now it is all gone. Amazing!! I use the skin spray, also, internally and my body is starting to react positively.

Štef

I developed a rash on my elbows and was given a prescription by my doctor to hopefully clear it up. I diligently applied the prescribed cream for a week and it had no effect whatsoever. I decided to try some of the NANO SOMA that I had on hand and I started seeing results after the first day of applying it.

My rash that I had suffered with for almost a month now, was gone within a week of applying it. This product works for so many different skin problems, I will make sure my house is always stocked with some NANO SOMA.

Rachel

This man began to use NANO SOMA to protect himself from COVID-19. Photos are before and after using NANO SOMA

Toe soon after he got started. Toe after some 3 weeks of use.

March 21, 2025

Post-extraction, I was given prescriptions for antibiotics, painkillers, and a lot of instructions of proper care during the period following extraction.

On coming home, with full confidence in my prior experiences with NANO SOMA, I sprayed NANO SOMA directly into the hole where the root was. The following morning, the wound had healed completely!!

No pain, not even the memory thereof! Two weeks later - I am writing to you to share. incredible!

Again, Thank you.

Sincerely,

Kayo

The following is a powerful testimonial by a TB specialist doctor on [TB treatment in India](#)

[This an official letter](#) from a Mumbai hospital confirming the treatment of 30 COVID19 positive patients with NANO SOMA.

Richard,

I have found after 3 months my right shoulder rotator cuff pain and inflammation have gone! At 53 yrs. of age, that's very welcome, as it's been painful for 10 yrs. I have had significant health issues, mostly cleared -3 years ago, before NANO SOMA. I was bitten by ticks, 90 bites (well actually "bed bugs" a close relative) in Africa, and subsequently had Lyme's disease for 5 years, which went undiagnosed until 2015. I had largely recovered strength and energy levels. However, very slow to come right, but significantly improved with NANO SOMA these last few months are the joint pain and stiffness. The shoulder and lower back and sacrum. The lower back is improving each week. Just 6 months ago, I was not able to work physically with anything heavier than a few kilos and was not able to work in a stooping, leaning forward position for more than an hour or two a day. This mobility and strength have returned now to about 90%.

March 21, 2025

Fantastically fast with just 5 sprays under the tongue, in the morning before breakfast. Also attributed to NANO SOMA, significant gut issues of inflammation triggered by a severe bout of Gastroenteritis from the same trip to Africa. I went there for work (1999-2013) so many times with no problems

Africa is a great place for many reasons, I might add. I have, over the last 10 years, not been able to drink a glass of wine or eat anything sweet without pain and discomfort. I've tried diets like gluten-free for 3 years - did not affect it. Chronic gut inflammation!

Now it has gone altogether!

I went skiing in September, where for 7 years I had not the strength to pack the car to go skiing. I was on the hardest runs more times a day than I have ever, even when I was in my 20's. Though I can't attribute this to the NANO SOMA as I went skiing in January up in the Northern Hemisphere and had the same very high energy levels, this was before I got the NANO SOMA. Thank you very much to Richard for bringing this product to the market and promoting it so well!

Best regards,

Airn McLennan, November 2020

Thank you for NANO SOMA; it is doing wonders for me now and my stepdaughter and beautiful life partner. Same results: weight loss, appetite reduction, and more stamina. For myself after 10 months, it goes far beyond that.

Thank you for the healing of my knees and back. I just completed a major undertaking that would not have been possible without your help. I moved mountains in 90 days. (Another story not yet to discuss.)

As the Greeks say - Agape Amou,

Charlie, November 2020

Message from a NANO SOMA user in India

March 21, 2025

My daughter had weak eyesight since birth but was not detected until she was 14 years old. By then she had a cylindrical number of -2.5. By 18 it was -8.5. I always felt bad about it and was apprehensive about having her eyes operated on.

In November 2019, I was introduced to NANO SOMA when Dr. Raghavan launched this product in India. I was impressed and interested in this product because he said it is completely natural and safe. Also, I saw a friend of mine who was suffering from severe mouth ulcers for 3 years, tried many homeopathic and ayurvedic remedies with no respite, be cured by NANO SOMA. Also, the ease of consumption impressed me. So, I started giving it to my daughter at that time.

Yesterday, we went for an eye test. Her number is now - 6.5 and -7. Also, her cylindrical number has reduced. The doctor was surprised that, at 31, the number can change. NANO SOMA has also helped in curing her hair loss and dandruff. She is much calmer and more peaceful and happier. Thank you to Dr. Raghavan, who gave us the best years of his life to give us this wonderful gift. I am sure many people will benefit from NANO SOMA and be able to live a normal life.

Dear Sir,

I am Malvin Williams from Mumbai, India. Myself and my wife Mrs. Sheela Williams were afflicted with Novel Coronavirus (COVID-19) on 13th November 2020. Fortunately, during that period, maybe a week before, we had t started using NANO SOMA once/day for my diabetes and thyroid for Sheela. So, once we were afflicted, I went to our doctor, who gave us lots of medicines for almost 2 weeks.

That's when I called Mr. Murli who immediately recommended us to use NANO SOMA with a 4 hourly interval daily and stop the medicines prescribed by the doctor. I had fever and weakness and Sheela was having some slight cold and weakness. All these symptoms vanished within 4 days for me and within 2 days for Sheela. Both of us started working from home on the 5th day. We were clear of the virus on the 6th Day. Also, both of us tested positive for SARS-COV2 antibodies on November 26th. The best part was not only recovering but we have no side effects, even after 19 days, whereas in my circle of friends, almost all have some sort of breathing problem or pain in some part of the body.

MAGIC MEDICINE

I would like to share my experience with something I call the "magic medicine" - yes! I'm talking about "NANO SOMA".

*Disclaimer: This is not with the idea to promote anything; nobody has asked me to do it. This is my personal experience with this product, and I want the world to stop taking medicines unnecessarily and switch to a better lifestyle. I have two reasons as to why I'm writing this to you all.

I was suffering from something called recurring herpes where once in 2-3 months, I used to develop puss-like bubbles around my forehead, underarm, and thigh areas. The dermatologists said it's something I'll have to deal with my whole life and there's no cure for it. Once I started taking NANO SOMA, things changed! I initially started this medicine just like how I started my other medicines. I honestly had little to no hope of this medicine working, either, because that's how tired I was of trying medicines, and my mother wanted me to give this one last shot.

Today, I'm so grateful for the person who has come up with this MAGICAL MEDICINE, because from that day, the puss bubbles slowly started disappearing. So, whenever I used to experience the outburst of these bubbles, I used to take 5 sprays and also spray the medicine on the wound. It has disappeared for me and this is something that I can absolutely cannot believe.

A CURE FOR COVID-19!!!

It prevented me from getting COVID-19. My mother tested positive and I was in complete contact with her. There was no help in the house and I had to be with her 24/7. I just kept taking 5 sprays of NANO SOMA every day. In my mind, I thought I would 100% get it because I was with an active COVID-19 patient all the time. It was so hard for me to believe that I had to get myself tested thrice and I tested negative each time. So, guys, 5 days made a huge difference in our lifestyles. I stopped taking all other medications after I started NANO SOMA and it is perfectly taking care of my overall health.

March 21, 2025

Thank you very much, Dr. Raghavan, for inventing a great product like NANO SOMA. It saved and protected my entire family from COVID-19, recently. I'm the one who was the spreader of the COVID-19 infection to my family, around 6/7 Sept 2020, but I only showed symptoms such as no smell or taste and tremendous weakness on 10th Sept.

Immediately, all 4 of us went into self-isolation and started doses of NANO SOMA - 5 sprays under the tongue every 4 hrs. On Sept 10th, my wife became infected, and later my daughter and son. To be honest, we haven't taken a single pill since we were infected, except a few doses of paracetamol taken by my wife and daughter to control temperature, and we continued to use NANO SOMA.

My symptoms cleared first, after 7 days, but my wife was experiencing some sort of irritation in her chest. So, as a matter of safety, she was admitted to Masina Hospital on the night of 21st Sept, with a stipulation that Masina hospital will not inject Remdesivir or ocilizumab without our prior permission and, most importantly, she will not stop her doses of NANO SOMA, which she was taking regularly and spaying in her nose. Meantime, my daughter was having continuous dry coughing and she sprayed her nose with NANO SOMA at regular intervals. My son was also taking NANO SOMA regularly.

I had an antibody test for COVID-19 on 21st Sept. My antibody score was 16.00. Later, my son also had an antibody test, which was also positive. My wife and daughter also tested positive for antibodies.

In short, NANO SOMA protected me and my family from the COVID-19 attack. Now, if everyone in the world ked for NANO SOMA, the world would be free from COVID-19.

Rgards,

mesh Bhutekar Deshmukh, Vice president, Municipal Engineer's Association Mumbai., India.

In the third week of September, I woke up one morning with an aching body. I thought it was a normal flu, so I rested with no medicines, except 5 sprays of NANO SOMA twice a day. By day 3, I was absolutely fine, but on the very same day, I experienced a loss of smell and taste. That led me to have a PCR test,

- 239 -

March 21, 2025

and I tested positive for COVID-19. Another senior member of our family (senior citizen) also tested positive. I started spraying NANO SOMA Spray every 4 hours and in 3 days I got my sense of smell and taste back. I had my antibody test a few days later that showed a value of. There was also a stark improvement in my Vitamin D levels after the regular consumption of NANO SOMA.

I was advised by many to take antibiotics and the typical course that allopathy doctors suggest for COVID- but I decided to stick with NANO SOMA and it worked wonders for both the senior citizen member of our family and me.

I will ever be grateful to Dr. Raghavan for creating this life-enhancing and lifechanging product called NANO SOMA. This has come as a blessing for my entire family and me. My parents are regularly consuming NANO SOMA, and within 3 months, their diabetes is under control despite reducing their total number of diabetes s.

Thank you very much, Dr. Raghavan.
mal Shah, October 2020.

te:
ice is a personal trainer and nutritionist based in Bangalore India, Sushma is a NANO SOMA Distributor in Mumbai India.

I don't know where to begin my testimonial regarding the miracles I've experienced from using NANO MA!! There are so many... that I've lost track!! So, let me start from the beginning:

Perimenopause - This was the primary reason I started using NANO SOMA in December 2019, after you first told me about it. Before starting it, I was experiencing 25 days/month heavy bleeding menstruation.

After visiting the gynecologist repeatedly and after she put me on a 3-month hormone treatment as the last try to help regulate my cycle (Diane - 30). I then started to feel like something was going terribly wrong in my body and the side effects were unacceptable. Also, after the 3-month cycle, the bleeding cycle was back. Being someone who doesn't take allopathy drugs (except Thyronorm for Hypothyroidism) this bleeding made me hate my body.

I even underwent a complete medical check-up and with near-to-excellent reports and a confirmation of perimenopause being the only reason, I had begun to lose hope of normal life after this. And I was only 39 years old!! When you mentioned the potential power of NANO SOMA and reading its scientific research, I

- 240 -

www.magicdichol.info.

March 21, 2025

decided to try as my last resort. And almost like magic - I stopped bleeding excessively and returned to my normal 28- day cycle in just 1 month. What's better still - it stayed that way since then (11 months now).

Hypothyroidism - When I shared my reports with you and Dr. Raghavan and I was told that NANO SOMA will fix this, too; you also helped me taper my doses with the assurance that TSH functions will normalise. And I can happily say that I was able to taper down and completely get off Thyronorm within 2 months of beginning NANO SOMA! I haven't once experienced any weakness or lightheadedness or hunger fluctuations as a result, either.

Rare and strange lesion - Incidentally, I developed a strange-looking, small (but growing) growth in an odd place my body within weeks of starting the course - to which Dr. Raghavan mentioned that sometimes a problem first peaks and the infection gets out before it is completely cured. I waited patiently and also sprayed topically, as recommended for a few months. It took a long time, while the growth was stopped, the lesion finally appeared after 8 long months. And I am super thrilled!!!

FOR MY SON - My son was six when we started NANO SOMA, and in his 6 years, the only illness he repeatedly suffered from was allergies. Nebulizers and at times with steroids were a routine at our house for him. Since we started NANO SOMA (December 2019) we've used it just once and now the nebulizer has been packed away permanently!!!

COVID-19 - I haven't stopped normal interactions and travel when required. In fact, at the very onset of the Pandemic, amidst the strict Lockdown, I had no option but to keep visiting the hospital to source morphine my bed-ridden mother, who was in her deathbed (last stage cancer). However, I wasn't worried to visit the hospitals because I had NANO SOMA. I've travelled via flights and taxis with my son on a holiday earlier this month and we both fell very sick within 2 days of reaching our destination but I had NANO SOMA and both of severe cold and headaches went away in just 2 days (upped the doses) and we had a wonderful 15-day vacation!!

COVID-19 PATIENTS - My dear and beloved friend was COVID-19 positive and hospitalized with a severe lung infection and breathing trouble. Going on my word, he said yes to NANO SOMA (along with Plasma Therapy) and calls it a 'miracle solution'!! The imminent risk of diabetes from Plasma Therapy was mentioned to him by the doctors, but with NANO SOMA he feels confident that he's safe.

March 21, 2025

Thank you so much, Sushma, for introducing NANO SOMA to me and my loved ones and I cannot thank Dr. Raghavan enough for what he has done and continues to do for humanity. I hope and pray that the mafia pharma and drug industry can be overcome by these solutions.

Forever grateful,

nice Pearl, 29 October 2020

m V. Suresh from Chennai. I received information about NANO SOMA being useful for COVID19 infected symptomatic people; that with 5 days NANO SOMA turns COVID-19 positive patients to negative. That miracle happened in my life. I had severe symptoms of cough, loss of smell and taste, a week around October 19. I used 5 sprays/day for 2-3 days. I felt much better but tested COVID19 positive on a CT scan. I was admitted to the hospital for 6 days. I used NANO SOMA, 5 sprays every 4 hours. Now, the COVID19 RT-PCR test is confirmed negative. Thanks to NANO SOMA.

Our hospital doctor teams were happy. I'm now free from COVID-19 all because Mr. Kumar introduced me to NANO SOMA at the right time. Happy NANO SOMA!! *post dated October 15, 2020, and shared with Dr. Palayakotai Raghavan*

The second test was for the SARS-COV-2 virus and for SARS-COV-2 antibodies.

March 21, 2025

Metadichol and Covid -19 patient experience:

I am Nisha aged 33-year living in Thane (suburb of Mumbai) India. On 12th August 2020 i had Fever, Stomach pain, Dysentery, Vomiting . Next day on 13th I went to my physician and he suspected food poisoning so he gave me antacids for two days but my symptoms did persisted. . On Aug 15th The Doctor suggested trying with with extra dose. But after one more day my symptoms were getting worse.

Then on 17th I again went to the doctor and he immediately suggested that I get admitted in the hospital. The hospital doctor told suspected these symptoms were due to Covid-19. They did Swab testing for Covid-19 and on 18th report came out as positive. The hospital doctor told me to go to Covid-19 center but I told the doctor i prefer home quarantine.

After reaching home I called my company boss and told her that I was Covid-19 positive. She immediately told me about Nano Soma an Immune Spray which is very effective on Covid-19. On 19th August I got the Nano Soma around 4 p.m in the evening and Immediately started taking this 5 sprays (5 mg) every 6 hours and within 24 hours my all symptoms went gone. On 23rd August 2020 four days later my Antibody test was positive with a value of 25.9 Today, I am so happy that because of Nano Soma I fully cured.of Covid-19. Thanks to my boss and may god bless the Inventor of Nano Soma.

March 21, 2025

My Maltese named Oliver (12 years old, approximately 10 lbs) was diagnosed with SchiffSherrington disease, which is similar to ALS (amyotrophic lateral sclerosis) – a progressive neurodegenerative disease that affects nerve cells in the brain and the spinal cord) in humans. In February of 2020, Oliver became actually paralyzed in his back legs. We took him to the vet and we were given a grim outlook about his future. The vet prescribed a liver a steroid and sent him home, hoping for the best, but we were convinced that we were going to have to put him down by the end of that week since he was no longer able to walk – even with the steroid treatment.

Seeing that the steroid was offering no visible improvement after several days, we were preparing to have Oliver euthanized. At that point, Dr. Joseph Marasco, my father-in-law who is a biochemist and a vigorous proponent of Metadichol, suggested that I give him a dose of Metadichol daily. We started giving liquid Metadichol spray (about 1 ml) to Oliver once per day and, within a week, he was walking again (not well, but walking nonetheless).

Oliver is going on almost 10 months with the same daily dose of Metadichol, and he is walking better than he did two years ago... well before his diagnosis! We have seen an amazing turn around for our little up!

There are also some 60 pages of testimonials [here](#).
